Crime, Criminal Justice and Masculinities Stephen Tomsen,2017-07-05 This volume features the leading contemporary articles that are part of or related to the new masculinities approach in this sphere These comprise an impressive range of theoretical and empirical work including important cultural and ethnographic analyses They emphasise the relationship between masculinities the causes and patterns of most criminal offending and victimisation and the broader workings of the wider criminal justice system of policing public and private criminal courts corrections and prisons All of the material has been selected from flagship international journals and was produced by a global mix of male and female researchers with diverse disciplinary backgrounds These scholars share the view that masculinities are plural socially constructed reproduced in the collective social practices of different men and embedded in institutional and occupational settings Furthermore

masculinities are intricately linked with social struggles for power that occur between men and women and different men. Crime, criminal justice and their cultural representation are key terrain for these masculine contests and are always overlain with issues such as social class, age, race, ethnicity and sexuality.

Routledge Handbook on Offenders with Special Needs Kimberly D. Dodson, 2018-05-11. Current estimates indicate that approximately 2.2 million people are incarcerated in federal, state and local correctional facilities across the United States. There are another 5 million under community correctional supervision. Many of these individuals fall into the classification of special needs or special populations, e.g. women, juveniles, substance abusers, mentally ill, aging, chronically or terminally ill offenders. Medical care and treatment costs represent the largest portion of correctional budgets and estimates suggest that these costs will continue to rise. In the community, probation and parole officers are responsible for helping special needs offenders find appropriate treatment resources. Therefore, it is important to understand the needs of these special populations and how to effectively care for and address their individual concerns. The Routledge Handbook of Offenders with Special Needs is an in-depth examination of offenders with special needs such as those who are learning challenged, developmentally disabled and mentally ill, as well as substance abusers, sex offenders, women, juveniles and chronically and terminally ill offenders. Areas that previously have been unexamined or examined in a limited way are explored. For example, this text carefully examines the treatment of gay, lesbian, bisexual and transgender offenders and racial and gender disparities in health care delivery as well as pregnancy and parenthood behind bars, homelessness and the incarceration of veterans and immigrants. In addition, the book presents legal and management issues related to the treatment and rehabilitation of special populations in prisons, jails and the community, including police/citizen interactions, diversion through specialty courts, obstacles and challenges related to reentry and reintegration and the need for the development and implementation of evidence-based criminal justice policies and practices. This is a key collection for students taking courses in prisons, penology, criminal justice, criminology and related areas of study and an essential resource for academics and practitioners working with offenders with special needs.

Prison Violence Kristine Levan, 2016-04-08. Drawing on a range of research and media sources to provide an international perspective on the topic of prison violence, this book focuses on the impact of such violence on the individual both while he or she is incarcerated and upon his or her release from prison, as well as on society as a whole. With a special emphasis on comparisons of violence among incarcerated populations in the United States, Canada and the United Kingdom, *Prison Violence: Causes, Consequences and Solutions* explores the various systems that exist to combat the problem whilst also considering public perceptions of offenders and punishment as influenced by media and coverage of high profile cases. Providing a comprehensive analysis of prison violence on national and international levels, this book examines the extent of the problem, theoretical understandings of the issue and concrete solutions designed to prevent and handle such violence. As such, it will be of interest to policy makers as well as scholars of sociology, criminology and penology.
