Muller,Jim Murrell,1997 **Miniatura Or the Art of Limning** Edward Norgate,1919 **Andrew Marvell's Liminal Lyrics** Joan Faust,2012-10-12 Andrew Marvell s Liminal Lyrics The Space Between is an interdisciplinary study of the major lyric poems of seventeenth century British metaphysical poet Andrew Marvell The poet and his work have generally proven enigmatic to scholars because both refuse to fit into normal categories and expectations This study invites Marvell readers to view the poet and some of his representative lyrics in the context of the anthropological concept of liminality as developed by Victor Turner and enriched by Arnold Van Gennep Jacques Lacan and other observers of the in between aspects of experience The approach differs from previous attempts to explain Marvell in that it allows multidisciplinary and multi media contexts in a broad matrix of the areas of experience and representation that defy boundaries that blur the line at which entrance becomes exit This study acknowledges that the poems discussed and by implication the entire corpus of Marvell s work and the life that produced it derive from a refusal to draw a definite divide In analyzing a small selection of Marvell s life and lyrics as explorations of various realms of liminality in word and image readers can see a passageway to the poet s works that never really reaches a destination instead the unlimited possibilities of the journey remain Thus the in between aspects of the poet and his poetry actually define his technique as well as his brilliance **The Athenaeum** ,1919 *The Athenæum* ,1919 **Of Sheep, Oranges, and Yeast** Julian Yates,2017-01-10 In what senses do animals plants and minerals write How does their writing mark our livesour past present and future Addressing such questions with an exhilarating blend of creative flair and theoretical depth Of Sheep Oranges and Yeast traces how the lives of yes sheep oranges gold and yeast mark the stories of those animals we call human

Bringing together often separate conversations in animal studies plant studies ecotheory and biopolitics *Of Sheep Oranges and Yeast* crafts scripts for literary and historical study that embrace the fact that we come into being through our relations to other animal plant fungal microbial viral mineral and chemical actors The book opens and closes in the company of a Shakespearean character talking through his painful encounter with the skin of a lamb in the form of parchment This encounter stages a visceral awareness of what Julian Yates names a multispecies impression the way all acts of writing are saturated with the writing of other beings Yates then develops a multimodal reading strategy that traces a series of anthropo zoo genetic figures that derive from our comaking with sheep keyed to the story of biopolitics oranges keyed to economy and yeast keyed to the notion of foundation or infrastructure Working with an array of materials published and archival across disciplines and historical periods Classical to postmodern the book allows sheep oranges and yeast to dictate their own chronologies and plot their own stories What emerges is a methodology that fundamentally alters what it means to read in the twenty first century

Lusheck, 2017-08-07 Rubens and the Eloquence of Drawing re examines the early graphic practice of the preeminent northern Baroque painter Peter Paul Rubens Flemish 1577 1640 in light of early modern traditions of eloquence particularly as promoted in the late sixteenth and early seventeenth century Flemish Neostoic circles of philologist Justus Lipsius 1547 1606 Focusing on the roles that rhetorical and pedagogical considerations played in the artist s approach to *disegno* during and following his formative Roman period 1600 08 this volume highlights Rubens s high ambitions for the intimate medium of drawing as a primary site for generating meaningful and original ideas for his larger artistic enterprise As in the Lipsian realm of writing personal letters the humanist activity then described as a cognate activity to the practice of drawing a Senecan approach to eclecticism a commitment to emulation and an Aristotelian concern for joining form to content all played important roles Two chapter long studies of individual drawings serve to demonstrate the relevance of these interdisciplinary rhetorical concerns to Rubens s early practice of drawing Focusing on Rubens s *Medea Fleeing with Her Dead Children* Los Angeles Getty Museum and *Kneeling Man* Rotterdam Museum Boijmans Van Beuningen these close looking case studies demonstrate Rubens s commitments to creating new models of eloquent drawing and to highlighting his own status as an inimitable maker Demonstrating the force and quality of Rubens s intellect in the medium then most associated with the closest ideas of the artist such designs were arguably created as more robust pedagogical and preparatory models that could help strengthen art itself for a new and often troubled age
