Miniature Painting In The Latin Kingdom Of Jerusalem:

Miniature Painting in the Latin Kingdom of Jerusalem Hugo Buchthal, 1986 The publication of Professor Buchthal's work on Crusader miniature painting represented a landmark in medieval studies and for nearly thirty years this book has remained the standard work of reference on the subject For the first time the illuminated manuscripts produced in the Latin Kingdom of Jerusalem were assembled as a group from the twelfth century Melisende Psalter to the later manuscripts written in Acre following the fall of Jerusalem itself Professor Buchthal provides an exhaustive description of the individual manuscripts with each miniature reproduced The author's photographs have been used again for this reprint to maintain the high quality of the original publication and the format remains the same Professor Buchthal's examination of the material remains unchallenged and subsequent research has confirmed the links originally suggested with Byzantine French and Italian illuminated manuscripts of the same period The scope of this work which includes a palaeographical and liturgical study of each of the manuscripts covered set new standards for art historical research and it remains invaluable both as a detailed introduction to the manuscripts and as the most comprehensive study of Crusader miniature painting that has yet appeared It has been almost unobtainable for a number of years and this reprint will be welcomed by art historians and manuscript specialists alike

crusader studies It deals with the period stretching from the establishment of a Latin hierarchy after the First Crusade to the final conquest by the Mamluks in 1291 Dr Hamilton examines the development of the Church in the Patriarchates of Jerusalem and Antioch and its organisation from the parish level upwards Two chapters are devoted to a study of its sources of income and the financial problems that arose after the Battle of Hattin through the thirteenth century Particular attention is paid to the relations between the Latin and the Eastern Churches The author documents the unequal treatment given to the Orthodox and to the separated Churches and traces the course of the various attempts at church union In his conclusion he makes an overall assessment of the spiritual achievements of the Church during this period and the extent to which it justified the first crusaders ideals

The A to Z of the Crusades Corliss K. Slack, 2009-07-24 During the late 11th through the early 14th centuries at least seven major expeditions were made between Western Europe and the Holy Land with the goal of ending Muslim control of Jerusalem Ultimately the crusaders were driven out but not before a cultural exchange had taken place that had an immense impact on Western Europe and an equally enormous albeit less positive impact on Arabs and the Islamic world Although the crusades occurred many centuries ago echoes still resound through the current clashes of nations and ideologies kidnappings for ransom assassinations and the declaring of jihad all making the crusades an eminently timely subject This one volume overview provides an accessible reference work for scholars students and general readers on the period with numerous entries on key persons places events battles and sieges use of weapons and

armor and the deeper issues of the political and cultural background Complete with a detailed chronology and a bibliography this work allows readers to learn how Europe was changed forever by these battles with Islam *Intercultural Contacts in the Medieval Mediterranean* Benjamin Arbel, 2013-04-15 These essays by medievalists touch upon many aspects of intercultural links in the medieval Mediterranean covering not only strictly cultural and religious contacts but also political military ethnic social institutional scientific and technological relationships **Between Constantinople and Rome** Kathleen Maxwell, 2016-12-05 This is a study of the artistic and political context that led to the production of a truly exceptional Byzantine illustrated manuscript Paris Biblioth que Nationale de France codex grec 54 is one of the most ambitious and complex manuscripts produced during the Byzantine era This thirteenth century Greek and Latin Gospel book features full page evangelist portraits an extensive narrative cycle and unique polychromatic texts However it has never been the subject of a comprehensive study and the circumstances of its commission are unknown In this book Kathleen Maxwell addresses the following questions what circumstances led to the creation of Paris 54 Who commissioned it and for what purpose How was a deluxe manuscript such as this produced Why was it left unfinished How does it relate to other Byzantine illustrated Gospel books Paris 54 s innovations are a testament to the extraordinary circumstances of its commission Maxwell s multi disciplinary approach includes codicological and paleographical evidence together with New Testament textual criticism artistic and historical analysis She concludes that Paris 54 was never intended to copy any other manuscript Rather it was designed to eclipse its contemporaries and to physically embody a new relationship between Constantinople and the Latin West as envisioned by its patron Analysis of Paris 54 s texts and miniature cycle indicates that it was created at the behest of a Byzantine emperor as a gift to a pope in conjunction with imperial efforts to unify the Latin and Orthodox churches As such Paris 54 is a unique witness to early Palaeologan attempts to achieve church union with Rome **The Kingdom of Cyprus and the Crusades, 1191-1374** Peter W. Edbury, 1991 A contribution to the history of the Crusades in the Levant this text is a scholarly study of medieval Cyprus
