

Minimum competency testing policies were originally intended

To add meaning to a high school diploma; i.e., students had to demonstrate at least minimum levels of knowledge and skills if they were to graduate or at least move on to the next grade level.

For graduation, it was assumed that these minimum levels would translate into successful job performance.

Minimal Competency Testing:

Minimal Competency Testing Peter W. Airasian, George F. Madaus, Joseph J. Pedulla, 1979 *Goodbye To Excellence* Mitchell Lazarus, 2019-03-13 In recent years concern over high school graduates who could not balance checkbooks or read directions has led many states to require students to pass minimum competency tests before receiving their diplomas This legislators believe will again make diplomas meaningful as well as promote better education Dr Lazarus points out that any testing scheme creates inequities and that these tests are of special concern due to the emphasis society places on high school graduation a just society cannot accept their potential to mark a student for life The problem he believes is that society cannot agree on the goals of education making relevant testing difficult He also questions whether such testing will produce better curricula and notes that while more emphasis on the basics may be needed undue stress on them may weaken other parts of the curricula He concludes that the goals of minimum competency testing are laudable but that implementation may do long term damage to education Final Report of the Select Joint Committee to Study Minimum Competency Testing in Elementary and Secondary Schools Indiana. Wise, 1977 **What's Happening in Minimum Competency Testing** Robert Frahm, Jimmie Covington, 1979 **Legal Implications of Minimum Competency Testing** Joseph Beckham, 1980 The legal implications of state mandated minimum competency testing are assessed Many state constitutions establish education as an individual's right Court decisions have required school systems to provide educational services to every child who can benefit from them implying equality of access to these services When a minimum competency testing program has the effect of denying an

educational benefit then it can be argued that the testing program denies equality of educational opportunity violating the Fourteenth Amendment Title VI of the Civil Rights Act of 1964 or Section 504 of the Rehabilitation Act of 1973 Minimum competency testing statutes may violate standards of due process where an educational benefit has been denied and state action is judged to be arbitrary or lacking in fundamental fairness However courts have been reluctant to overturn state action where minimal elements of due process have been provided Provision of clear educational objectives is necessary to establish the relationship between curriculum and the competency standard but objectives may create a legal duty of care permitting a lawsuit based upon breach of duty to educate Procedural safeguards for a testing program will vary according to state law but a number of guidelines are suggested GK **Minimum Competency Testing** Evangelina Mangino, Marilyn A.
