of important musicological reflection research and debate Scholars have also been turning their attention to the work of lesser known contemporaries such as Phill Niblock and Eliane Radigue or to second and third generation minimalists such as John Adams Louis Andriessen Michael Nyman and William Duckworth whose range of styles may undermine any sense of shared aesthetic approach but whose output is still to a large extent informed by the innovative work of their minimalist predecessors Attempts have also been made by a number of academics to contextualise the work of composers who have moved in parallel with these developments while remaining resolutely outside its immediate environment including such diverse figures as Karel Goeyvaerts Robert Ashley Arvo Pärt and Brian Eno Theory has reflected practice in many respects with the multimedia works of Reich and Glass encouraging interdisciplinary approaches associations and interconnections Minimalism's role in culture and society has also become the subject of recent interest and debate complementing existing scholarship which addressed the subject from the perspective of historiography analysis aesthetics and philosophy The Ashgate Research Companion to Minimalist and Postminimalist Music provides an authoritative overview of established research in this area while also offering new and innovative approaches to the subject

**This Must Be the Place** Jesse Rifkin, 2023-07-11 Winner of the New York City Book Awards A Kirkus Best Book of July An InsideHook Book You Should Be Reading This July A fascinating history that examines how real estate gentrification community and the highs and lows of New York City itself shaped the city's music scenes from folk to house music Take a walk through almost any neighborhood in Manhattan and you'll likely pass some of the most significant clubs in American music history But you won't know it almost all of these venues have been demolished or repurposed leaving no record of what they were how they shaped music scenes or their impact on the neighborhoods around them Traditional music history tells us that famous scenes are created by brilliant singular artists But dig deeper and you'll find that they're actually created by cheap rent empty space and other unglamorous factors that allow artistic communities to flourish The 1960s folk scene would have never existed without access to Greenwich Village's Washington Square Park If the city hadn't gone bankrupt in 1975 there would have been no punk rock Brooklyn indie rock of the 2000s was only able to come together because of the borough's many empty warehouse spaces But these scenes are more than just moments of artistic genius they're also part of the urban gentrification cycle one that often displaces other communities and eventually the musicians themselves Drawing from over a hundred exclusive interviews with a wide range of musicians deejays and scenesters including members of Peter Dinklage and Mary White Zombie Moldy Peaches Sonic Youth Treacherous Three Cro Mags Sun Ra Arkestra and Suicide writer historian and tour guide Jesse Rifkin painstakingly reconstructs the physical history of numerous classic New York music scenes This Must Be the Place examines how these scenes came together and fell apart and shows how these communal artistic experiences are not just for rarefied geniuses but available to us all
