studies and Indian philosophy Travels in the Netherworld Bryan J. Cuevas, 2008-04-02 In *Travels in the Netherworld* Bryan J Cuevas examines a fascinating but little known genre of Tibetan narrative literature about the d lok ordinary men and women who claim to have died traveled through hell and then returned from the afterlife These narratives enjoy audiences ranging from the most sophisticated monastic scholars to pious townsfolk villagers and nomads Their accounts emphasize the universal Buddhist principles of impermanence and worldly suffering the fluctuations of karma and the feasibility of obtaining a favorable rebirth through virtue and merit Providing a clear detailed analysis of four vivid return from death tales including the stories of a Tibetan housewife a lama a young noble woman and a Buddhist monk Cuevas argues that these narratives express ideas about death and the afterlife that held wide currency among all classes of faithful Buddhists in Tibet Relying on a diversity of traditional Tibetan sources Buddhist canonical scriptures scholastic textbooks ritual and meditation manuals and medical treatises in addition to the d lok works themselves Cuevas surveys a broad range of popular Tibetan Buddhist ideas about death and dying He explores beliefs about the vulnerability of the soul and its journey beyond death karmic retribution and the terrors of hell the nature of demons and demonic possession ghosts and reanimated corpses Cuevas argues that these extraordinary accounts exhibit flexibility between social and religious categories that are conventionally polarized and concludes that contrary to the accepted wisdom such rigid divisions as elite and folk monastic and lay religion are not sufficiently representative of traditional Tibetan Buddhism on the ground This study offers innovative perspectives on popular religion in Tibet and fills a gap in an important field of Tibetan literature **Absolute Delusion,**

Perfect Buddhahood Jamie Hubbard, 2001-01-01 The San chieh Three Levels was a popular and influential Chinese Buddhist movement during the Sui and T ang periods counting powerful statesmen imperial princes and even an empress Empress Wu among its patrons In spite or perhaps because of its proximity to power the San chieh movement ran afoul of the authorities and its teaching and texts were officially proscribed numerous times over a several hundred year history This study of the San chieh movement uses manuscripts discovered at Tun huang to examine the doctrine and institutional practices of this movement in the larger context of Mahayana doctrine and practice **Dāna** Ellison Banks

Findly, 2003-01-01 This book argues that donation is one of the central practices in early Buddhism for without it Buddhism would not have survived and flourished in the many centuries of its development and expansion Buddhist relationship between donors and renunciants developed quickly into a complex web that involves material life and the views about how to attend to it Buddhist dana s great success is due to the early and continuing use of accommodation with other faiths as a foundational value thus allowing the tradition to adapt to changing circumstances *Faith & Philosophy of Buddhism* V. S. Bhaskar, 2009

from Mongolia to Sri Lanka and from Japan to the Middle East A fascinating insight into the historical progress of one of the world's great religions *A Bibliography of Bertrand Russell* Kenneth Blackwell, Harry Ruja, Sheila Turcon, 2003-09-02 From 1895 the year he published his first signed article to four days before his death in 1970 when he wrote his last Bertrand Russell was a powerful force in the world of mathematics philosophy human rights and the struggle for peace During those years he published 70 books almost as many pamphlets and over 2 000 articles he also contributed pieces to some 200 books The availability of the Bertrand Russell Archives at McMaster University since 1968 has made it possible for the first time to compile a full descriptive bibliography of his writings The Collected Papers are based on it Fully annotated the Bibliography is textually oriented and will guide the scholar collector and general reader to the authoritative editions of Russell's works It includes references to the locations of all known speeches and interviews and reproductions of the dust jackets of Russell's books Blackwell Ruja and Turcon have cooperated for nearly 20 years on the new Bibliography Lord Russell saw the extensive additions for it near the end of his life and declared I am impressed Of Ancestors and Ghosts Adeana McNicholl, Assistant Professor of Religious Studies Adeana McNicholl, 2024 In Part I of this book I argued that preta narratives participated in a larger world building process that negotiated the contours of the Buddhist cosmos and with it the place of the departed Through stories about encounters between humans and pretas Buddhist authors explored the place of the departed in a karmic cosmological system worked out how to best assist them and advocated for the importance of the sangha in facilitating these offerings These tales do not merely reflect the process through which the preta as a specific entity and rebirth category became distinguished from the ancestral departed but also participated in this process This illustrates the importance of viewing narratives in Rob Campamy's terms as argumentative Stories are not merely the distillation of more abstract doctrine but are sites for the construction of religious worldviews This illustrates that religious cosmologies are not laid down fully formed in doctrinal treatises They are cumulatively built over time and popular culture can do important work in the aggregative construction of cosmologies Martyrdom, Self-Sacrifice, and Self-Immolation Margo Kitts, 2018-05-01 Suicide in the forms of martyrdom self sacrifice or self immolation is perennially controversial Should it rightly be termed suicide Does religion sanction it Should it be celebrated or anathematized At least some idealization of such self chosen deaths is found in every religious tradition treated in this volume from ascetic heroes who conquer their passions to save others by dying to righteous warriors who suffer and die valiantly while challenging the status quo At the same time there are persistent disputes about the concepts used to justify these deaths such as altruism heroism and religion itself In this volume renowned scholars bring their literary and historical expertise to bear on the contested issue of religiously sanctioned suicide Three examine contemporary movements with disputed classical roots while eleven look at classical religious literatures which variously laud and disparage figures who invite self harm to the point of death Overall the volume offers an important scholarly corrective to the axiom that religious traditions simply and always embrace
