The Myths and Gods of India Alain Danielou,2017-01-01 This study of Hindu mythology explores the significance of the most prominent Hindu deities as they are envisioned by the Hindus themselves Referred to by its adherents as the eternal religion Hinduism recognizes for each age and each country a new form of revelation and for each person according to his or her stage of development a different path of realization This message of tolerance and adaptability the very heart of Hindu polytheism resounds clearly throughout Alain Danielou s work Photographic plates by Raymond Burnier further illustrate the many facets of Hindu teaching and grace the significance of the Gods of the Vedas as well as Vishnu Shiva Brahma Kali Shakti and other deities

Yahweh among the Gods Michael Hundley,2022-01-13 In this study Michael Hundley explores the diverse deities of ancient Near Eastern and biblical literature from deified doors and diseases to the masters of the universe Using data from Mesopotamia Hittite Anatolia Egypt the Levant and non priestly Genesis and Exodus Hundley explains their context specific approach to deity which produces complex and seemingly contradictory portraits He suggests that ancient deities gained prominence primarily by co opting the attributes of other deities rather than by denying their existence or inventing new powers He demonstrates that the primary difference between biblical and ancient Near Eastern presentations lies in their rhetorical goals not their conceptions of gods While others promote divine supremacy Genesis and Exodus promote exclusive worship Hundley argues that this monolatry redefined the biblical divine sphere and paved the way for the later development of monotheism and monotheistic explanations of evil **The Baseball Gods** Ronald DiFabbio,2006-07

Have you ever watched a baseball game and wondered why on some days every good call or lucky bounce goes in favor of the

team you're rooting for while on the other days it seems like there is a grand conspiracy perpetuated by some higher power to keep them from winning. Or maybe you've wondered why some players always seem to get the big hit in the clutch while others wilt when the spotlight shines on them. Or on a more personal level maybe you're someone who can't figure why your life is not what you had always hoped it would be and you feel powerless to do anything about it. The questions of baseball and life are as mysterious as the compulsions that drive us to answer them but there are a group of beings that make their home on the ball fields of our youth and in the landscape of our dreams who can answer all our questions and teach us to live to a better life. They are the Baseball Gods and this is the story of how I met them how they have changed my life.

Shamanism arises from the actions the shaman takes in non-ordinary reality and the results of those actions in ordinary reality. It is not a religion yet it demands spiritual discipline and personal sacrifice from the mature shaman who seeks the highest stages of mystical development. *Children in Ancient Israel* Shawn W. Flynn, 2018-08-29 Flynn contributes to the emerging field of childhood studies in the Hebrew Bible by isolating stages of a child's life and through a

comparative perspective studies the place of children in the domestic cult and their relationship to the deity in that cult The study gathers data relevant to different stages of a child s life from a plethora of Mesopotamian materials prayers myths medical texts rituals and uses that data as an interpretive lens for Israelite texts about children at similar stages such as pre born children the birth stage breast feeding adoption slavery children s death and burial rituals childhood delinquency This analysis presses the questions of value and violence the importance of the domestic cult for expressing the child s value beyond economic value and how children were valued in cultures with high infant mortality rates From the earliest stages to the moments when children die and to the children s responsibilities in the domestic cult later in life this study demonstrates that a child is uniquely wrapped up in the domestic cult and in particular is connected with the deity The domestic cultic value of children forms the much broader understanding of children in the ancient world through which other more problematic representations can be tested Throughout the study it becomes apparent that children s value in the domestic cult is an intentional catalyst for the social promotion of YHWHism
