A Biographical and Literary Study of Stephen Hawes, with Special Reference to the Minor Poems G. S.

Humphreys,1928 **The Minor Poems of John Lydgate** John Lydgate,1962 Court Poetry in Late Medieval England and Scotland Antony J. Hasler,2011-03-10 This book explores the anxious and unstable relationship between court poetry and various forms of authority political and cultural in England and Scotland at the beginning of the sixteenth century Through poems by Skelton Dunbar Douglas Hawes Lyndsay and Barclay it examines the paths by which court poetry and its narrators seek multiple forms of legitimation from royal and institutional sources but also in the media of script and print The book is the first for some time to treat English and Scottish material of its period together and responds to European literary contexts the dialogue between vernacular and Latin matter and current critical theory In so doing it claims that public and occasional writing evokes a counter discourse in the secrecies and subversions of medieval love fictions The result is a poetry that queries and at times cancels the very authority to speak that it so proudly promotes The Rhetoric of the Page Laurie Maguire,2020-11-03 This wide ranging and entertaining book explores blank space from incunabula to Google books Blanks are a paradox simultaneously nothing and something gesturing to what was once there or might be there They are also a creative opportunity for readers as well as writers readers respond to what is not there and writers come to anticipate that response Thus blank space develops literary and ludic applications Each chapter focuses on one typographical form of what is not there on the page physical gaps Chapter One marks of incompleteness such as c Chapter Two and the asterisk as a stand in for things that cannot be said Chapter Three By looking at the early modern page as a visual unit as well as a verbal unit this volume shows how the relationship between textual layout and textual content is as productive for writers as it is for readers Mise en page influences readers in the same way that rhetoric influences readers It is thus possible to speak of the rhetoric of the page *Romancing Treason* Megan Leitch,2015-01-29 *Romancing Treason* addresses the scope and significance of the secular literary culture of the Wars of the Roses and especially of the Middle English romances that were distinctively written in prose during this period Megan Leitch argues that the pervasive textual presence of treason during the decades c 1437 c 1497 suggests a way of conceptualising the understudied space between the Lancastrian literary culture of the early fifteenth century and the Tudor literary cultures of the early and mid sixteenth century Drawing upon theories of political discourse and interpellation and of the power of language to shape social identities this book explores the ways in which in this textual culture treason is both a source of anxieties about community and identity and a way of

responding to those concerns Despite the context of decades of civil war treason is an understudied theme even with regards to Thomas Malory s celebrated prose romance the Morte Darthur Leitch accordingly provides a double contribution to Malory criticism by addressing the Morte Darthur s engagement with treason and by reading the Morte in the hitherto neglected context of the prose romances and other secular literature written by Malory s English contemporaries This book also offers new insights into the nature and possibilities of the medieval romance genre and sheds light on understudied texts such as the prose Siege of Thebes and Siege of Troy and the romances William Caxton translated from French More broadly this book contributes to reconsiderations of the relationship between medieval and early modern culture by focusing on a comparatively neglected sixty year interval the interval that is customarily the dividing line the no man s land between well but separately studied periods in English literary studies

Allegorical Quests from Deguileville to Spenser Marco Nievergelt, 2012 An examination of sixteenth century quest narratives focussing on their conscious use of a medieval tradition to hold a mirror up to contemporary culture Offers the first full study of the allegorical knightly quest tradition from the Middle Ages to the Renaissance Richly satisfying as impressive in the detail of its scholarship as in the elegance of its critical formulations It seamlessly moves between different literary traditions and across conventional period boundaries In Dr Nievergelt s treatment of this theme the successive retellings of the tale of the knight s quest come to stand as an emblem of shifting values and norms both religious and worldly and of our repeated failures to realise those ideals Dr Alex Davis Department of English University of St Andrews The literary motif of the allegorical knightly quest appears repeatedly in the literature of the late medieval early modern period notably in Spenser but has hitherto been little examined Here in his examination of a number of sixteenth century English allegorical chivalric quest narratives focussing on Spenser s Faerie Queene but including important lesser known works such as Stephen Bateman s Travayled Pylgrime and William Goodyear s Voyage of the Wandering Knight the author argues that the tradition begins with the French writer Guillaume de Deguileville His seminal Plerinage de la vie humaine was composed c 1331 1355 it was widely adapted translated rewritten and printed over the next centuries Dr Nievergelt goes on to demonstrate how this essentially medieval literary form could be adapted to articulate reflections on changing patterns of identity society and religion during the early modern period and how it becomes a vehicle of self exploration and self fashioning during a period of profound cultural crisis Dr Marco Nievergelt is Lecturer Maître Assistant and SNF Swiss National Science Foundation Research Fellow in the English Department at the Université de Lausanne

Selection from the Minor Poems of Dan John Lydgate John Lydgate, 1840 **Traditions and Innovations in the Study of Medieval English Literature** Charlotte Brewer, Barry A. Windeatt, 2013 Essays on the many key aspects of medieval literature reflecting the significant impact of Professor Derek Brewer Derek Brewer 1923 2008 was one of the most influential medievalists of the twentieth century first through his own publications and teaching and later as the founder of his own academic publishing firm His working life of some sixty years from the late 1940s to the 2000s saw enormous advances in the study of Chaucer and of Arthurian romance and of medieval literature more generally He was in the forefront of such changes and his understandings of Chaucer and of Malory remain at the core of the modern critical mainstream Essays in this collection take their starting point from his ideas and interests before offering their own fresh thinking in those key areas of medieval studies in which he pioneered innovations which remain central Chaucer's knight and knightly virtues class distinction narrators and narrative time lovers and loving in medieval romance ideals of feminine beauty love friendship and masculinities medieval laughter symbolic stories the nature of romance and the ends of storytelling the wholeness of Malory's *Morte Darthur* modern study of the medieval material book Chaucer's poetic language and modern dictionaries and Chaucerian afterlives This collection builds towards an intellectual profile of a modern medievalist cumulatively registering how the potential of Derek Brewer's work is being reinterpreted and is renewing itself now and into the future of medieval studies Charlotte Brewer is Professor of English Language and Literature at Oxford University and a Fellow of Hertford College Oxford Barry Windeatt is Professor of English in the University of Cambridge and a Fellow of Emmanuel College Cambridge Contributors Elizabeth Archibald Charlotte Brewer Mary Carruthers Christopher Cannon Helen Cooper A S G Edwards Jill Mann Alastair Minnis Derek Pearsall Corinne Saunders James Simpson A C Spearing Jacqueline Tasioulas Robert Yeager Barry Windeatt **The English Romance in Time** Helen Cooper, 2004 The English Romance in Time is a study of English romance across the Middle Ages and the Renaissance It explores romance motifs quests and fairy mistresses passionate heroines and rudderless boats and missing heirs from the first emergence of the genre in French and Anglo Norman in the twelfth century down to the early seventeenth This is a continuous story since the same romances that constituted the largest and most sophisticated body of secular fiction in the Middle Ages went on to enjoy a new and vibrant

popularity at all social levels in black letter prints as the pulp fiction of the Tudor age This embedded culture was reworked for political and Reformation propaganda and for the writing of England as well as providing a generous reservoir of good stories and dramatic plots The different ways in which the same texts were read over several centuries or the same motifs shifted meaning as understanding and usage altered provide a revealing and sensitive measure of historical and cultural change The book accordingly looks at those processes of change as well as at how the motifs themselves work to offer a historical semantics of the language of romance conventions It also looks at how politics and romance intersect the point where romance comes true The historicizing of the study of literature is belatedly leading to a wider recognition that the early modern world is built on medieval foundations This book explores both the foundations and the building Similarly generic theory which previously tended to operate on transhistorical assumptions is now acknowledging that genre interacts crucially with cultural context with changing audiences and ideologies and means of dissemination The generation into which Spenser and Shakespeare were born was the last to be brought up on a wide range of medieval romances in their original forms and they could therefore exploit their generic codings in new texts aimed at both elite and popular audiences Romance may since then have lost much of its cultural centrality but the universal appeal of these same stories has continued to fuel later works from Bunyan's *Pilgrim's Progress* to C S Lewis and Tolkien

Court Politics, Culture and Literature in Scotland and England, 1500-1540 Jon Robinson, 2017-11-30 The focus of this study is court literature in early sixteenth century England and Scotland The author examines courtly poetry and drama in the context of a complex system of entertainment education self fashioning dissimulation propaganda and patronage He places selected works under close critical scrutiny to explore the symbiotic relationship that existed between court literature and important socio political economic and national contexts of the period 1500 to 1540 The first two chapters discuss the pervasive influence of patronage upon court literature through an analysis of the panegyric verse that surrounded the coronation of Henry VIII The rhetorical strategies adopted by courtiers within their literary works however differed depending on whether the writer was at the time of writing the verse or drama excluded or included from the environs of the court The different often elaborate rhetorical strategies are through close readings of selected verse delineated and discussed in chapter three on David Lyndsay and chapter four on Thomas Wyatt and Thomas Elyot

A Companion to Gower Siân Echard, 2004 An introduction to Gower and his work focusing on his sources historical context and literary tradition special attention is paid to *Confessio Amantis*
