Minor White Rites And Passages:

Minor White James Baker Hall, Minor White, 1978 **Minor White Rites & Passages** M. White, 1978 **Minor White** Minor White, James Baker Hall, 1978 Minor White is one of the greatest of photographers I do not make this statement lightly The sheer beauty of the medium of photography is tuned to the exact meaning of the visualized image Ansel Adams This selection of Minor White's superb photographs is accompanied by extensive revealing excerpts from White's letters and amplified by James Baker Hall's perceptive observations of the artist teacher at work Minor White James Baker Hall, 1978

Aperture Number 80 James Baker Hill, 1978 **Minor White** Paul Martineau, 2021-10-15 A beautifully illustrated tribute to one of the most influential photographers of the twentieth century Controversial misunderstood and sometimes overlooked Minor White 1908-1976 is one of the great photographers of the twentieth century whose ideas exerted a powerful influence on a generation of photographers and still resonate today His photographic career began in 1938 in Portland Oregon with assignments for the WPA Works Progress Administration After serving in World War II and studying art history at Columbia University White's focus shifted toward the metaphorical He began creating images charged with symbolism and a critical aspect called equivalency referring to the invisible spiritual energy present in a photograph made visible to the viewer This book brings together White's key biographical information his evolution as a photographer teacher of photography and editor of *Aperture* as well as particularly insightful quotations from his journals which he kept for more than forty years The result is an engaging narrative that weaves through the main threads of White's life his growth as an artist as well as his spiritual search and ongoing struggle with his own sexuality and self doubt He sought comfort in a variety of religious practices that influenced his continually metamorphosing artistic philosophy The Moment of Seeing Stephanie Comer, Deborah Klochko, Jeff Gunderson, 2006 Founded by Ansel Adams directed by Minor White and staffed by such luminaries as Imogen Cunningham Dorothea Lange Lisette Model and Edward Weston the first fine art photography department in the United States was created in 1946 at the California School of Fine Arts now known as the San Francisco Art Institute Under White's leadership and against a backdrop of revolutions in photography as an art form this dynamic faculty developed the modern photography curriculum bringing a new academic pedigree to the medium and establishing the future of photography education The Moment of Seeing is much more than a history of the program and those who comprised it Including White's never before published writings on the teaching of photography it is also a rich gallery of iconic images by both renowned faculty members and the dedicated students they taught publisher description *Men without Maps* John Ibson, 2019-10-22 In *Men without Maps* John Ibson uncovers the experiences of men after World War II who had same sex desires but few affirmative models of how to build identities and relationships Though heterosexual men had plenty of cultural maps provided by nearly every engine of social and popular culture gay men mostly lacked such guides in the years before parades organizations and publications for queer persons Surveying the years from shortly before the war up to the gay rights

movement of the late 1960s and early 70s Ibson considers male couples who balanced domestic contentment with exterior repression as well as single men whose solitary lives illuminate unexplored aspects of the queer experience Men without Maps shows how in spite of the obstacles they faced midcentury gay men found ways to assemble their lives and senses of self at a time of limited acceptance
