Ted Robert Gurr

Minorities At Risk A Global View Of Ethnopolitical Conflict:

Minorities at Risk Ted Robert Gurr, 1993 East by Barbara Harff **Peoples Versus States** Ted Robert Gurr, 2000

Picking up where *Minorities at Risk* left off *Peoples Versus States* offers an expanded and updated perspective on ethnic and nationalist conflict throughout the world as well as efforts to manage it Ted Gurr surveys the behavior of 275 politically active ethnic groups during the 1990s and pinpoints the factors that encourage the assertion of ethnic identities Whereas his highly acclaimed 1993 book presented a disturbing picture of spreading ethnic violence this volume documents a pronounced decline since the early 1990s a decline attributable in part at least to many states abandoning strategies of assimilation and control in favor of policies of pluralism and accommodation Nonetheless Gurr identifies some ninety groups as being at significant risk of conflict and repression in the early 21st century And he cautions that the emerging global regime of principles and strategies governing relations between communal groups and states is far from perfect or universally effective

The Dilemmas of Ethnic Policy John Gaffar La Guerre, 2017-01-03 *The Dilemmas of Ethnic Policy A Global Perspective* argues that ethnic conflict increases or decreases in relation to changes in the social structure and the location and distribution of political power Ethnic grievances derive from lack of access to valued resources and elites play a crucial role in allocating those resources This book examines the experiences of five countries with a history of ethnic conflict former Yugoslavia Bosnia Herzegovina Guyana Trinidad and Tobago and the United States It finds that in many cases solutions adopted to mitigate ethnic conflict have unintended consequences Often supposed solutions confuse cause and effect and in fact worsen ethnic conflict Attempts to address identity issues by pandering to them often led to further ethnic demands This book argues that based on the experiences of the countries under examination the best course is to adopt policies that encourage alliances between and among ethnic groups International Conflict Resolution and Peacebuilding Strategies Daniela Nascimento, 2017-02-17 The analysis and interpretation of conflicts can be a dangerously simplistic exercise A western developed socio economic perspective can simplify conflicts in the so called Third World as the inevitable struggles of people who cannot coexist because of ethnic religious or cultural differences While acknowledging that many contemporary conflicts are characterised and influenced by these factors this book calls for an approach to conflict prevention and resolution which mainly addresses the underlying political economic and social causes The conflict in Sudan where narratives evolved from an interpretation based on religious differences between a Muslim North and the Christian South provides a case study through which the author explores how most prevention and resolution strategies were based on flawed assumptions leading to poor results By focusing instead on the underlying socio economic inequality and marginalisation among groups she analyses the dynamics of the complex peace process to ascertain if and how economic and social rights were effectively included and implemented as a part of the peace agreement including after South Sudan's independence *Pathways from Ethnic Conflict* John Coakley, 2013-09-13 The book begins with an agenda setting

introduction which will provide an overview of the central question being addressed such as the circumstances associated with the move towards a political settlement the parameters of this settlement and the factors that have assisted in bringing it about The remaining contributions will focus on a range of cases selected for their diversity and their capacity to highlight the full gamut of political approaches to conflict resolution The cases vary in the intensity of the conflict from Belgium where it is potential rather than actual to Sri Lanka where it has come to a recent violent conclusion in the geopolitical relationship between the competing groups from Cyprus where they are sharply segregated geographically to Northern Ireland where they are intermingled in the extent to which a stable constitutional accommodation has been reached ranging from the Basque Country with a large range of unresolved problems to South Africa which has achieved a significant level of institutional stability This book ranges over the world s major geopolitical zones including Asia the Middle East Africa and Europe and will be of interest to practitioners in the field of international security This book was published as a special issue of *Nationalism and Ethnic Politics* *The United States Institute of Peace Journal*, 1992

The Palgrave Encyclopedia of Global Security Studies, 2023-02-15 This encyclopedia provides an authoritative guide intended for students of all levels of studies offering multidisciplinary insight and analysis of over 500 headwords covering the main concepts of Security and Non traditional Security and their relation to other scholarly fields and aspects of real world issues in the contemporary geopolitical world *Stories, Identities, and Political Change* Charles Tilly, 2002 An award winning sociologist Charles Tilly has been equally influential in explaining politics history and how societies change Tilly s newest book tackles fundamental questions about the nature of personal political and national identities and their linkage to big events revolutions social movements democratization and other processes of political and social change Tilly focuses in this book on the role of stories as means of creating personal identity but also as explanations true or false of political tensions and realities He uses well known examples from around the world the Zapatista rebellion Hindu Muslim conflicts and other examples in which nationalism and other forms of group identity are politically pivotal Tilly writes with the immediacy of a journalist but the profound insight of a great theorist *Fifty Key Thinkers on the Holocaust and Genocide* Paul R. Bartrop, Steven L. Jacobs, 2013-03-01 This unique volume critically discusses the works of fifty of the most influential scholars involved in the study of the Holocaust and genocide Studying each scholar s background and influences the authors examine the ways in which their major works have been received by critics and supporters and analyse each thinker s contributions to the field Key figures discussed range from historians and philosophers to theologians anthropologists art historians and sociologists including Hannah Arendt Christopher Browning Primo Levi Raphael Lemkin Jacques S melin Saul Friedl nder Samantha Power Hans Mommsen Emil Fackenheim Helen Fein Adam Jones Ben Kiernan A thoughtful collection of groundbreaking thinkers this book is an ideal resource for academics students and all those interested in both the emerging and rapidly evolving field of Genocide Studies and the established field of Holocaust Studies

Ethnic Identity and Minority

Protection Thomas W. Simon, 2012-03-28 In *Ethnic Identity and Minority Protection* Designation Discrimination and Brutalization Thomas W Simon examines a new framework for considering ethnic conflicts In contrast to the more traditional theories of justice Simon s theory of injustice shifts focus away from group identity toward group harms effectively making many problems such as how to define minorities in international law dramatically more manageable Simon argues that instead of promoting legislative devices like proportional representation for minorities it is more fruitful to seek adjudicative solutions to racial and ethnic related conflicts For example resources could be shifted to quasi judicial human rights treaty bodies that have adopted an injustice approach This injustice approach provides the foundation for Kosovo s case for remedial secession and helps to sort out the competing entitlement claims of Malays in different countries Indeed the priority of Thomas W Simon s *Ethnic Identity and Minority Protection* is to ensure the tales of designation and discrimination told at the beginning of the work do not become the stories of brutalization told at the end In short the challenge tackled in this text is to assure that reason reigns over hate **The United Nations As a Dispute Settlement System** Connie Peck, 1996-05-23 This text reviews the preventive diplomacy of the United Nations suggesting that the Security Council is not well suited to the task What is needed it argues is a less political and more professional approach namely a larger and more autonomous role for the Secretary General and the development of a greater specialist capacity within the Secretariat The work gives appropriate weight to the importance of peace building both before and after conflict as an integral part of conflict prevention and the United Nations role therein **Handbook of Fragile States** David Carment, Yiagadeesen Samy, 2023-08-14 This timely Handbook examines the causes costs and consequences of state fragility advancing key debates in the field Demonstrating the multidimensionality of fragility by applying diverse theories and methodologies it provides new insights on effective policy development and application in the context of fragile states *Justice and Peace* Milburn J. Thompson, 2015-03-31 **The Geography of Ethnic Violence** Monica Duffy Toft, 2010-01-01 *The Geography of Ethnic Violence* is the first among numerous distinguished books on ethnic violence to clarify the vital role of territory in explaining such conflict Monica Toft introduces and tests a theory of ethnic violence one that provides a compelling general explanation of not only most ethnic violence civil wars and terrorism but many interstate wars as well This understanding can foster new policy initiatives with real potential to make ethnic violence either less likely or less destructive It can also guide policymakers to solutions that endure The book offers a distinctively powerful synthesis of comparative politics and international relations theories as well as a striking blend of statistical and historical case study methodologies By skillfully combining a statistical analysis of a large number of ethnic conflicts with a focused comparison of historical cases of ethnic violence and nonviolence including four major conflicts in the former Soviet Union it achieves a rare balance of general applicability and deep insight Toft concludes that only by understanding how legitimacy and power interact can we hope to learn why some ethnic conflicts turn violent while others do not Concentrated groups defending a self defined homeland

often fight to the death while dispersed or urbanized groups almost never risk violence to redress their grievances Clearly written and rigorously documented this book represents a major contribution to an ongoing debate that spans a range of disciplines including international relations comparative politics sociology and history **Regional and Ethnic Conflicts**

Judy Carter,2015-07-02 This book provides readers alternative first hand front line perspectives and insights on some of the major ethnopolitical conflicts plaguing the planet It promotes the cultivation of a global culture of conflict prevention and peace promotion **Reputation and Civil War** Barbara F. Walter,2009-08-27 Attempts to resolve why self determination

disputes between governments and ethnic minorities so often result in civil war **Global Migrants, Global Refugees**

Aristide R. Zolberg,Peter M. Benda,2001-06-01 In recent years several influential commentators have stated or strongly implied that the advanced industrial democracies are today being overwhelmed by a host of problems including rapid population growth the breakup of multi ethnic states environmental degradation and increasing economic differentials between the developing and developed worlds for which no effective solutions are at hand The migration inducing potential of these post Cold War developments has been a particular source of concern This volume provides a counter catastrophic view of developments and a more sober and balanced assessment of the challenges the United States and other industrial democracies face in the sphere of international migration than that offered in recent years The first part is devoted to a diagnosis of the problem revaluation of the notion of a migration crisis by examining the likely consequences of population growth environmental degradation and political conflict in the developing and post communist worlds Special attention is also given to the manifestations of these forces in the western hemisphere where they may have direct consequences for immigration to the United States In the second part the implications for U S policy are considered ranging from promotion of democracy and development of strategies for minimizing international migrations and refugee flows to the intricacies of humanitarian relief and intervention when preventive measures prove ineffective The International Dimensions of Internal Conflict

Michael Edward Brown,1996 Internal conflicts threaten many countries and regions globally The first part of this book examines the sources of internal conflicts and the ways these may affect neighbouring states and the international community The second part covers specific problems policy instruments and key actors **International**

Handbook of Violence Research Wilhelm Heitmeyer,John Hagan,2005-08-12 An international manual is like a world cruise a once in a lifetime experience All the more reason to consider carefully whether it is necessary This can hardly be the case if previous research in the selected field has already been the subject of an earlier review or even several competing surveys On the other hand more thorough study is necessary if the intensity and scope of research are increasing without comprehensive assessments That was the situation in Western societies when work began on this project in the summer of 1998 It was then too that the challenges emerged any manual espe cially an international one is a very special type of text which is anything but routine It calls for a special effort the state of the art has to be documented for selected subject areas

and its presentation made as compelling as possible The editors were delighted therefore by the cooperation and commitment shown by the eighty one contributors from ten countries who were recruited to write on the sixty two different topics by the constructive way in which any requests for changes were dealt with and by the patient response to our many queries This volume is the result of a long process It began with the first drafts outlining the structure of the work which were submitted to various distinguished colleagues Friedheim Neidhardt of Berlin Gertrud Nunner Winkler of Munich and Roland Eckert of Trier to name only a few supplied valuable comments at this stage Biennial Report of the United States Institute of Peace United States Institute of Peace,
