Minorities Within Minorities Equality Rights And Diversity:

Minorities Within Minorities Avigail I. Eisenberg, Jeff Spinner-Halev, 2005 If rights are awarded to minority groups what should be the response if these groups in turn discriminate against some of their members Sixteen distinguished scholars examine the balance between group autonomy and individual rights in relation to gender religion culture and indigenous rights in the national and international sphere

Cultural Diversity, Liberal Pluralism and Schools Neil Burtonwood, 2006-09-27 With debates on the relationship between cultural diversity and the role of schools raging on both sides of the Atlantic the time is apt for a philosophical work that shines new light on the issues involved and that brings a fresh perspective to a political and emotive discussion Here Burtonwood brings the writing of British philosopher Isaiah Berlin to bear on the subject of multiculturalism in schools the first time that his work has been applied to matters of education Tackling the often contradictory issues surrounding liberal pluralism this book poses serious questions for the education system in the US and in the UK

Taking Ethno-Cultural Diversity Seriously in Constitutional Design Solomon A. Dersso, 2012 Using a legal and multidisciplinary approach towards empirical and prescriptive analysis of contemporary minority rights standards this book defends and elaborates a robust minority rights framework for articulating a constitutional design responsive to the claims of ethno cultural groups in Africa

Philosophies of Multiculturalism Luis Cordeiro-Rodrigues, Marko Simendic, 2016-09-01 This edited collection offers a comparative approach to the topic of multiculturalism including different authors with contrasting arguments from different philosophical traditions and ideologies It puts together perspectives that have been largely neglected as valid normative ways to address the political and moral questions that arise from the coexistence of different cultures in the same geographical space The essays in this volume cover both historical perspectives taking in the work of Hobbes Tocqueville and Nietzsche among others and contemporary Eastern and Western approaches including Marxism anarchism Islam Daoism Indian and African philosophies

The Pluriverse of Human Rights: The Diversity of Struggles for Dignity Boaventura De Sousa Santos, Bruno Martins, 2021-06-21 The impasse currently affecting human rights as a language used to express struggles for dignity is to a large extent a reflection of the epistemological and political exhaustion which blights the global North Since the global hegemony of human rights as a language for human dignity is nowadays incontrovertible the question of whether it can be used in a counter hegemonic sense remains open Inspired by struggles from all corners of the world that reveal the potential but above all the limitations of human rights this book offers a highly conditional response The prevailing notion of human rights today as the hegemonic language of human dignity can only be resignified on the basis of answers to simple questions why does so much unjust human suffering exist that is not considered a violation of human rights Do other languages of human dignity exist in the world Are these other languages compatible with the language of human rights Obviously we can only find satisfactory answers to these questions if we are able to envisage a radical transformation of what is nowadays

known as human rights Herein lies the challenge posed by the Epistemologies of the South reconciling human rights with the different languages and forms of knowledge born out of struggles for human dignity **The Ashgate Research**

Munro, 2016-04-01 As a distinct scholarly contribution to law feminist legal theory is now well over three decades old Those three decades have seen consolidation and renewal of its central concerns as well as remarkable growth dynamism and change This Companion celebrates the strength of feminist legal thought which is manifested in this dynamic combination of stability and change as well as in the diversity of perspectives and methodologies and the extensive range of subject matters which are now included within its ambit Bringing together contributors from across a range of jurisdictions and legal traditions the book provides a concise but critical review of existing theory in relation to the core issues or concepts that have animated and continue to animate feminism It provides an authoritative and scholarly review of contemporary feminist legal thought and seeks to contribute to the ongoing development of some of its new approaches perspectives and subject matters The Companion is divided into three parts dealing with Theory Concepts and Issues The first part addresses theoretical questions which are of significance to law but which also connect to feminist theory at the broadest and most interdisciplinary level The second part also draws on general feminist theory but with a more specific focus on debates about equality and difference race culture religion and sexuality The Issues section considers in detail more specific areas of substantive legal controversy *Negotiating Gender and Diversity in an Emergent European Public Sphere* B. rights evolved amidst multiple conceptualizations political posturing and violent mobilizations and outbursts Accommodating minority groups posed a predicament for the fledgling nation state of post colonial India This book compares and contrasts Muslim and Sikh communities in pre and post Partition India Mapping the evolving discourse on minority rights the author looks at the overlaps between the Constitutional and the majoritarian discourse being articulated in the public sphere and poses questions about the guaranteeing of minority rights The book suggests that through historical ruptures and breaks communities oscillate between being minorities and nations Combining archival material with ethnographic fieldwork it studies the identity groups and their vexed relationship to the ideas of nation and nationalism It captures meanings attributed to otherwise politically loaded concepts such as nation nation state and minority rights in the everyday world of Muslims and Sikhs and thus tries to make sense of the patterns of accommodation adaptation and contestation in the life world Successfully confronting and illuminating the challenge of reconciling representation and equality both for groups and within groups this exploration of South Asian nationalisms and communal relations will be of interest to academics in the field of South Asian Studies in particular Sociology and Politics

The New Governance of Religious Diversity Tariq Modood, Thomas Sealy, 2024-06-11 Religious diversity is a key feature of countries across the world today but it also presents governments with very real challenges Controversies around religious free speech symbols social values and morals and the role of faith leaders as critical voices are just a few of the issues that have given rise to fierce social political and scholarly debate So how do states include and accommodate religious diversity and should this change What are the key difficulties facing states when it comes to governing religious diversity Understanding this complex phenomenon means thinking through secularism liberalism multiculturalism and nationalism in theory and practice In this new book Tariq Modood and Thomas Sealy draw on original research to present new ways of analysing the governance of religious diversity in different regions of the world Identifying the key challenges at stake they also argue for a new statement of multiculturalism in relation to the governance of religious diversity that of multiculturalised secularism which represents a constructive and productive response to the reality of religiously plural societies

Unstable Constitutionalism Mark Tushnet, Madhav Khosla, 2015-09-17 Although the

field of constitutional law has become increasingly comparative in recent years its geographic focus has remained limited South Asia despite being the site of the world's largest democracy and a vibrant if turbulent constitutionalism is one of the important neglected regions within the field This book remedies this lack of attention by providing a detailed examination of constitutional law and practice in five South Asian countries India Pakistan Sri Lanka Nepal and Bangladesh Identifying a common theme of volatile change it develops the concept of unstable constitutionalism studying the sources of instability alongside reactions and responses to it By highlighting unique theoretical and practical questions in an underrepresented region Unstable Constitutionalism constitutes an important step toward truly global constitutional scholarship **Research Handbook on Multiculturalism** Geoffrey Brahm Levey, 2025-03-12 This Research Handbook presents a comprehensive assessment of multiculturalism in political theory and practice from an international perspective Geoffrey Brahm Levey brings together 30 leading experts from around the world to assess the current state of the field charting lines of inquiry for further research *Legal Practice and Cultural Diversity* Ralph Grillo, Roger Ballard, Alessandro Ferrari, André J. Gagnon, Michael Burgess, 2018-09-24 The principal aim of this book is to revisit the basic theme of unity and diversity that remains at the heart of research into federalism and federation It is time to take another look at its contemporary relevance to ascertain how far the bifocal relationship between unity and diversity has evolved over the years and has been translated into changing conceptual lenses practical reform proposals and in some cases new institutional practices This book is structured around four main parts 1 the evolving conception of diversity over time and across continents 2 the interplay between unity and diversity in complex settings 3 federalism as decision making and new institutional practices that have been put forward and tested and 4 constitutional design and asymmetrical federalism as a way to respond to legitimate and insistent claims and political demands *Governing Religious Diversity in Global*

Intercultural Deliberation and the Politics of Minority Rights R.E. Lowe-Walker, 2018-01-15 Achieving socio political cohesion in a community with significant ethnic cultural and religious diversity is a difficult challenge in contemporary liberal democracies In the quest for neutrality public policies and institutions shaped by the needs of the majority can inadvertently marginalize minority interests Minority groups must therefore translate their desire for cultural recognition into terms that ironically often minimize cultural difference Intercultural Deliberation and the Politics of Minority Rights examines the relationship between this minority rights paradox and cultural difference building a compelling case for an inclusive approach to navigating minority rights claims R E Lowe Walker s intercultural deliberation is designed to mitigate the injustices imposed by majority norms Instead of asking what the liberal state can tolerate she asks how our understanding of difference affects our interpretation of minority claims shifting the focus from how to limit difference toward inclusive deliberations This important work thus serves as a measure of social justice and a vehicle for social change

Community and Collective Rights Dwight Newman, 2011-07-13 This book presents an argument for the existence of moral rights held by groups and a resulting account of how to reconcile group rights with individual rights and with the rights of other groups Throughout the author shows applications to actual legal and political controversies thus tying the normative theory to actual legal practice The author presents collective moral rights as an underlying normative explanation for various legal norms protecting group rights in domestic and international legal contexts Examples at issue include rights held by indigenous peoples by trade unions and by religious and cultural minority groups The account also bears on contemporary discussions of multiculturalism and recognition on debates about reasonable accommodation of minority communities and on claims for third generation human rights The book will thus be relevant both to theorists and to legal and human rights practitioners interested in related areas
