Multiculturalism and Minority Rights in the Arab World Will Kymlicka, Eva Pförtl, 2014-03-20 Since the Arab Spring Arab states have become the new front line in the struggle for democratization and for open societies As the experience of other regions has shown one of the most significant challenges facing democratization relates to minority rights This book explores how minority claims are framed and debated in the region and in particular how political actors draw upon re interpret or resist both the new global discourses of minority rights and more local traditions and practices of co existence The contributors examine a range of pre colonial colonial and post colonial factors that shape contemporary minority politics in the Arab world and that encumber the reception of international norms of multiculturalism These factors include the contested legacies of Islamic doctrines of the dhimmi and the Ottoman millet system colonial era divide and rule strategies and post colonial Arab nation building While these legacies complicate struggles for minority rights they do not entail an Arab exceptionalism to global trends to multiculturalism This volume explores a number of openings for new more pluralistic conceptions of nationhood and citizenship and suggests that minority politics at its best can serve as a vehicle for a more general transformative politics supporting a broader culture of democracy and human rights and challenging older authoritarian clientelistic or patriarchal political tendencies The chapters include both broad theoretical and historical perspectives as well as more focused case studies including Western Sahara Morocco Algeria Israel Palestine Sudan United Arab Emirates and Iraq

Minority Rights in the Middle East Joshua Castellino, Kathleen A. Cavanaugh, 2013-04-25 Within the Middle East there are a wide range of minority groups outside the mainstream religious and ethnic culture This book provides a detailed examination of their rights as minorities within this region and their changing status throughout the twentieth and twenty first centuries The rights of minorities in the Middle East are subject to a range of legal frameworks having developed in part from Islamic law and in recent years subject to international human rights law and institutional frameworks The book examines the context in which minority rights operate within this conflicted region investigating how minorities engage with or are excluded from various sites of power and how state practice in dealing with minorities often ostensibly based on Islamic authority intersects with and informs modern constitutionalism and international law The book identifies who exactly can be classed as a minority group analysing in detail the different religious and ethnic minorities across the region The book also pays special attention to the plight of minorities

who are spread between various states often as the result of conflict. It assesses the applicable domestic legislative instruments within the three countries investigated as case studies: Iraq, Syria, and Lebanon, and highlights key domestic remedies that could serve as models for ensuring greater social cohesion and greater inclusion of minorities in the political life of these countries.

Minorities and the Modern Arab World Laura Robson, 2016-05-18. In the wake of recent upheavals across the Arab world, a simplistic media portrayal of the region as essentially homogenous has given way to a new, though equally shallow, portrayal casting it as deeply divided along ethnic, linguistic, and religious lines. The essays gathered in *Minorities and the Modern Arab World* seek to challenge this representation with a nuanced exploration of the ways in which ethnic, religious, and linguistic commitments have intersected to create minority communities in the modern era. Bringing together the fields of history, political science, anthropology, sociology, and linguistics, contributors provide fresh analyses of the construction and evolution of minority identities around the region. They examine how the category of minority became meaningful only with the rise of the modern nation-state and find that Middle Eastern minority nationalisms owe much of their modern self-definition to developments within diaspora populations and other transnational frameworks. The first volume to upend the conceptual frame of reference for studying Middle Eastern minority communities in nearly two decades, *Minorities and the Modern Arab World* represents a major intervention in modern Middle East studies.

The Crisis of Citizenship in the Arab World, 2017-04-24. *The Crisis of Citizenship in the Arab World* argues that the present crisis of the Arab world has its origins in the historical legal and political development of state-citizen relations since the beginning of modern history in the Middle East and North Africa. The anthology covers three main topics. Part I focuses on the crisis of the social pact in different Arab countries as it became manifest during the Arab Uprisings. Part II concentrates on concepts of citizenship in Islamic doctrine, Islamic movements, Muslim Brotherhood, and Salafism, secular political movements, and Arab thinkers. Part III looks into the practices that support the claims to equal rights as well as the factors that have obstructed full citizen rights, such as patronage and clientelism. Contributors are Ida Almestad, Claire Beaugrand, Assia Boutaleb, Michaëlle Browers, Nils Butenschøn, Anthony Gorman, Raymond Hinnebusch, Engin F. Isin, Rania Maktabi, Roel Meijer, Emin Poljarevic, Ola Rifai, James Sater, Rachel Scott, Jakob Skovgaard Petersen, Robert Springborg, Stig Stenslie, Morten Valbjørn, Knut S. Vikør, and Sami Zemni.

State and Religion in the Arab World Khair El-Din Haseeb, 2017-12-22. This collection focuses on the controversial relationship between religion and the state within the Arab Spring context and the evolving debates on democratic transition. In this book, democracy is not questionable; it is hailed by all those vocal on the political scene. The array of opinions presented here varies from a call for a secular state based on Islamic philosophy to a call for setting democratic institutions before working on solving this religion-state dichotomy. Meanwhile, some prefer to have an ambiguous stand on which side to back up: the liberals or the Islamists, despite a detailed criticism of the ossified ways of those calling for a religious state. *Al Majd*. The book starts with an analysis and a detailed account of how the sensitive issue of

the relationship between state and religion developed in Arab thought and society and it goes on to employ less the religious discourse in presenting their positions thus focusing on actual cases of this struggle for power in different Arab countries such as Tunisia and Egypt The collection also provides insights and analysis of the ongoing debates and views on the role of religion in Libya and provides an analysis of the case of Morocco In addition to this there is a special chapter that deals with how Muslim communities living in the West adapt to secular state politics The collection ends with a thorough discussion by a number of Arab intellectuals and activists Muslims and Christians alike whereby core issues related to the debate on state and religion are presented This discussion in addition to reflecting the Islamist secular dichotomy demonstrates the richness of the ongoing debates that extend well beyond the discourse on this dichotomy This book is a compilation of articles published in Contemporary Arab Affairs State of the World's Minorities and Indigenous Peoples 2010 Preti

The Arab World Allan M. Findlay, 2002-09-11 Disruption following the Gulf War and the need to satisfy both rising economic aspirations and the Islamic values of the region's peoples demands fresh examination of development issues in the Arab world This introductory text assesses how agricultural industrial and urban development has evolved in the Arab region Contrasting Arab and Western interpretations of development it draws on case studies covering states as diverse as Saudi Arabia Yemen Morocco and Jordan The author suggests that until the Arabs define their own identity there will continue to be change but not necessarily progress in the region

Routledge Handbook of Minorities in the Middle East Paul S Rowe, 2018-09-20 The Routledge Handbook of Minorities in the Middle East gathers a diverse team of international scholars each of whom provides unique expertise into the status and prospects of minority populations in the region The dramatic events of the past decade from the Arab Spring protests to the rise of the Islamic state have brought the status of these populations onto centre stage The overturn of various long term autocratic governments in states such as Tunisia Egypt Libya and Yemen and the ongoing threat to government stability in Syria Iraq and Lebanon have all contributed to a new assertion of majoritarian politics amid demands for democratization and regime change In the midst of the dramatic changes and latent armed conflict minority populations have been targeted marginalized and victimized Calls for social and political change have led many to contemplate the ways in which citizenship and governance may be changed to accommodate minorities or indeed if such change is possible At a time when the survival of minority populations and the utility of the label minority has been challenged this handbook answers the following set of research questions What are the unique challenges of minority populations in the Middle East How do minority populations integrate into their host societies both as a function of their own internal choices and as a response to majoritarian consensus on their status Finally given their inherent challenges and the vast sweeping changes that have taken place in the region over the past decade what is the future of these minority populations What impact have minority populations had on their societies and to what extent will they remain prominent actors in their respective settings This handbook presents leading edge research on a wide variety of religious ethnic and other minority populations By reclaiming the notion of minorities in Middle Eastern settings we seek to highlight the agency of minority communities in defining their past present and future

State of the World's Minorities

2006 Richard Green, 2005-12-22 The way in which we treat minorities is the measure of civilization of a society Mahatma Gandhi In the era of globalization societies are becoming more diverse Every country around the globe exhibits some ethnic religious or cultural diversity Instead of an asset to be celebrated however governments too often treat this as a threat States in every world region repress the rights of their minorities or even deny their existence For some minorities or indigenous peoples their very survival is at stake In addition to the war in Iraq which remained the focus of intense media attention over 20 further major armed conflicts were ongoing in other parts of the world in 2005 as well as a range of lower intensity conflicts In three quarters of these armed conflicts violence was targeted at specific ethnic or religious groups Yet many of these conflicts could have been prevented if minority and indigenous rights had been respected This first edition of the State of the World's Minorities looks at key developments over the last year affecting the human rights and security of ethnic religious or linguistic minorities and indigenous peoples It includes a Preface by the UN Special Adviser on the Prevention of Genocide Juan E M ndez analysis of trends and legal developments by leading authorities on minority rights an overview by world region highlighting main developments and areas of concern statistical data on Peoples under Threat 2006 ratification tables for the main minority rights treaties and extracts from recently concluded treaties This major new reference work provides an objective analysis of how minorities and indigenous peoples are treated around the globe and with it a measure of the civilization of our societies *State of the World's Minorities 2008* Ishabel Matheson, 2008-03-11 In 2008 Minority Rights Group will mark 40 years of working with minority and indigenous communities around the world Progress has been made but much remains to be done New challenges are emerging In 2007 climate change raced up the international agenda Many minority communities are already bearing the brunt of extended drought rising water levels or the planting of biofuel crops to combat global warming As policy makers develop strategies to cope with climate change it is vitally important that the rights of minorities are taken into account The war on terrorism continues to impact adversely on minorities in countries as diverse as China Pakistan the Philippines Somalia and Sri Lanka Ethnic conflict is spreading in Central Africa the deadly consequences of the unresolved Darfur crisis Afro descendant communities in many Latin American countries face deeply entrenched racism The Roma minority in Europe often faces discrimination in accessing basic social services such as housing education and health This third annual edition of State of the World's Minorities looks at these and other issues affecting the human rights and security of ethnic religious or linguistic minorities and indigenous peoples It includes a preface by 2004 Nobel Peace Laureate Professor Wangari Maathai a ground breaking analysis of the impact of climate change on minorities first hand accounts of the impact of global warming from minorities themselves an eye witness report from Pakistan on the plight of the country's religious minorities comprehensive regional sections highlighting the main areas for concern as well as any notable progress a unique statistical analysis and ranking of Peoples under Threat 2008 State of the World's Minorities is an invaluable reference for policy makers academics journalists and everyone who is interested in the conditions

facing minorities and indigenous peoples around the world *Political Islam, Citizenship, and Minorities* Andrea Zaki Stephanous, 2012-07-10 Political Islam Citizenship and Minorities discusses the relationship between religion and politics in the Middle East and the future of political Christianity The emergence of political Islam and the recent changes in political Christianity in the region have both contributed to a new perception of the role of Arab Christians Political Christianity is a part of the political discourse in the Middle East it makes a major contribution to the political life of the region This book explores Arab political participation in general and particularly examines the role of minorities The author considers both the impact of political Islam on politics and the concept of a political system based on religious principles The Copts of Egypt and the Maronites of Lebanon are compared in order to examine the nature of political participation by Arab Christians and to consider the political theologies behind both communities Arabism as a broad concept that includes Islam and other faiths is our concern A new vocabulary and fresh concepts for the effective political participation of Arab Christians are introduced in this book and a new concept of dynamic citizenship that is based on the development of civil society and learns from the problems of the past is developed *Religious Minorities in Non-Secular Middle Eastern and North African States* Mark Tessler, 2019-07-19 This book describes and compares the circumstances and lived experiences of religious minorities in Tunisia Morocco and Israel in the 1970s countries where the identity and mission of the state are strongly and explicitly tied to the religion of the majority The politics and identity of Jews in Tunisia and Morocco and Arabs in Israel are therefore shaped to a substantial degree by their status as religious minorities in non secular states This collection based on in depth fieldwork carried out during an important moment in the history of each community and of the region considers the nature and implications of each group s response to its circumstances It focuses on both the community and individual levels of analysis and draws in part on original public opinion surveys It also compares the three communities in order to offer generalizable insights about ways the identity political culture and institutional character of a minority group are shaped by the broader political environment in which it resides The project will appeal to scholars and students in the fields of Middle Eastern and North African studies Judaic studies Islamic Studies minority group politics and international relations and the Arab Israeli conflict **Towards a Better Life: How to Improve the State of Democracy in the Middle East and North Africa** , 2010 *Minority Politics in the Middle East and North Africa* Will Kymlicka, Eva Pförtl, 2018-02-02 Projects of democratic reform in the Middle East and North Africa have said little about the place of minorities and minority rights in their vision of reform implying that these issues are best deferred to some indefinite future While many people describe the Arab Spring as a battle for pluralism there is a reluctance to discuss what this pluralism might actually mean for the political claims of minorities for fear of triggering divisive conflicts and undemocratic tendencies Is there an alternative to this fearful deferral of minority politics Can we imagine transformative minority politics that is a form of minority politics that strengthens democratic reform in the region and that helps deepen a culture of human rights and democratic citizenship This

volume explores whether this is indeed a realistic prospect in the Middle East and North Africa examining cases that include the Amazigh in North Africa the Copts in Egypt the Kurds in Iraq the Palestinians in Israel the minoritarian regimes in Syria and Bahrain and various ethnic minorities in Iran This book was originally published as a special issue of Ethnic and Racial Studies Middle Eastern Minorities Ibrahim Zabad,2017-03-27 This is a comprehensive survey of minorities in the Middle East with a special focus on the post Arab Spring era Minority communities in the Middle East are the most susceptible to the turbulence engulfing the region the majority may suffer physical violence and socioeconomic loss but minorities could potentially vanish Instead of ushering in democracy and inclusive politics the revolutionary upheavals have prompted chaos and fear and reinforced the resurgence of Islamic fundamentalism throughout the region Zabad uses historical sources as well as first hand interviews to vividly describe the current status of minorities in the Middle East explaining attitudes towards the revolutionary upheavals as well as the various strategies they used to avail themselves of the opportunities presented and to confront the risks posed The question of ethnic sectarian and religious minorities is situated in the context of the broader history of the region in order to explain the underlying institutional and ideological factors that caused their predicament and problematized their relationship with the majority The book provides a rich trove of information and insights generated from ten case studies that covered the Sh a in Saudi Arabia Bahrain Lebanon and Egypt the Druze the Alawites Christians and Kurds in Syria the Copts in Egypt and the Zaydis in Yemen *The United Nations Declaration on Minorities* Ugo Caruso,Rainer Hofmann,2015-03-31 Created in order to celebrate the 20th Anniversary of the United Nations Declaration on the Rights of Persons Belonging to National or Ethnic Religious and Linguistic Minorities 1992 2012 this publication aims to offer readers a comprehensive review written by a variety of scholars in the field of the value and impact of the standards formulated in the Declaration In so doing it hopes to stimulate attention for and debate around the Declaration and its principles The regional perspectives and case studies included further enable the identification of positive initiatives and good practices as well as persistent gaps in the implementation of the standards enshrined in the Declaration
