## **Minority Governance In Europe Ethnopolitics And Minority Issues:**

**Minority Governance in Europe** Kinga Gál, Local Government and Public Service Reform Initiative, 2002 Minority Governance in Europe is the first volume in the new ECMI LGI Series on Ethnopolitics and Minority Issues The Series is a joint venture with the European Centre for Minority Issues ECMI <http://www.ecmi.de> These multi author works are the result of the Centre's cooperative research projects often lasting a number of years The resulting books attempt to present a coherent and comprehensive picture of the area under investigation The majority of countries in the former Eastern bloc feature multiethnic societies Decentralization and the transition to a free market environment have made this characteristic of nation states more visible and have raised the claim for a proactive approach toward multiethnic community management

**A Global Law of Diversity** Nicolò Paolo Alessi, 2024-11-25 This book provides a global perspective on the accommodation of diversity within constitutional traditions considering the most innovative approaches and legal instruments of the Global North and Global South This field of study traditionally dominated by a Global North approach based on majority minority and rights based discourse is undergoing significant development The work thus assesses the appropriateness of the existing mainstream theoretical tools and concepts in particular minority and minority related concepts as well as rights discourse to grasp the ongoing evolution of this field of law A reconsideration of the traditional conceptual categories and the introduction of the concept Law of Diversity is proposed as a theoretical framework to grasp the ongoing developments in this area Among the models studied those that are referred to as emergent models for the accommodation of diversity in the Global North appear to be particularly in need of theoretical recognition To this end the theory of federalism is used to serve a rather unexplored theoretical function Federal theory is put forward as a theoretical instrument to frame and explain the emergent instruments for the accommodation of diversity as well as provide practical solutions for their development The book will be of interest to researchers academics and policy makers working in the areas of comparative constitutional law minority and indigenous rights law and federal studies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non

and theory on conflict management particularly the role of institutional design and international assistance      Ethnicity and Intercultural Dialogue at the European Union Eastern Border Mircea Brie, Sorin Sipos, 2014-09-26 Ethnicity and religious confession are concepts around which discussion and controversy arise generating emotions and feelings of extreme intensity Each of us belongs to such a community By default there is pressure on us to be subjective Intercultural dialogue can be successfully provided where a community that is aware of the Other comes to communicate cooperate and build the structure of a multicultural society Diversity throughout Central and South Eastern Europe can lead to either cooperation or conflict Presently we face discrimination marginalization low status minorities peripheral societies and the inequitable distribution of resources that leads to unequal distribution of authority and power      *Social Equity in the Public Administration Classroom* Michaela E. Abbott, Bruce D. McDonald III, William Hatcher, 2023-05-22 This compelling book explores the dimensions of social equity by asking the leading equity scholars to reflect on the responsibility for social equity and how equity can be achieved Social equity is concerned with fairness in the development and administration of public policies Despite its importance there has always been an uneasiness in how equity is discussed and obtained While we acknowledge that social equity is important we have struggled in our efforts to achieve it The inequities in our society and the lack of a concerted effort to address the problems have only become prominent due to the COVID 19 Pandemic and the Black Lives Matter Movement Each of the chapters in this volume pays particular attention to how social equity can be effectively incorporated into the classroom This book is a rare opportunity to shape the conversation about social equity and provide a venue for dialogue around the questions of what why and how we teach about equity This book is an insightful resource for researchers and scholars of Politics and Public Administration The chapters in this book were originally published in the Journal of Public Affairs Education      **The Protection of Minorities in the Wider Europe** M. Weller, D. Blacklock, K. Nobbs, 2008-09-30 This book examines whether we are moving towards an integrated regional system of legal provision for minorities It illustrates the tension between newer member states many of which have an interest in seeing minority issues addressed and established members which remain hesitant in committing themselves fully to a minority rights regime      **Law and Governance in an Enlarged European Union** George A. Bermann, Katharina Pistor, 2004-11-10 This book's principal aim is to critically address the institutional and substantive legal issues resulting from European enlargement chiefly those relating to the legal foundations on which the enlarged Union is being built The accession of new Member States creates the potential for a stronger and more powerful Europe Realising this potential however will depend on the ability of the EU to develop functional and effective governance structures both at the European level and at the level of the individual Member States While the *acquis communautaire* will ensure that formal laws in the new Member States will be aligned with those of existing members the question remains as to how effective institutions will be in implementing changes and what effects the imposed changes will have on the legitimacy of the new legal framework This book containing

the work of leading scholars in law and social sciences examines the current and future legal framework for EU governance and the role that new members will or will not play in the creation of that framework paying particular attention to the specific challenges membership in the EU poses to the acceding states of Central and Eastern Europe It is a book which will contribute to and influence debates over constitutionalism and legal harmonisation in the EU

**Taming Ethnic Hatred** Patrice C. McMahon, 2007-04-05 With its unique emphasis on ethnic cooperation rather than discord this work provides insights into how the international community can help to restrain ethnic conflict in the Twenty First century By examining the construction of ethnic peace in post Soviet Eastern Europe Patrice McMahon accurately describes how the international community worked to quell growing tensions in the East Key was a network of public and private organizations whose goal it was to work in overlapping ways to manage inter ethnic relations which in turn kept ethnically charged clashes far below levels forecast Inspired by the Conference on Security and Cooperation in Europe CSCE this network included Western governments intergovernmental organizations as well as non governmental organizations Although each actor had its own reason for involvement in this network she highlights the shared principles and overlapping strategies actors used and how their interaction translated into a modern form of decentralized governance This book addresses these issues by considering ethnic relations in Romania and Latvia In so doing it brings to the fore important stories too long ignored by the West and academic research Writing in a direct readable fashion the author connects her subject to a larger review of changes in global governance

The Challenges of European Governance in the Age of Economic Stagnation, Immigration, and Refugees Henry F. Carey, 2016-12-20 This book examines the political and legal challenges of regional governance of the 28 countries of the European Union and the 48 in the Council of Europe The contributions dilemmas and moral hazards from this record of nearly seven decades of regional inter governmental institutions has kept the peace but produced episodes of crisis from overstretching jurisdictions thematically and geographically Polarization between nationalist and integrative forces has displaced the idealistic aspirations of prior decades to build the rule of law and deter violence Academics and policy makers will learn from the various legal and political efforts to integrate supranational and inter governmental agencies with national political systems

*One Country, Two Systems, Three Legal Orders - Perspectives of Evolution* Jorge Oliveira, Paulo Cardinal, 2009-07-21 One Country Two Systems Three Legal Orders Perspectives of Evolution Essays on Macau's Autonomy after the Resumption of Sovereignty by China can be said in a short preamble like manner to be a book that provides a comprehensive look at several issues regarding public law that arise from or correlate with the Chinese apex motto for reunification One Country Two Systems and its implementation in Macau and Hong Kong Noble and contemporary themes such as autonomy models and fundamental rights are thoroughly approached with a multilayered analysis encompassing both Western and Chinese views and an extensive comparative law *acquis* is also brought forward Furthermore relevant issues on international law criminal law and historical and comparative evolutions and interactions of different legal systems are laid down in this panoramic yet comprehensive book One cannot but underline the presence in the many approaches and comments of a certain aura of a modern Kantian cosmopolitanism revisitation throughout the work especially when dealing with the cardinal principle of One Country Two Systems which enabled a peaceful and integral reunification *ex vi* international law the Joint Declarations that ended an external and distant control

*Managing Diversity through Non-Territorial Autonomy* Tove H. Malloy, Alexander Osipov, Balázs Vizi, 2015-07-23 Non territorial autonomy NTA is a statecraft tool that is increasingly gaining importance in societies seeking to accommodate demands by ethno cultural groups for a voice in cultural affairs important to the protection and preservation of their identity such as language education and religion As states recognize the specific rights of identity minorities in multicultural and multi ethnic societies they are faced with a need to improve their diversity management regimes NTA offers policy makers a range of options for institutional design adaptable to specific circumstances and historical legacies It devolves degrees of power through legal frameworks and institutions in specific areas of ethno cultural life while maintaining social unity at the core level of society Throughout Europe and North America NTA exists and is implemented at a state regional and local level Much has been written about the concept of autonomy and its usage as a statecraft tool in states facing regional division but little literature addresses its non territorial institutional and public administration functions This edited volume seeks to fill this gap Managing Diversity through Non Territorial Autonomy Assessing Advantages Deficiencies and Risks carves a space for contextual knowledge production on NTA in law as well as social and political sciences Contextual knowledge involves a description of institutions and their functionality as well as of the institutional and legal frames protecting these What are the institutions bodies and functions that ethno cultural groups can draw on when seeking to have a voice over their own affairs as well as over issues in

society related to their identity production How are these entities incorporated and empowered to have a voice What degree of voice do they have and how are they designed to project this voice Thus contextual knowledge also involves critical assessment and risk analysis as well as penetrating insights as to the unintended consequences and hidden agendas that may inform NTA policies This volume is to provide both policy makers and ethno cultural groups with a tool kit that promotes social cohesion while respecting diversity This is the first volume in a series of five which will examine the protection and representation of minorities through non territorial means

**Political Participation of Minorities** Marc Weller, Katherine Nobbs, 2010 This Commentary provides the reader with a review of international standards and practice relating to the political participation of minorities Political participation has been increasingly recognized as a foundational issue in the debate about minority rights It is argued that minorities are more likely to feel co ownership in the state if they have the opportunity to participate freely and effectively in all aspects of its governance and that sustained and meaningful engagement will guard against the sense of alienation and exclusion among minorities that often emerges in ethnically divided societies Taking as its starting point the two most important standard setting documents in the field the Lund Recommendations on the Effective Participation of National Minorities in Public Life developed by the Organization for Security and Cooperation in Europe and the Council of Europe s Thematic Commentary on the Issue of Political Participation of Minorities the Commentary locates the international legal entitlement to political participation within the wider context of the right to democratic governance It also considers effective participation in relation to the right to full and effective equality as well as the legal entrenchment of these provisions and implementation mechanisms Individual chapters then consider each of the principal mechanisms aimed at enhancing political participation ranging from procedures covering minority representation in political institutions to consultative mechanisms and autonomy solutions The Commentary draws on a team of experts all of whom are recognized authorities in this specialized area of minority issues

Advances in Interdisciplinary Language Policy François Grin, László Marác, Nike K. Pokorn, 2022-01-15 This book stems from the joint effort of 25 research teams across Europe representing a dozen disciplines from the social sciences and humanities resulting in a radically novel perspective to the challenges of multilingualism in Europe The various concepts and tools brought to bear on multilingualism are analytically combined in an integrative framework starting from a core insight in its approach to multilingualism Europe is pursuing two equally worthy but non converging goals namely the mobility of citizens across national boundaries and hence across languages and cultures and the preservation of Europe s diversity which presupposes that each locale nurtures its linguistic and cultural uniqueness and has the means to include newcomers in its specific linguistic and cultural environment In this book scholars from applied linguistics economics the education sciences finance geography history law political science philosophy psychology sociology and translation studies apply their specific approaches to this common challenge Without compromising the state of the art analysis proposed in each chapter particular

attention is devoted to ensuring the cross disciplinary accessibility of concepts and methods making this book the most deeply interdisciplinary volume on language policy and planning published to date

**Governance and Inclusive Growth in the Africa Great Lakes Region** Paul Mulindwa, 2022-06-16 This book provides a comprehensive analysis of the development and governance nexus in Africa's Great Lakes region. The Great Lakes region continues to experience many challenges yet much of the literature continues to focus on political governance leaving behind the socio economic aspects of the everyday lives of people in the region. This book seeks to bridge this gap in information considering the social economic and cultural dynamics of the population as they inter play with political discourse as key factors of sustainable development. Drawing on empirical cases and examples from Burundi, Kenya, Rwanda, South Sudan and Uganda, the book analyses each of the major governance and development issues in Great Lakes region of Africa including region building and integration, social protection, inter state relations, democracy and participation and sustainability. Written by an African scholar with over 20 years of experience of working with indigenous groups in over 34 African countries, this book will be an important read for students and scholars across the fields of international relations, political studies, sustainable development, social and economic sociology, public policy and management and public administration.

**EU Conditionality in the Western Balkans** Florian Bieber, 2018-12-07 This volume examines how European institutions, the European Union in particular, through its policy of conditionality have shaped the post conflict reconstruction of the Western Balkans. From state building to democratization and environmental policies, this book explores whether and in what ways the EU has been successful in consolidating states and democracy in the Balkans. In addition to requiring countries to be ready to join the European Union, the EU has also set new conditions in an effort to become the prime international organization involved in stabilizing the Western Balkans after the wars of the 1990s. Its record has been mixed: the conditions of the EU have often been haphazard and were frequently not followed through. In addition, enlargement towards the Western Balkans has been slow and marred by open questions over the stability of some countries in the region. This volume assesses the EU's struggle to transform the societies through conditionality and whether the offer of EU membership is enough to build stable democracies. This book was published as a special issue of *Europe Asia Studies*.

**Managing Ethnic Diversity in Russia** Oleh Protsyk, Benedikt Harzl, 2013-05-07 This book provides a comprehensive overview of the norms and practices of ethnic diversity management in the Russian Federation in the last twenty years. It examines the evolution of the legal framework, the institutional architecture and the policies intended to address the large number of challenges posed by Russia's immense ethno cultural diversity. It analyses the legal, social and political changes affecting ethno cultural relations and the treatment of ethnic minorities and assesses how ethnic diversity both influences and is shaped by transformations in Russian politics and society. It concludes by appraising how successful or otherwise policies have been so far and by outlining the challenges still faced by the Russian Federation.

**The Europeanisation of the Western Balkans** Jelena Džankić, Soeren Keil, Marko

Kmezić,2018-09-21 This volume casts a fresh look on how the political spaces of the Western Balkan states Croatia Bosnia and Herzegovina Serbia Montenegro Kosovo Macedonia and Albania are shaped governed and transformed during the EU accession process The contributors argue that EU conditionality in the Western Balkans does not work effectively in terms of social change because rule transfer remains a contested business due to veto players on the ground and strong legacies of the past The volume examines specific policy areas salient in the enlargement process and to a different degree incorporated in the accession criteria as well as EU foreign policy in the spheres of post conflict stabilisation democratization and the rule of law promotion     Ethnic Struggle, Coexistence, and Democratization in Eastern Europe Sherrill Stroschein,2012-05-28 In societies divided on ethnic and religious lines problems of democracy are magnified particularly where groups are mobilized into parties With the principle of majority rule minorities should be less willing to endorse democratic institutions where their parties persistently lose elections While such problems should also hamper transitions to democracy several diverse Eastern European states have formed democracies even under these conditions In this book Sherrill Stroschein argues that sustained protest and contention by ethnic Hungarians in Romania and Slovakia brought concessions on policies that they could not achieve through the ballot box in contrast to Transcarpathia Ukraine In Romania and Slovakia contention during the 1990s made each group accustomed to each other s claims and aware of the degree to which each could push its own Ethnic contention became a de facto deliberative process that fostered a moderation of group stances allowing democratic consolidation to slowly and organically take root
