Off **Shareholder Protection in Close Corporations** Alan K Koh, 2022-09-29 Close corporations which are legal forms popular with small and medium enterprises are crucial to every major economy's private sector. However, unlike their public corporation counterparts, close corporation minority shareholders have limited exit options and are structurally vulnerable in conflicts with majority or controlling shareholders. Withdrawal remedies, legal mechanisms enabling aggrieved shareholders to exit companies with monetary claims, are potent minority shareholder protection mechanisms. This book critically examines the theory and operation of withdrawal remedies in four jurisdictions: the United States, the United Kingdom, Germany, and Japan. Developing and applying a theoretical and comparative framework to the analysis of these jurisdictions' withdrawal remedies, this book proposes a model withdrawal remedy that is potentially applicable to any jurisdiction. With its international functional and comparative analysis of withdrawal remedies, it challenges preconceptions about shareholder remedies and offers a methodology for comparative corporate law in both scholarship and practice. Ethnicity And Crime: A Reader Spalek, Basia, 2008-07-01 Basia Spalek has compiled an excellent reader about a much researched and highly sensitive subject. Crucially, she contextualises ethnicity and crime within broadly defined social and intellectual contexts, avoiding the limitation of all too frequently repeated research based solely on statistical measures and policy evaluations. Simon Holdaway, Professor of Criminology and Sociology, Sheffield University. Issues in relation to race and ethnicity have generated substantial and ever-growing interest from and within a multitude of academic research and policy contexts. This book brings together important material in race and ethnic studies and provides different ways of thinking about race and ethnicity in relation to crime and the criminal justice system. *Ethnicity and Crime: A Reader* consists of a collection of works that capture the main themes that arise from within this vast area of work. It is divided into five sections: Race and crime, racial discrimination and criminal justice, The racialisation of crime, Social, political and cultural contexts, Race, ethnicity and victimisation, Self and discipline, reflexivity, Ethnic identities and crime, Ethnic identities, institutional reflexivity and crime. Each section contains recurring and overlapping themes and includes many different ways of thinking about race and ethnicity in relation to crime. It spans theoretical approaches that might be labelled as positivist, critical race analyses, left realist approaches, feminist, as well as post-modern perspectives. This is the first title in the new series *Readings in Criminology and Criminal Justice* and follows the series format of thematic sections together with an editor's introduction to the complete volume and an introduction to each section. *Liquid Democracy* Yu-Shan Tseng, 2025-02-07 This timely book carefully interrogates the increasingly fraught intersections of the digital, the city, and democracy. It is a book that will endure, bristling as it is with thoughtful reflection and insight on the democratic challenges that unfold amidst the ordinary, troubled, and generative digital worlds of cities as different as Madrid, Taipei, and Helsinki. Amidst the work of policymakers, activists, and engineers, what emerges is a hopeful exploration of what digital democracy platforms might enable. Professor Colin McFarlane, Durham University. This vital book moves beyond a universal analysis of the effects of social media platforms on

liberal democracy Through an in depth examination of civic platforms in Finland Spain and Taiwan Tseng provides a compelling and nuanced empirical and theoretical analysis of the contingent relationship between platforms place and democracy Professor Rob Kitchin Maynooth University Reimagining Democracy in the Digital and Urban Age How can democracy adapt and thrive in a world reshaped by artificial intelligence and digital platforms In Liquid Democracy author Yu Shan Tseng offers a bold new framework for understanding democracy as a dynamic fluid process Challenging the idea that AI and digital tools are inherently anti democratic this innovative volume bridges theory and practice to investigate various liquid conditions a novel concept capturing how political action flows and transforms like water within the intersections of urban spaces and digital technologies Through an in depth comparative study of three groundbreaking digital democracy platforms Decide Madrid in Madrid OmaStadi in Helsinki and vTaiwan in Taipei Tseng explores how digital platforms can foster participatory governance pluralism and alternative democratic futures In depth chapters critically examine the interactions between humans algorithms and urban systems revealing how digital tools reconfigure the boundaries of political participation decision making and collective action Throughout the text Tseng offers fresh insights into how democracy emerges under contingent conditions shaped by technology and geography Drawing from years of ethnographic fieldwork Liquid Democracy is essential reading for master s and PhD students in geography political science and urban studies as well as scholars practitioners and policymakers interested in digital governance smart cities civic technology and algorithmic politics
