

The Changing Politics of Britain's Ethnic Minority Voters

Labour has long been seen as the 'natural' political home for non-white voters in Britain. But, as *Sophie Stowers* reports, the political choices of ethnic minority voters are becoming increasingly diverse.

Most discussions of the 2024 election focus on two things – the gains made by Labour, and the collapse of the Conservative vote. Less remarked on is the fact that Labour's celebrations were punctured by shock results in several of England's most diverse (and some of Labour's safest) constituencies.

One reason these results were so surprising

was that Labour has historically dominated the ethnic minority vote. But our new report, produced with Focalldata, warns that Labour should no longer take this support as a given, particularly as the voting behaviour of this group becomes increasingly fragmented. Nor should those who study voting behaviour assume that at future elections, non-white voters will act in line with trends that we see among the wider electorate.

Labour and ethnic minority voters
Labour has traditionally won a majority of non-white votes. The relationship dates to the 1950s. The arrival of the Windrush generation between 1948 and 1971 sparked a period of discrimination and hostility toward ethnic minorities, perhaps best embodied by Enoch Powell's infamous 'rivers of blood' speech in 1968. By the 1960s, race and migration were significant issues on the political agenda.

Then Labour leader Harold Wilson was supportive of civil rights movements and in his first period as Prime Minister (1964 to 1970) introduced the Race Relations Act 1965, as well as creating the Race Relations

Minority In Britain:

The Political Integration of Ethnic Minorities in Britain Anthony F. Heath, Stephen D. Fisher, Gemma Rosenblatt, David Sanders, Maria Sobolewska, 2013-08-15 Britain has become increasingly diverse over the last fifty years and she has been fortunate to attract relatively highly educated immigrants with democratic values and positive perceptions of the British political system But Britain's ethnic minorities have suffered prejudice harassment and discrimination while politicians increasingly argue that they have failed to integrate adequately into British society and accuse them of leading separate lives In this book we set out to explore the extent and nature of the political rather than the economic integration of Britain's growing ethnic minority population We consider what ethnic minorities in Britain think about and how they engage in British politics This includes political knowledge and interest political values and policy preferences perceptions of parties preferences for parties what parties offer ethnic minorities electoral registration turnout and vote choice other forms of political participation such as signing petitions and demonstrations and trust in political institutions and satisfaction with the democratic system The book considers the ways in which ethnic minorities resemble or differ from the white British population and differences between different minority groups The analysis is based on the largest and broadest academic survey ever of the political attitudes and behaviour of Britain's main ethnic minority groups the 2010 Ethnic Minority British Election Study in conjunction with the nationally representative British Election Study and other surveys The findings are based on complex statistical regression models but they are presented and interpreted for more general readers To what extent does discrimination at work and social exclusion alienate ethnic minorities from the political process Are those minorities who associate more with those from their own ethnic group less engaged politically Are those who were born in Britain better integrated than immigrants This study addresses these and related questions Despite there being many reasons for minorities to disassociate themselves from British politics they engage in positive and constructive ways But there are important differences between the nature of white British and ethnic minority political engagement and between different minority groups and especially between immigrants and their descendants As a result politicians and political parties should not take the political support of ethnic minorities for granted

(Re-)Mobilizing Voters in Britain and the United States Gregory Benedetti, Veronique Molinari, 2021-02-22 This collective work offers a historical approach to the issue of voters mobilisation and through case studies aims to expand the field's research agenda by taking into account less familiar mobilising strategies from various groups or parties both in Britain and the United States Two different yet complementary approaches are used one from the top down with political parties the other from the bottom up with grassroots organisations to analyze how these groups either re-connect citizens with politics or give birth to social movements which durably occupy and change the political landscape of the United States and Britain

Muslims and Political Participation in Britain Timothy Peace, 2015-05-01 This new volume showcases the latest research into Muslim

political participation both in terms of electoral politics and civil society initiatives Muslims play a prominent role in British political life yet what do we actually know about the involvement of British Muslims beyond the existence of a handful of Muslim MPs What is unique about political participation in Muslim communities All the major parties actively seek to court a Muslim electorate but does such a phenomenon exist Despite the impact that Muslims have had on election campaigns and their roles in various political institutions research on this topic remains scant Indeed much of the existing work was couched within the broader areas of the participation of ethnic minorities or the impact of race on electoral politics The chapters in this volume address this lacuna by highlighting different aspects of Muslim participation in British politics They investigate voting patterns and election campaigns civil society and grassroots political movements the engagement of young people and the participation of Muslims in formal political institutions Written in an accessible style this book will be of interest to students and scholars of political participation and religious studies *The History of Great Britain* Anne B. Annual Report on Labour Organization in Canada ,1926 The British Dream David Goodhart,2013-07-01 In The British Dream David Goodhart tells the story of postwar immigration and charts a course for its future Drawing on hundreds of interviews with people from all over the country and a wealth of statistical evidence he paints a striking picture of how Britain has been transformed by immigration and examines the progress of its ethnic minorities projected to be around 25 per cent of the population by the early 2020s Britain today is a more open society for minorities than ever before but it is also a more fragmented one Goodhart argues that an overzealous multiculturalism has exacerbated this problem by reinforcing difference instead of promoting a common life The multi ethnic success of Team GB at the 2012 Olympics and a taste for chicken tikka masala are not he suggests sufficient to forge common bonds Britain needs a political culture of integration Goodhart concludes that if Britain is to avoid a narrowing of the public realm and sharply segregated cities as in many parts of the U S its politicians and opinion leaders must do two things Firstly as advocated by the center right they need to bring immigration down to more moderate and sustainable levels Secondly as advocated by the center left they need to shape a progressive national story about openness and opportunity one that captures how people of different traditions are coming together to make the British dream Culture Wars in British Literature Tracy J. Prince,2012-09-18 The past century s culture wars that Britain has been consumed by but that few North Americans seem aware of have resulted in revised notions of Britishness and British literature Yet literary anthologies remain anchored to an archaic Anglo English interpretation of British literature Conflicts have been played out over specific national vs British identity some residents prefer to describe themselves as being from Scotland England Wales or Northern Ireland instead of Britain in debates over immigration race ethnicity class and gender and in arguments over British literature These debates are strikingly detailed in such chapters as The Difficulty Defining Black British British Jewish Writers and Xenophobia and the Booker Prize Connections are also drawn between civil rights movements in the U S and UK This generalist cultural study is a lively read and a fascinating glimpse into Britain s changing identity as reflected in 20th and 21st century British literature **The Making of a Gay Muslim** Shanon Shah,2017-10-17 This book highlights the lived experiences of gay Muslims in Malaysia where Islam is the majority and official religion and in Britain where Muslims form a religious minority By exploring how they negotiate their religious and sexual identities Shah challenges the notion that Islam is inherently homophobic and that there is an unbridgeable divide between Islam and the West Shah also gained access to gay Muslim networks and individuals for his in depth research in both countries and the book investigates the different ways that they respond to everyday anti homosexual or anti Muslim sentiments Amid the many challenges they confront the gay Muslims whom Shah encountered find innovative and meaningful ways to integrate Islam and gay identity into their lives The Making of a Gay Muslim will appeal to students and scholars with an interest in contemporary Islam religion gender and sexuality *Personnel Selection*

Through a critical scrutiny of multi-ethnic Anglophone literature and cinema, the modes and methods they employed in seeking integration and the reasons for their near invisibility in Britain as an immigrant South Asian community are closely examined in this much-needed volume.

British Muslims and Their Discourses Laurens de Rooij, 2023-12-28 This book highlights the changing dynamics of Muslim identity and integration in Britain, focusing on the post-9/11 era. Historically, Muslims faced discrimination based on ethnicity rather than religion. However, contemporary discrimination against Muslims is rooted in different reasons, with events like the Rushdie affair significantly impacting multicultural relations. This study analyzes the evolving multicultural landscape in Britain, exploring the shift from predominantly assimilationist policies to a more mutual process of integration. It delves into the emergence of interfaith dialogue as well as the complexities surrounding the intersection of race, religion, gender, and identity. The research examines two key themes: the discursive positioning of Islam beyond integration and terrorism narratives, and the operationalization of identity by Muslims in various contexts. The study employs empirical methods and cultural studies theories to understand how individual and social practices intersect in this context. By doing so, it contributes to Islamic studies, socio-political studies, and cultural studies, shedding light on the discourses that shape and are shaped by Muslim lives in Britain. The analysis encompasses diverse perspectives from macro-level societal discourses to micro-level individual actions, thus providing a comprehensive exploration of the multifaceted experiences of Muslims in Britain.

Race and Education Kalwant Bhopal, 2024-03-21 Why is our education system unequal? How does race play a part? Is Britain still institutionally racist? Education remains the greatest indicator of life chances in Britain. What we study, where we study, and how long for shape all aspects of our lives. Our careers, our long-term health, our wealth, and security are all moulded in the classroom. But who we are ultimately matters the most. In *Race and Education*, Professor Kalwant Bhopal shows how race still determines who gains the best education in Britain and who falls by the wayside. Through case studies, original research, and interviews with students, teachers, and academics alike, she reveals how the construction of privilege starts at a young age, with Whiteness taking some students on a gilded path from cradle to career, while many still struggle to build the futures they deserve. This book highlights how classrooms and lecture halls are at the centre of perpetuating White privilege and how racism continues to exist in Britain. A timely and excellent book that makes clear the role racism continues to play in shaping education. A must-read for teachers, school leaders, parents, and politicians. We need more honest, crucial, refreshing, and rigorous work like this. Kehinde Andrews.
