## **Minority Student Enrollments In Higher Education:**

Minority Student Enrollments in Higher Education Garrett Park Press, 1987 This resource guide provides data on minorities enrolled in 500 colleges and universities Descriptions of each institution are followed by total student enrollment and the percentage of students from four minority groups Asian Black Hispanic and Native American The types of academic programs offered by the institution are illustrated by examples of their major programs The booklet is intended to direct employing organizations to institutions with higher than average minority enrollments to allow similar educational institutions to compare their minority enrollment figures and to identify for minority students those educational institutions of special interest to them Besides the information directory this booklet provides the following 1 definitions of minorities 2 general data on minorities in higher education 3 minority student enrollment degrees by field of study 4 notes on college enrollment by minority group and 5 a list of useful books PS **Minority Student Enrollments in Higher Education**

, 1993 **A Difference of Degrees** State Higher Education Executive Officers (U.S.). Task Force on Minority Student Achievement, 1987 **Increasing Minority Enrollments in Higher Education** Alisa Kay Hicklin, 2010 Few debates spark as much interest as the controversy over how to increase access to higher education particularly for racial minority groups Despite the knowledge accumulated on the benefits of diversity the higher education community knows very little about the determinants of minority student enrollment or what universities can do to affect minority student representation This dissertation seeks to investigate the factors that affect variance in minority student enrollment levels at public universities with particular attention devoted to the political environment This analysis of the relationship between political institutions and public universities draws on a number of subliterations in public administration and political science including theories of political control descriptive representation and public management As one of the first major studies of the politics of higher education the analysis draws on untapped data that allow for better tests of many of these theories These data include measures of university enrollments drawn from the Department of Education's Integrated Postsecondary Education Dataset and the Texas Higher Education Coordinating Board data on political institutions including racial representation and interviews of university administrators The quantitative analysis uses a combination of methods including ordinary least squares hierarchical linear modeling and descriptive statistics Using a framework of governance to link these subliterations together allows for progress toward more general theories about the relationship between political institutions and bureaucracy Substantively this analysis also adds to our understanding of what factors affect minority enrollments Chapter V uncovers the redistributive effect of the Hopwood case and California's Proposition 209 and chapter VI builds on this finding by testing for the effect of minority representation in state legislatures Chapter VII then takes a closer look at the Texas system investigating the effect of the Grutter decisions on enrollments particularly at the flagship institutions Overall findings point to the importance of university specific characteristics such as the institution's level of selectivity and the

values held by the university in moderating the influence of political institutions particularly of court cases and state level interventions on minority student enrollment levels Minority Enrollment and Representation in Institutions of Higher Education, 1974 **Minority Student Enrollments in Higher Education** Garrett Park Press, 1987 This resource guide provides data on minorities enrolled in 500 colleges and universities Descriptions of each institution are followed by total student enrollment and the percentage of students from four minority groups Asian Black Hispanic and Native American The types of academic programs offered by the institution are illustrated by examples of their major programs The booklet is intended to direct employing organizations to institutions with higher than average minority enrollments to allow similar educational institutions to compare their minority enrollment figures and to identify for minority students those educational institutions of special interest to them Besides the information directory this booklet provides the following 1 definitions of minorities 2 general data on minorities in higher education 3 minority student enrollment degrees by field of study 4 notes on college enrollment by minority group and 5 a list of useful books PS **Minority Student Retention** Alan Seidman, 2019-05-23 Student retention continues to be a vexing problem for all colleges and universities In spite of the money spent on creating programs and services to help retain students until they achieve their academic and personal goals and graduate the figures have not improved over time This is particularly true for minority students who have a greater attrition rate than majority students Demographic information shows that the minority population in the United States is growing at a faster rate than the majority It is imperative that educational institutions find ways to help improve retention rates for all students but particularly minority students Retention rates should not differ appreciably among different racial ethnic groups The Journal of College Student Retention Research Theory and Practice is the only scholarly peer reviewed journal devoted solely to college student retention It has published many articles on minority student retention and this topic continues to garner much attention This book is a compilation of the very best of these articles selected on the basis of reviews by a cadre of experts in the education field The articles discuss African American Latino Latina Asian and Asian Pacific Native American and biracial students and institutional commitments to retaining a diverse student population For those interested in this vital area the collection will teach and inspire them to achieve greater heights and pay additional attention to retaining minority students in our colleges and universities **Minority Participation and Retention in Higher Education** United States. Congress. Senate. Committee on Labor and Human Resources. Subcommittee on Education, Arts, and Humanities, 1994 Challenges and Opportunities John Raymond Wittstruck, 1988 *Widening Higher Education Participation* Mahsood Shah, Anna Bennett, Erica Southgate, 2015-10-19 Governments have introduced policies to widen the participation of disadvantaged students in higher education Widening participation policies are also introduced to ensure that higher education contributes to social and economic outcomes This book includes important insights from 23 leading scholars across 11 countries on a wide range of topics that focus on government policies institutional structures and

the social and economic impacts of widening participation While widening participation policies and outcomes in developed countries are more widely documented the policies achievements and challenges in other countries such as Brazil China Indonesia South Africa and Palestine are not so widely disseminated Therefore the untold stories of policies and outcomes of widening participation are a key part of this book The chapters are organised according to three overarching themes which include national and transnational studies of the history of widening participation and current policies inclusive learning and academic outcomes and socioeconomic structures concepts and theories Engages prominent academics earlier career researchers and research students Provides a wide range of topics related to widening participation Explores social and economic impact of widening student participation Presents untold stories of widening participation in developing countries experiencing growth in youth population
