Minutes To Midnight Nuclear Weapons Protest In America:

American Anti-Nuclear Activism, 1975-1990 K. Harvey, 2014-10-28 Looking at national peace organizations alongside lesser known protest collectives this book argues that anti nuclear activists encountered familiar challenges common to other social movements of the late twentieth century

Minutes to Midnight Frances B. McCrea, Gerald E. Markle, 1989-08 Recipient of the 1991 Scholarly Achievement Award of the North Central Sociological Association Minutes To Midnight is a timely examination of one of the preeminent moral political and economic dilemmas of our time McCrea and Markle explore the dynamics of social movements behind antinuclear weapons campaigns in America from the earliest post war atomic scientists movement to the ban the bomb efforts to the ill fated Freeze movement of the 1980s The authors note that the atomic scientists movement was the first attempt by scientists as scientists to protest the uses of their own creation They locate contemporary problems in their historical context by exploring the ways in which traditional pacifist groups provided the infrastructure and directly presaged in strategy tactics and organizational dilemmas the Freeze movement The authors use their information on antinuclear protest activity as a way of understanding how social movements are founded how they fare and how social change occurs in postindustrial society This highly readable book will be of interest to a broad interdisciplinary audience of scholars professionals graduate students and upper division undergraduates in political science peace studies American studies sociology and the study of social movements international relations and history An excellent supplementary reading in college courses on social movements and political sociology will stimulate discussion and debate on perhaps the most important issue of the century Contemporary Sociology The book clearly applies social theory to richly described cases of American protests against nuclear weapons admirably the cases are viewed as linked within a broad historical context Louis Kriesberg Syracuse University For those interested in group theory it does compile some useful information on the strategies and tactics of the various associations discussed Upper division undergraduates graduate students and general readers Choice

Violence in America Ted Robert Gurr, 1989-06 An excellent companion to Violence in America The History of Crime this volume provides fascinating insight into recently developed theories on the sources of recurring conflict in American society With their main focus on traumatic issues that have generated group violence and continue to do so the contributors discuss the most intractable source of social and political conflict in our history the resistance of Black Americans to their inferior status and the efforts of White Americans to keep them there Other intriguing topics include the emergence and decline of political terrorism and the continuation of violent threats from right wing extremists such as the Klan the Order and the Aryan nations The basic assumption underlying all interpretations is that group violence grows out of the dynamics of social change and political contention The idea presented is that the origins processes and outcomes of group violence like the causes and consequences of crime must be

understood and dealt with in their social contexts This volume is essential reading for students and professionals in history criminology victimology political science and other related areas SEE QUOTE W VOLUME ONE Postwar America James Ciment,2015-03-26 From the outbreak of the Cold War to the rise of the United States as the last remaining superpower the years following World War II were filled with momentous events and rapid change Diplomatically economically politically and culturally the United States became a major influence around the globe On the domestic front this period witnessed some of the most turbulent and prosperous years in American history Postwar America An Encyclopedia of Social Political Cultural and Economic History provides detailed coverage of all the remarkable developments within the United States during this period as well as their dramatic impact on the rest of the world A Z entries address specific persons groups concepts events geographical locations organizations and cultural and technological phenomena Sidebars highlight primary source materials items of special interest statistical data and other information and Cultural Landmark entries chronologically detail the music literature arts and cultural history of the era Bibliographies covering literature from the postwar era and about the era are also included as are illustrations and specialized indexes The Struggle Against the Bomb Lawrence S. Saving the World from Nuclear War Vincent J. Intondi,2023-03-07 Examines how the June 12 1982 rally for nuclear disarmament paved the way for a new generation of activists On June 12 1982 one million people filled the streets of New York City and rallied in Central Park to show support for the United Nations Second Special Session on Disarmament They demanded an end to the nuclear arms race and called for a shift from military funds to money allocated for human needs In *Saving the World from Nuclear War* Vincent J Intondi draws on archival materials and interviews with rally organizers and activists in Central Park to explore this demonstration from its inception through the months of organizing recruiting and planning to the historic day itself
