New Research on Cohesion and Coherence in Linguistics Zhang Delu, Liu Rushan, 2021-09-15 The study of text cohesion and coherence has been a topic of heated discussion in Linguistics since the 1990s Western linguists have developed two major theoretical frameworks to describe the relationship between the two concepts one posits that cohesive devices are important means to ensure cohesion the other argues that coherence does not rely on cohesion Yet neither has complete explanatory power over reality nor can they solve real life problems This title proposes a creative concrete and highly operational theoretical model that unites cohesion and coherence using authentic English or Chinese examples The authors clarify the concepts of coherence and expand the scope of the research by focusing on a variety of internal and external factors such as psycho cognitive and socio cultural factors Moreover the authors propose that the new theoretical paradigm can be applied to a range of other disciplines including translation and foreign language teaching This title has been one of the most cited works on cohesion and coherence in China Students and scholars of discourse analysis linguistics and language education will find this an invaluable reference

Times of the Technoculture Kevin Robins, Frank Webster, 2003-09-02 Times of the Technoculture explores the social and cultural impact of new technologies tracing the origins of the information

society from the coming of the machine with the industrial revolution to the development of mass production techniques in the early twentieth century The authors look at how the military has controlled the development of the information society and consider the centrality of education in government attempts to create a knowledge society Engaging in contemporary debates surrounding the internet Robins and Webster question whether it can really offer us a new world of virtual communities and suggest more radical alternatives to the corporate agenda of contemporary technologies *The News Media In National And International Conflict* Andrew Arno,Wimal Dissanayake,2019-07-11 Ironically as telecommunications technology the embodiment of modernity advances bringing people in different nations into more direct contact during conflict situations traditional cultural factors become increasingly important as differing ways of thinking and acting collide The mass media can be seen as a factor in the creation of international conflict they also claim many scholars are the key to control and resolution of those problems Whichever side of the coin one chooses to look at mass communication as cause or cure of conflict there is no doubt that the news media are no longer peripheral players on the global scene they are important participants whose organizational patterns of behavior values and motivations must be taken into account in understanding national and international conflict In this volume a distinguished group of authors explores the variety of ways the news media newspapers radio and television are involved in conflict situations Conflicts between the United States and Iran India and Pakistan and the United States and China are examined and national level studies in Sri Lanka Iran Hong Kong and the United States provide varied contexts in which the authors look at the complex interrelationships among government news media and the public in conflict situations *The Scorecard Always Lies* Chris Lewis,2007-05-15 As Tiger Woods broke down in tears on the 18th green at Royal Liverpool Golf Club legions of spectators strained their eyes to read the emotion on his face Like the millions watching on television they knew that Tiger had just won the British Open and that his father had recently died Beyond that however they knew precious little only that he played with a Nike golf ball carried an American Express card in his wallet and presumably drove a Buick They were hungry for more but everything else about his off course life and those of his fellow pros was forbiddingly well guarded Until now In *The Scorecard Always Lies* veteran Sports Illustrated golf correspondent Chris Lewis reaches past the results stats and sound bites to focus on the personalities and personal lives of the sport s top players While embracing all the drama and excitement of the 2006 PGA Tour season he takes us inside the locker rooms hotel rooms and private planes to deliver an unrivaled behind the scenes look at the Tour and the men who play it Lewis spent thirty weeks of the 2006 season on the road with the best golfers in the world exploring their backstories motivations and preoccupations and collecting telling character revealing tales He bore witness to both the hard work and the privilege that frame their lifestyles But he also discovered a Tour that to this point remained largely unknown one where a player while pursuing dreams of glory might also be suing his agent going through a messy divorce or looking to throw down in the locker room with one of his peers There s John Daly trying to explain how his wife has just been taken off

to jail There s Chris Couch making a midnight barefoot run through a derelict district of New Orleans fearing he was about to be kidnapped and taking refuge in a tattoo parlor We watch as Tiger Woods tries to deal with losing his father to cancer while refusing to abandon his fondness for blue humor We see Phil Mickelson hanging with rock stars sharing a Masters victory gift with a national championship winning college football coach and hooking up a sportswriter with a would be groupie s phone number All in all we get a rare glimpse of the off course lives of the Tour s stars and their supporting cast At turns humorous touching and insightful the book sheds new light on every aspect of Tour life from easygoing Tuesday practice rounds to feverpitch Sunday showdowns always taking care to show how their off course concerns inform their every swing Fans will savor the fullest portrait yet of a group of players who throughout their successes and struggles remain unfailingly smart funny and engaging and make up the most intriguing subculture in all of sports **Tomorrow I'll Surface**
