**Miracle of Love - Stories about Neem Karoli Baba** Ram Dass, The material in this volume is culled from over two thousand stories about Maharajji gathered during five years from more than one hundred devotees To these devotees who shared their treasured memo ries I wish to express my deep love and appreciation Some of them felt that no book could or should be written about a being with qualities as vast formless and subtle as Maharajji s and yet they contributed their stories nevertheless I honor them for this kindness and I hope that in my zeal to share experiences of Maharajji with others who were not fortu nate enough to have met him I have not misused their trust Some devotees tell me that stories told by other devotees are not fac tually accurate I have no way of ascertaining the authenticity of any single story All I can report is that those o f us who gathered the stories were impressed by the credibility of those of us who told the stories Though the responsibility for this manuscript lies solely with me I am delighted to acknowledge a lot o f loving help from my friends

**Learning Through Dialogue** Kenneth Paul Kramer, 2013-04-08 Educational practice today often fails to make the crucial distinction between learning as an accumulation of information and learning as a dialogical interaction that elicits one's personal response to the material Learning Through Dialogue offers an alternative approach to teaching and learning which utilizes Martin Buber's dialogical principles turning toward addressing affirmatively listening attentively and responding responsibly The book first presents Buber's educational theory and method and second presents specific examples of how Buber's dialogical philosophy can be applied in the classroom Rather than imposing one's own views this approach enables teachers and students to develop course content in uniquely appropriate ways If you are a teacher a student an educator at any level or anyone interested in furthering his or her ability to engage more meaningfully with the educational process this book will challenge you with fresh perspectives
