The Star of Redemption Franz Rosenzweig,1985-08-31 The Star of Redemption is widely recognized as a key document of modern existential thought and a significant contribution to Jewish theology in the twentieth century An affirmation of what Rosenzweig called the new thinking the work ensconces common sense in the place of abstract conceptual philosophizing and posits the validity of the concrete individual human being over that of humanity in general Fusing philosophy and theology it assigns both Judaism and Christianity distinct but equally important roles in the spiritual structure of the world and finds in both biblical religions approaches toward a comprehension of reality

David Hume's Argument Against Miracles Francis Beckwith,1989-09-30 In this book the author offers a critical analysis of David Hume s argument against miracles from his Enquiry Concerning Human Understanding Of Miracles is one of the most influential works written in defense of the position that belief in supernatural occurrences is not reasonable Using Hume s work as a point of departure the author addresses the two most important epistemological questions asked about miracles Is it ever reasonable to ascribe a divine source to an anomalous event in order to identify it as miraculous and What theoretically entails sufficient evidence that a miracle has actually taken place Contemporary rehabilitations of Hume s argument as put
