*The Unknowing Sage: The Life and Work of Baba Faqir Chand (Fifth Edition)* David Lane, 2014-05-22 First dictated in Urdu at the request of David Lane this is the controversial autobiography of the late sage Baba Faqir Chand a well-regarded Master in

the Shabd Yoga tradition Also presents selections from his radical teachings regarding the unknowingness of gurus and mystics Includes a rare interview with Faqir conducted by Professor Mark Juergensmeyer as well as introductory essays about Faqir s teachings and meditational techniques      *Expressions of Religion* Eugenia Roussou, Clara Saraiva, 2019 This volume brings together experts in ethnology anthropology folklore sociology and history of art in order to discuss the varieties or religious expression through ritual performance empirical ethnographic analysis and sensory modes of perception The primary goal of the book is to re centralize the importance of expressing religion through performance art and the senses and to approach performative action as religion in a variety of sociocultural historical political and spiritual contexts The authors in this volume examine in distinct yet convergent ways how religion is creatively expressed ritually performed and sensorially experienced at present and or in the past The significance of this book lies exactly on the richness and diversity of expressions of religion that are presented here and on the multi disciplinary dialogue that is generated among diverse theoretical analytical and methodological approaches      *Marian Apparitions in Cultural Contexts* Valeria Céspedes Musso, 2018-10-03 *Marian Apparitions in Cultural Contexts* provides an analysis of collective phenomena specifically mass visions of the Virgin Mary from a psychoanalytical perspective It draws from Jung s compensation theoretical model with the aim of merging depth psychology and historical material from the Zeitoun case Offering an original interpretation of this phenomenon from a Jungian psychological perspective the book provides stimulating insights to any person interested in these supernatural events whether general readers with active curiosity or scholars with broad intellectual interests A review of the literature points to a prevailing socio political approach to examining visions of the Virgin Mary while a psychoanalytical approach is generally lacking Musso draws from Jung s compensation theoretical model in *Flying Saucers* with the aim of merging depth psychology and historical material Common themes and symbols are extracted and interpreted from the empirical material and analyzed along with Egyptian social and political data The book concludes with a discussion on how depth psychological principles grounded in empirical and historical material could be applied in order to explicate cases of mass visions An original interdisciplinary exploration of cultural phenomena *Marian Apparitions in Cultural Contexts* will be of value to academics and students in the fields of psychoanalysis analytical psychology political science and religious studies This book will also be of interest among Jungian scholars and practitioners in applications of depth psychology to cultural phenomena      ***Can Christians Prove the Resurrection?*** Sandoval Chris Sandoval, Chris Sandoval, 2010 Christian apologists like Josh McDowell Norman Geisler and William Lane Craig have claimed that the Resurrection of Jesus is the best proved fact of history As they tell the story the original eyewitnesses of the risen Jesus sacrificed their lives for their faith and people who knew Jesus during his lifetime would have challenged any errors in their testimony Allegedly these and many other lines of historical evidence prove the Resurrection beyond a reasonable doubt In *Can Christians Prove the Resurrection* the traditional Christian arguments for the Resurrection are analyzed and critiqued

In reality we do not know how most of the apostles met their fates and religious sects like the Kimbanguists and Hasidic Jews have likewise proclaimed miracles and produced martyrs within the lifetimes of eyewitnesses who should have been able to set the record straight. These and many other lines of evidence raise copious reasonable doubts regarding the claims of the apologists as this book demonstrates. Once all the relevant evidence is examined it becomes clear that there is little likelihood that Jesus of Nazareth arose from the dead or that the Resurrection ever took place.

**Adventures in Paranormal Investigation** Joe Nickell, 2014-04-23. Tales of alien abductions, miraculous relics and haunted castles have attracted believers and skeptics across the globe for centuries. Paranormal investigator Joe Nickell tackles the world's most seemingly inexplicable myths in *Adventures in Paranormal Investigation*. With four decades of experience in the field, Nickell employs skepticism and scientific analysis to pull truth from the mires of false evidence and trickery that surround both old and new legends and mysteries. Unlike authors who engage in hype and sensationalism in order to foster or debunk myths, Nickell approaches each case with a rational and scientific approach intended to find the truth. Occam's Razor, all things being equal, the simplest solution is the best one, is a principal instrument in his investigative toolbox, as well as the belief that it is the claimant's responsibility to provide the extraordinary proof required in such extraordinary cases. *Adventures in Paranormal Investigation* features Nickell's on-site explorations in unusual phenomena. Among the forty unique cases, Nickell examines mysteries ranging from snake charmers who purport to hold influence over the reptiles to the Holocaust victims who reportedly haunt a gas chamber in Dachau to Lake Simcoe's resident lake monster, Igopogo in Canada. In addition to the case studies, Nickell analyzes how the propensity to fantasize can affect human perceptions of and belief in paranormal activity and how his personal experience with the paranormal was altered when intuition led to the discovery of a daughter he didn't know existed. More than just another myth-busting text, *Adventures in Paranormal Investigation* brings together reason and scientific analyses to explain both the phenomena and the role of human perception therein, establishing Nickell as the foremost paranormal investigator of our time.
