The Halifax Disaster, December 6, 1917 Ernest Fraser Robinson,1997

Exploded Identity Catherine M.

Mildon,2006-11-10 I was four and half years old and living in Halifax with my seven siblings the day my city was devastated by an exploding ship in the harbour It threw me to the floor as our windows collapsed In the days weeks months and years that followed this vivid terrifying moment and the stories of altered lives dominated our daily thoughts and conversations As CEO of the Northern Electric Company in Halifax my father was heavily involved in the immediate demands Years later I felt driven to record my family experiences and to study thoroughly the record of those awful days As I wrote I was struck by the overwhelming determination heroism and cooperation that the unheralded citizens of Halifax demonstrated in the face of death destruction and snowstorms For centuries women have known that when war came they would be needed for their sheets torn up for bandages for clothing and for food So the women of Halifax met in August 1914 and made tentative plans should Halifax be attacked Some don t believe it Yet war was very frightening in a seaport city And these Halifax ladies were the women who two years before gathered at city hall behind long tables with pen and paper to assist survivors of the Titanic to identify bodies gathered up from the sea and brought to Halifax on our own ships When the Explosion went off the wife of a judge met her friend and arrived at the city hall by 9 30 a m They swept up glass and plaster knowing that the women would be coming soon with everything they had mustered At 11 30 a m one of the city councillors came downstairs and said to the women Give everything to everybody who asks Half naked blackened bloodied people had been coming in all morning The women were ready with everything for everybody because the ladies had planned for an attack

Explosion in

Halifax Harbour David Flemming,2004-10 This book offers a definitive account of the Halifax explosion and its aftermath and the most extensive collection of images many in colour available in print

Catastrophe T. Joseph Scanlon,2020-11-27

Catastrophe weaves together compelling stories and potent lessons learned from the calamitous Halifax explosion the worst non natural disaster in North America before 9 11 On December 6 1917 the Canadian city of Halifax Nova Scotia was shattered when volatile cargo on the SS Mont Blanc freighter exploded in the bustling wartime harbour More than nineteen hundred people were killed and nine thousand injured Across more than two square kilometres some 1200 homes factories schools and churches were obliterated or heavily damaged Written from a scholarly perspective but in a journalistic style accessible to the general reader this book explores how the explosion influenced later emergency planning and disaster theory Rich in firsthand accounts gathered in decades of research in Canada the US the UK France and Norway the book examines the disaster from all angles It delivers an inspiring message the women and men at ground zero responded speedily courageously and effectively fighting fires rescuing the injured and sheltering the homeless The book also shows that the generous assistance that later came from central Canada and the US also brought some unhelpful intrusions by outside

authorities Unable to imagine the horror of the initial crisis they ignored or even vilified a number of the first responders This book will be of particular interest to disaster researchers and emergency planners along with journalists and scholars of history Maritime studies and Canadian studies **This Small Army of Women** Linda J. Quiney, 2017-05-01 With her soft linen head scarf and white apron emblazoned with a red cross the Voluntary Aid Detachment nurse or VAD has become a romantic emblem of the First World War This Small Army of Women draws on diaries letters and interviews to tell the forgotten story of the nearly two thousand women from Canada and Newfoundland who volunteered to do their bit at home and overseas Middle class and well educated but largely untrained VADs were excluded from Canadian military hospitals overseas the realm of the professional nurse but helped solve Britain's nursing deficit and filled gaps in Canada's domestic nursing ranks Their dedication and struggle to secure a place at their brothers' bedsides reveals much about women's contributions to the war effort the tensions between amateur and professional nurses and women's evolving role outside the home **Strange & Supernatural** Whitby, Barbara, 2014-09-01 Spine chilling accounts of school hauntings after the Halifax Explosion premonitions of the Titanic tragedy the phantom reappearance of the Yarmouth the Great Amherst Poltergeist Mystery the cursing of the Narrows area in Halifax Harbour and the famous Bell Island Hag in Newfoundland are just some of the supernatural stories found in this collection that will make you shiver Learning to Practise Ruby Heap, Wyn Millar, Elizabeth Smyth, 2005-10-25 How does one become a professional This interdisciplinary collection offers new insights into that fundamental question Employing a wide variety of approaches and methodologies the original and thematically linked essays discuss such problematic issues as the most appropriate site for professional education the proper focus and content of the initial and on going preparation of professionals and the nature of both continuity and change in professional education In the process they raise challenging questions about the development of professional education in Canada and elsewhere from the early 19th century to the present day in fields as diverse as the health sciences law engineering social work theology and university teaching An essential resource for those studying the professions this book will also appeal to practitioners professional associations administrators and faculty in professional schools and to all those interested in the past present and future state of their professions Published in English **Black Ice** George Robert Fosty, Darril Fosty, 2007 The Colored Hockey League of the Maritimes was formed in 1895 in Halifax Nova Scotia Canada Comprised of the sons and the grandsons of runaway American slaves the league helped pioneer the sport of ice hockey changing this winter game from the primitive gentleman's past time of the Nineteenth Century to the to the modern fast moving game of today In an era when many believed Blacks could not endure cold possessed ankles too weak to effectively skate and lacked the intelligence for organized sport these men defied the established myths The Colored League was one of the most complex sports organizations ever created and was lead by Baptist ministers and church laymen Natural leaders and proponents of Black Pride these men represented a concept in sports never before seen Their rule book was The Bible

Their game book the coded words and oral history derived from the experiences of American slavery and the Underground Railroad Their strategy the principles and teachings of American Black leader Booker T Washington the founder of the Tuskegee Institute and a believer in the concept of racial equality through racial separation Twenty five years before the Negro Baseball Leagues in the United States and twenty two years before the birth of the National Hockey League the Colored League would emerge as a premier force in Canadian hockey and supply the resilience necessary to preserve a unique culture which exists to this day Unfortunately their contributions were conveniently ignored or simply stolen as White teams and hockey officials influenced by the Black league copied elements of the Black style or sought to take self credit for Black hockey innovations Seven years of research has gone into this book This is the first book ever written on the Colored Hockey League of the Maritimes

Methods of Disaster Research Robert A. Stallings, 2003-01-14 The methods of disaster research are indistinguishable from those used throughout the social sciences Yet these methods must be applied under unique circumstances Researchers new to this field need to understand how the disaster context affects the application of the methods of research This volume written by some of the worlds leading specialists in disaster research provides for the first time a primer on disaster research methods Among the topics covered are qualitative field studies and survey research underutilized approaches such as cross national studies simulations and historical methods and newer tools utilizing geographic information systems the Internet and economic modeling

Burden of Desire Robert MacNeil, 2014-03-27 Burden of Desire centres on the love triangle between bohemian Halifax south end belle Julia Robertson Dalhousie professor Stewart MacPherson and young Anglican minister Peter Wentworth Julia keeps a diary detailing her sexual fantasies which she has with her at the moment of the blast that was the Halifax Explosion She hides her diary in her coat which is subsequently donated to a clothing drive for the individuals from the north end of the city who ve lost everything in the explosion Peter discovers the diary and becomes fixated on its author enlisting the help of his friend Stewart to find her Burden of Desire explores the repression and expression of sexual desire at the time of the First World War It also offers a compelling fictional account of the impact on Halifax society of the Halifax Explosion

Disasters, Collective Behavior, and Social Organization Russell Rowe Dynes, Kathleen J. Tierney, 1994 Human action is guided by social structure but there are also many situations in which behavior is improvised emergent and outside conventional normative constraints This book focuses on these types of occasions which include panics crowds social movements and organized behavior following disasters Social scientists in the fields of collective behavior social movements and disaster research study these topics E L Quarantelli cofounder and longtime director of the Disaster Research Center DRC is one of those scholars indeed he has devoted his career to understanding them Quarantelli s impact on the fields of disaster research and collective behavior is traced in the foreword to this volume
