Miracles Or Mirages? James D. Bales, 1956 **Miracles Or Mirages** Wynon C. Stewart, 2003-12 **Between Mirage and Miracle** J. Barrie Shepherd, 2012-06-01 In this volume Shepherd selects from these and from other unpublished works to shape a series of poems that seek to portray and even illuminate to some extent the life of the spirit They begin by tracing the progress of a typical year January through December but also by noting and celebrating at times the high points of The Christian Year Lent Easter Pentecost Thanksgiving Advent Christmas and Epiphany Other more generally themed less calendar related poems follow including poems that reflect on the September 11 2001 attack on the World Trade Center an attack in which several of the author s parishioners and friends were killed This is a book to be dipped into rather than read right through It should provide fertile soil for the practice of daily prayer and meditation **Towards an Inclusive Democracy** Takis Fotopoulos, 1997-05-01 An analysis of the growth economy this book traces the causes of the present crisis in the modern market system initiated two centuries ago with the establishment of the market economy system which has led to the present growth economy It concludes that a true democracy can only be derived from a synthesis of the democratic and socialist traditions along with the radical green feminist and libertarian ideologies To this end this text offers a new vision of an inclusive democracy **Library of Congress Subject Headings** Library of Congress, 2009 *The Asian Miracle, Myth, and Mirage* Bernard Arogyaswamy, 1998-04-23 Until recently double digit economic growth was not unusual among Asian countries and in fact had come to be expected of them From western India to northeastern China markets were booming and incredible numbers of foreign investors were racing into the Asian markets Scholars have written laudatory books and articles politicians want to ensure that trade with Asian countries continues on a rising trajectory and business leaders have become the new promoters of Asian prosperity This book attempts to inject a note of caution and reality while giving Asian countries well deserved credit for improving their economic status Technological managerial and institutional deficiencies need to be addressed in Asian countries if the progress of the past two decades is to be restored and preserved Although Asian nations particularly Japan have invested heavily in R D their success mainly derives from process improvements and not from new product innovations Technology and science are the foundations of modern economic civilization and Asia s assets fall behind Western countries in both areas The centrality of family based organizations in some Asian economies and the dependence on horizontal vertical networks in others also limits the ability of Asian firms to become global operations The lack of adequate institutions such as an independent judiciary and a responsive polity and the absence of organizations to bridge the gap between familism and the government results in an uncertain societal framework in much of Asia If robust economic growth is to return Asian economies must rectify the weaknesses Arogyaswamy exposes in this provocative and timely book **Employment 'miracles'** Uwe Becker, Herman M. Schwartz, 2005 Why did some economies experience a boom in the 1990s Discussing this crucial question Employment Miracles comparatively analyzes

select miracle economies The contributors critically analyze how the small sizes and institutional structures of seven countries including the Netherlands Denmark and Ireland accounted for their success and their status as economic models Comparisons to the American and German markets reveal how differing policies liberal versus corporatist social democratic determine job growth and levels of income inequality and poverty The book also stresses the relevance of fortuitous circumstances such as the housing price bubble Employment Miracles is an important resource for political scientists and economists in their study of national economies **Library of Congress Subject Headings** Library of Congress.

Cataloging Policy and Support Office,2009 **From Miracle to Mirage** Myungji Yang,2018-03-15 Myungji Yang s From Miracle to Mirage is a critical account of the trajectory of state sponsored middle class formation in Korea in the second half of the twentieth century Yang s book offers a compelling story of the reality behind the myth of middle class formation Capturing the emergence reproduction and fragmentation of the Korean middle class From Miracle to Mirage traces the historical process through which the seemingly successful state project of building a middle class society resulted in a mirage Yang argues that profitable speculation in skyrocketing prices for Seoul real estate led to mobility and material comforts for the new middle class She also shows that the fragility inherent in such developments was embedded in the very formation of that socioeconomic group Taking exception to conventional views Yang emphasizes the role of the state in producing patterns of class structure and social inequality She demonstrates the speculative and exclusionary ways in which the middle class was formed Domestic politics and state policies she argues have shaped the lived experiences and identities of the Korean middle class From Miracle to Mirage gives us a new interpretation of the reality behind the myth Yang s analysis provides evidence of how in cultural and objective terms the country s rapid compressed program of economic development created a deeply distorted distribution of wealth **Library of Congress Subject Headings: P-Z** Library of Congress.
