Golan, 2016 The Lavi fighter program the largest weapons development effort ever undertaken by the State of Israel envisioned a new generation of high performance aircraft In a controversial strategy Israel Aircraft Industries intended to develop and manufacture the fighters

in Israel with American financial support The sophisticated planes developed in the mid 1980s were unique in design and intended to make up the majority of the Israeli air force Though considerable prestige and money were at stake developmental costs increased and doubts arose as to whether the Lavi could indeed be the warplane it was meant to be Eventually the program became a microcosm for the ambitions fears and internal divisions that shaped both the U S Israeli relationship and Israeli society itself But the fighter never made it to operational service and until now the full breadth and significance of the Lavi story have never been examined and presented Lavi The United States Israel and a Controversial Fighter Jet traces the evolution of the Lavi fighter from its genesis in the 1970s to its scrapping in August 1987 John W Golan examines the roles of Israeli military icons and political leaders such as Ezer Weizman Ariel Sharon Menachem Begin and Yitzhak Rabin in the program and in relation to their counterparts in the United States On the American side Golan traces the evolution of government policy toward the program detailing the complex picture of the U S foreign policy apparatus and of U S Israeli relations in general from President Reagan s public endorsement of the program on the White House lawn to Defense Secretary Caspar Weinberger s unremitting attempts to cancel it in succeeding years Iran's Military Forces in Transition Anthony H. Cordesman, 1999-03-30 Iran today is still struggling with the legacy of its own Islamic revolution and is deeply divided between the moderates who enjoy broad public support and the conservatives who control the levers of power The mixed policies that result are reflected in Iran s ambivalent military posture In recent years Iran has only conducted a limited build up of its armed forces and has cut defense spending and arms imports On the other hand Iran has developed a carefully focused program that threatens shipping in the lower Gulf and the world s oil exports It has strengthened its capability for unconventional warfare and continues to be a significant proliferator setting up indigenous military industries and developing a greater ability to import weapons In this authoritative analysis of interest to Middle Eastern specialists and military affairs experts alike Anthony Cordesman concludes that the continuation of Iran s current defensive security posture depends as much on these economic factors as on the outcomes of domestic political rivalries Iran may eventually limit any military expansion to a necessary defensive strength and set strategic goals for itself that are compatible with the legitimate interests of other nations or it may choose a more aggressive course Regardless of the ultimate outcome argues Cordesman it does no good to either demonize or excuse Iranian policies Instead the United States and other nations with interests in the Middle East and Central Asia need to deal realistically with Iran as a reemerging regional power The Gulf And The Search For Strategic Stability Anthony H. Cordesman, 2019-09-06 This book provides an extensive military and strategic analysis of the Gulf and the Arabian Peninsula assessing the regional military balance the internal security and stability of each Gulf nation the evolution of each nation s forces from 1969 into 1983 and the impact of defense spending and Western and Soviet bloc arms sales in the region Comprehensive statistics are provided on arms transfers to each country since 1969 and on the forces each nation is capable of deploying in the Gulf Quarterly Review of Military Literature ,1967 After

The Storm Anthony H Cordesman,2019-08-19 This comprehensive new analysis goes far beyond today s headlines and the basic facts and figures on the military forces in the region Tracing the origin of the military forces in each Middle East country Tony Cordesman discusses current security developments and provides a qualitative and quantitative analysis of the strength and effectiveness o *The North African Military Balance* Anthony H. available shortly before the end of the Second World War but they had not been developed to a high enough standard to take part. This changed after 1945 when on both sides of the Iron Curtain one technological development surpassed the others and records tumbled almost every week. The era of the piston engine was finally over and jet fighters now dominated the skies. By the mid 1950s their speed had already reached double that of the speed of sound, an achievement which a few years earlier would have sounded to many like science fiction.
