REDEMPTION OF THE DAMNED: VOL. 1 AERIAL PHENOMENA Martin Shough, 2019-06-28 UNRAVELLING AERIAL MYSTERIES OF THE PAST Charles Fort published his first and most influential book The Book of the Damned a century ago in 1919 collecting together many historical reports of strange aerial phenomena Since the birth of the UFO controversy in 1947 Fort s writings have been cited in countless books and web pages Yet this is the first time in a hundred years that researchers have systematically verified the sources and content of every one of these oft recycled stories correcting many errors placing each case in its historical context and submitting it to a careful scientific investigation in an attempt to find a conventional answer What were these reported phenomena Is it possible to find non exotic explanations With the advantage of modern knowledge methods and resources in most cases the answer proves to be yes Some of the solutions found may shock the general reader and surprise even specialists Yet in the end a few well documented events remain unexplained

The Greatest Lie on Earth (Expanded Edition) Edward Hendrie, 2018-09-12 This book reveals the mother of all conspiracies It sets forth biblical proof and irrefutable evidence that will cause the scales to fall from your eyes and reveal that the world you thought existed is a myth The most universally accepted scientific belief

today is that the earth is a globe spinning on its axis at a speed of approximately 1 000 miles per hour at the equator while at the same time it is orbiting the sun at approximately 66 600 miles per hour All of this is happening as the sun in turn is supposed to be hurtling through the Milky Way galaxy at approximately 500 000 miles per hour The Milky Way galaxy itself is alleged to be racing through space at a speed ranging from 300 000 to 1 340 000 miles per hour What most people are not told is that the purported spinning orbiting and speeding through space has never been proven In fact every scientific experiment that has ever been performed to determine the motion of the earth has proven that the earth is stationary Yet textbooks ignore the scientific proof that contradicts the myth of a spinning and orbiting globe Christian schools have been hoodwinked into teaching heliocentrism despite the clear teaching in the bible that the earth is not a sphere and does not move This book reveals the evil forces behind the heliocentric deception and why scientists and the Christian churches have gone along with it Meddelelser Om Grønland ,1917 *Catalog of Space Shuttle Earth Observations Hand-held*

The Past is the Present; It's the Future Too Christine Ross,2012-06-28 The term temporality often refers to the traditional mode of the way time is a linear procession of past present and future As philosophers will note this is not always the case Christine Ross builds on current philosophical and theoretical examinations of time and applies them to the field of contemporary art films video installations sculpture and performance works Ross first provides an interdisciplinary overview of contemporary studies on time focusing on findings in philosophy psychology sociology communications history postcolonial studies and ecology She then illustrates how contemporary artistic practices play around with what we consider linear time Engaging the work of artists such as Guido van der Werve Melik Ohanian Harun Farocki and Stan Douglas allows investigation through the art as opposed to having art taking an ancillary role The Past is the Present It s the Future Too

forces the reader to understand the complexities of the significance of temporal development in new artistic practices
