Michał Mrugalski,Schamma Schahadat,Irina Wutsdorff,2022-12-05 Literary theory flourished in Central and Eastern Europe throughout the twentieth century but its relation to Western literary scholarship is complex This book sheds light on the entangled histories of exchange and influence both within the region known as Central and Eastern Europe and between the region and the West The exchange of ideas between scholars in the East and West was facilitated by both personal and institutional relations both official and informal encounters For the longest time however intellectual exchange was thwarted by political tensions that led to large parts of Central and Eastern Europe being isolated from the West A few literary theories nevertheless made it into Western scholarly discourses via exiled scholars Some of these scholars such as Mikhail Bakhtin become widely known in the West and their thought was transposed onto new Western cultural contexts others such as Olga Freidenberg were barely noticed outside of Russia and Poland This volume draws attention to the schools circles and concepts that shaped the development of theory in Central and Eastern Europe as well as the histoire croise the history of translations transformations and migrations that conditioned its relationship with the West    **Parallel System Interconnections and Communications** Miltos D. Testament in the twenty first century     **Heaven and the Popular Imagination** T. M. Allen,2018-11-15 Popular culture continues to search the depths of the poetic imagination concerning heaven It seems to be a constant theme in literature film and music spanning genres throughout the Western world Yet some contemporary scholars suggest that all of these narratives are somewhat misguided and remain at best only partial constructions of a proper eschatology The creative imagination in popular culture especially in relation to the arts has often carried a less than trustworthy role in theology and philosophy Heaven and the Popular Imagination analyzes a number of approaches within the theology of culture conversation to suggest that a hermeneutic of popular imagery can open up new horizons for understanding and challenging the role heaven plays in Christian theology From ancient literature to popular music and films heaven is part of the framework of our ecumenical imagining about beginnings and endings Such a hermeneutic must encompass an interdisciplinary approach to theology
