Mirror Mind Zen Christian Dialogue:

The Mirror Mind William Johnston,1990 Examines contemporary problems of Christianity and shows how tenets of Eastern wisdom and Zen meditation can be combined with Christian teachings and prayer as a means toward self realization and fulfillment

Fragrant Rivers of Wisdom A. Christian van Gorder,2021-12-09 Buddhism and Christianity are ancient rich and multivalent wisdom spirituality traditions that often have insightful similarities as well as distinct perspectives from entirely different starting points Fragrant Rivers of Wisdom explores some of these paths and encourages readers to gain as far as is possible a participant s appreciation of another faith This book aims to help readers celebrate and enjoy the rich wisdom legacies of a teacher revealing a pure lotus blossoming from mud and the legacies of a peasant Jewish carpenter from Galilee revealing love on a cross Both teachers share the power of love the joys of healing encouragement and the creative resources of spirit filled living Their ancient words and their modern communities still following these paths are dynamically relevant for our modern context of confusion and challenge

The Burning Mirror Sandy Yule,2005 *The Ground We Share* Robert Aitken,David Steindl-Rast,1996-06-18 These dialogues between Robert Aitken Roshi one of the first American born Zen masters and Brother David Steindl Rast the Roman Catholic monk and hermit took place during a week long retreat the two old friends undertook in 1991 in a remote part of the island of Hawaii Their aim was to approach the dialogue between Buddhism and Christianity in a fresh way one that takes as its starting point a comparison of the personal experiences of the dialoguers as a Buddhist and as a Christian respectively rather than abstract concepts The result is the discovery of a surprising amount of common ground the kind of shared experience that forms a solid foundation for further dialogue

Thomas Merton's Encounter with Buddhism and Beyond Jaechan Anselmo Park,2019-03-07 Thomas Merton recognized the value and possibility of contemplative dialogue between monastics and contemplatives of other religious traditions and hoped that through such dialogue monastics would strive for inter monastic communion and a bonding of the broader spiritual family He held out hope that this bond would demonstrate the fundamental unity of humanity to a world that was becoming ever more materialistic and divided Among other themes and topics this book explores Thomas Merton s role as a pioneer of Buddhist Christian dialogue and monastic interreligious dialogue It delves into the process of Merton s self transformation through contemplative experiences explores his encounter with Zen and Tibetan Buddhists and his pioneering engagements in Buddhist Christian dialogue and presents and responds to the criticisms of those who raise questions about Merton s understanding of Buddhism Fr Jaechan Anselmo Park OSB articulates and analyzes the influences of Buddhist theory and practice on Thomas Merton s contemplative spirituality and shows how Merton s legacy has influenced and continues to inspire interreligious and inter monastic dialogue particularly in an Asian monastic context

Buddhist adaptations of the spiritual exercises Confucianism East Asian cultures and the spiritual exercises *The Mirror Mind* William Johnston, 1981 Eight lectures delivered at Oxford in honor of Martin D Arcy Master of Campion Hall about Christianity in Dialogue with Eastern Mysticism from preface Christianity and Chinese Culture Mikka Ruokanen, Paulos Huang, Baoluo Huang, 2010-11-23 The rapidly growing Chinese Protestant Church faces a significant challenge it must adapt itself to the unique dimensions of Chinese culture leaving behind the trail of old missionary theology and molding an authentically Chinese approach to biblical interpretation and Christian life an approach that works within both the traditional and the contemporary dimensions of Chinese society Rising from an extraordinary 2003 Sino Nordic conference on Chinese contextual theology which brought Chinese university scholars and church theologians together for the first time Christianity and Chinese Culture addresses ways in which the church in China is responding to that challenge The essays collected here highlight both the stunning complexities confronting Protestant Christianity in China and its remarkable potential This is a most timely publication on the current issues and research on Christianity and Chinese culture in the PRC previously unavailable in English The list of scholars in the collection reads like a Who's Who in Christian studies in China including both secular academics and Christian theologians The final part on theological reconstruction is of particular interest given its importance for the Protestant churches in the last decade This book should be on the shelf of any scholar interested in the subject Edmond Tang Director East Asian Christian Studies University of Birmingham UK Contributors Zhao Dunhua Zhang Qingxiong Diane B Obenchain Svein Rise He Guanghu Wan Junren Lo Ping cheung You Bin He Jianming Lai Pan chiu Jorgen Skov Sorensen Jyri Komulainen Gao Shining Zhuo Xinping Notto R Thelle Yang Huilin Thor Strandenaes Li Pingye Vladimir Fedorov Wang Xiaochao Choong Chee Pang Zhang Minghui Li Qiuling Fredrik Fllman Birger Nygaard Deng Fucun Chen Xun Gerald H Anderson Zhu Xiaohong Sun Yi Chen Yongtao Lin Manhong Wu Xiaoxin **Oriental Enlightenment** J.J. Clarke, 2002-09-11 What is the place of Eastern thought Buddhism Taoism Hinduism Confucianism in the Western intellectual tradition Oriental Enlightenment shows how despite current talk of globalization there is still a reluctance to accept that the West could have borrowed anything of significance from the East and explores a critique of the orientalist view that we must regard any study of the East through the lens of Western colonialism and domination Oriental Enlightenment provides a lucid introduction to the fascination Eastern thought has exerted on Western minds since the Renaissance *Bibliography on East Asian Religion and Philosophy*, 2001 This comprehensive research bibliography compiles annotates indexes and cross references resources in the principal Western languages which focus on China Japan and Korea in the areas of philosophy and religious studies supporting resources in theology history culture and related social sciences A notable additional feature is the inclusion of extensive Internet based resources such as a wide variety of web sites discussion lists electronic texts virtual libraries online journals and related material *The Transformation of American Religion : The Story of a Late-Twentieth-Century Awakening* Amanda Porterfield Professor of Religious Studies University of Wyoming, 2001-04-05 As

recently as a few decades ago most people would have described America as a predominantly Protestant nation Today we are home to a colorful mix of religious faiths and practices from a resurgent Catholic Church and a rapidly growing Islam to all forms of Buddhism and many other non Christian religions How did this startling transformation take place A great many factors contributed to this transformation writes Amanda Porterfield in this engaging look at religion in contemporary America Religious activism disillusionment with American culture stemming from the Vietnam war the influx of Buddhist ideas a heightened consciousness of gender and the vastly broadened awareness of non Christian religions arising from the growth of religious studies programs all have served to undermine Protestant hegemony in the United States But the single most important factor says Porterfield was the very success of Protestant ways of thinking emphasis on the individual s relationship with God tension between spiritual life and religious institutions egalitarian ideas about spiritual life and belief in the practical benefits of spirituality Distrust of religious institutions for instance helped fuel a religious counterculture the tendency to define spiritual truth against the dangers or inadequacies of the surrounding culture and Protestantism s pragmatic view of spirituality played into the tendency to see the main function of religion as therapeutic For anyone interested in how and why the American religious landscape has been so dramatically altered in the last forty years The Transformation of Religion in America offers a coherent and persuasive analysis Catholicism Engaging Other Faiths Vladimir Latinovic, Gerard Mannion, Jason Welle, O.F.M., 2018-12-08 This book assesses how Vatican II opened up the Catholic Church to encounter dialogue and engagement with other world religions Opening with a contribution from the President of the Pontifical Council for Interreligious Dialogue Cardinal Jean Louis Tauran it next explores the impact relevance and promise of the Declaration *Nostra Aetate* before turning to consider how Vatican II in general has influenced interfaith dialogue and the intellectual and comparative study of world religions in the postconciliar decades as well as the contribution of particular past and present thinkers to the formation of current interreligious and comparative theological methods Additionally chapters consider interreligious dialogue vis vis theological anthropology in conciliar documents openness to the spiritual practices of other faith traditions as a way of encouraging positive interreligious encounter the role of lay and new ecclesial movements in interreligious dialogue and the development of Monastic Interreligious Dialogue Finally it includes a range of perspectives on the fruits and future of Vatican s II s opening to particular faiths such as Judaism Islam Hinduism and Buddhism **Journeys East** Harry Oldmeadow, 2004-04-28 This is the first book to treat the impact of religious philosophical and psychological traditions of the East on Western intellectuals artists travellers and spiritual seekers in the twentieth century Addressed to both general readers and scholars of religion it is especially valuable for its penetrating and inter religious analysis of two of the most compelling themes now facing the world the emergence of cross cultural religious understanding of the natural order and ecological crisis and the metaphysical basis for both the formal diversity and essential unity of religious traditions of both East and West The West has long romanticized the

mysterious East but it has also judged its traditions as uncivilized Our notions about Eastern spirituality have been formed by a succession of travellers scientists artists intellectuals poets philosophers and missionaries as well as by Eastern travellers who have spent time in the West This book helps us to recognize the influence of Eastern ideas upon modern Western thought by tracing the history of engagements between East and West up until the present day It concludes with a section that helps us to perceive the timeless value of the many Eastern contributions to the West s current intellectual and spiritual state

Eastern Influences on Western Philosophy A. L. Macfie, 2019-08-05 This Reader explores the extent of Oriental influence on European thought primarily in the period of the Enlightenment and the nineteenth century period of doubt and scepticism that followed it It is the first Reader to bring together in one place a series of specific historical and textual studies of Oriental influence upon European thinkers

By Faith and Hospitality Pierre-Francois De Bethune, 2002 Today more than ever it is important that our faith be linked to hospitality to welcome the stranger in our midst This book testifies to the fruitfulness of the process when applied to interfaith dialogue and shares the spiritual insights of experience gained in the Zen Buddhist monasteries in Japan The author is Secretary General of the Commission for Monastic Interfaith Dialogue

Asian Christian Theologians in Dialogue with Buddhism Kenneth Fleming, 2002 This book is a study of three of Asia s most respected contemporary theologians Kosuke Koyama Choan Seng Song and Aloysius Pieris It gives an introduction to Asian Buddhism and the Christian dialogue with Buddhists in Asia Furthermore it examines the work of each theologian in detail looking at the method and content of their dialogue and outlining its impact upon their respective theologies The book provides a critique of their dialogue and engages with the theological issues that have emerged In areas such as religious identity theological method and liberation theology it is shown that their conversation with Buddhism contributes to the development of a genuinely Asian theology and moreover raises important challenges to the worldwide theological community churches and to those engaged in interreligious dialogue

Mirror of God James W. Jones, 2015-01-06 What are the benefits of being a spiritual person This is the question that James Jones explores in his newest book The Mirror of God Jones contends that true religious belief is not a passive process and that one must work hard towards believing in God through acts such as prayer meditation and communal worship He explores the boundaries between psychotherapy and religious practice looks at what Christians might learn from Buddhists and shows their effects on the body and mind Jones is a psychologist as well as a professor of religion and ultimately he provides a blueprint for worship that s smart effective and grounded in the real lives we all live
