## **Mirror And The Killer Queen Otherness In Literary Language:**

**The Mirror and the Killer-queen** Gabriele Schwab,1996      **Translating Foreign Otherness** Yifeng Sun,2017-09-01

This book explores the deep rooted anxiety about foreign otherness manifest through translation in modern China in its endeavours to engage in cross cultural exchanges It offers to theorize and contextualize a related range of issues concerning translation practice in response to foreign otherness The book also introduces new vistas to some of the under explored aspects of translation practice concerning ideology and cultural politics from the late Qing dynasty to the present day Largely as a result of translation ethnocentric beliefs and feelings have given way to a more open and liberal way to approach and appropriate foreign otherness However the fear of Westernization seen as a threat to Chinese cultural integrity and social stability is still shown sporadically through the state s ideological control over translation The book interprets questions and reformulates a number of the key theoretical issues in Translation Studies and also demonstrates their ramifications in a bid to shed light on Chinese translation practice

**Postcolonial Perspectives on Postcommunism in Central and Eastern Europe** Dorota Kołodziejczyk,Cristina Şandru,2017-10-02 A quarter of a century after the fall of the Berlin Wall and from the vantage point of a post Cold War globalised world there is a need to address the relative neglect of postcommunism in analysis of postcolonial and neo colonial configurations of power and influence This book proposes new critical perspectives on several themes and concepts that have emerged within or been propagated by postcolonial studies These themes include structures of exclusion inclusion formations of nationalism structures of othering and representations of difference forms and historical realisations of anti colonial anti imperial struggle the experience of trauma involving issues of collective memory amnesia and the re writing of history resistance as a complex of cultural practices and concepts such as alterity ambivalence self colonisation dislocation hegemonic discourse minority and subaltern cultures Taken together this volume suggests that some of the methodological instruments of postcolonial criticism can be fruitfully applied to the study of postcommunist cultures and conversely that the experience of the Soviet brand of imperialist rule in the form of communism in East Central Europe can function as an ideological moderator in Third World oriented Marxist inspired postcolonial discourses This book was originally published as a special issue of the Journal of Postcolonial Writing

*The Tale of Genji and its Chinese Precursors* Jindan Ni,2020-12-10 In *The Tale of Genji and Its Chinese Precursors* Beyond the Boundaries of Nation Class and Gender Jindan Ni departs from a nativist tradition which views *The Tale of Genji* as epitomizing an exclusively Japanese aesthetic distinct from Chinese influence and Buddhist values Ni contests the traditional focus on Japanese essentialism by detailing the impact of Chinese literary forms and presenting the Japanese Heian Court as a site of dynamic and complex literary interchange Combining close reading the archival work of Japanese and Chinese scholars and comparative literary theory Ni argues that Murasaki Shikibu avoided the constraint of a single literary tradition by drawing on Chinese intertexts Ni s account reveals the heterogeneity that makes *The Tale of Genji* a masterpiece with enduring appeal

**Legacies** Gabriele Schwab, 2010 From mass murder to genocide slavery to colonial suppression acts of atrocity have lives that extend far beyond the horrific moment They engender trauma that echoes for generations in the experiences of those on both sides of the act Gabriele Schwab reads these legacies in a number of narratives primarily through the writing of postwar Germans and the descendants of Holocaust survivors She connects their work to earlier histories of slavery and colonialism and to more recent events such as South African Apartheid the practice of torture after 9 11 and the disappearances that occurred during South American dictatorships Schwab's texts include memoirs such as Ruth Kluger's *Still Alive* and Marguerite Duras's *La Douleur* second generation accounts by the children of Holocaust survivors such as Georges Perec's *W* Art Spiegelman's *Maus* and Philippe Grimbert's *Secret* and second generation recollections by Germans such as W G Sebald's *Austerlitz* Sabine Reichel's *What Did You Do in the War Daddy* and Ursula Duba's *Tales from a Child of the Enemy* She also incorporates her own reminiscences of growing up in postwar Germany mapping interlaced memories and histories as they interact in psychic life and cultural memory Schwab concludes with a bracing look at issues of responsibility reparation and forgiveness across the victim perpetrator divide

#### **The Public Lives of Charlotte and Marie Stopes**

Stephanie Green, 2015-10-06 Charlotte Stopes was the first woman in Scotland to get a university qualification She devoted her life to studying Shakespeare and the promotion of women in public life Though Charlotte is largely forgotten her daughter Marie is well known Green asserts that Marie's success can only be understood in relation to the achievements of her mother

**Alice in Wonderland** Lewis Carroll, 2025-08-05 In *Alice's Adventures in Wonderland* Lewis Carroll invites readers into a fantastical realm where logic is turned on its head and the ordinary becomes extraordinary The story follows Alice a curious young girl who upon following a hurried White Rabbit tumbles into a whimsical world teeming with peculiar characters and perplexing scenarios As Alice navigates this surreal landscape she encounters a host of memorable figures the enigmatic Cheshire Cat the eccentric Mad Hatter and the imperious Queen of Hearts among others Each encounter challenges her perceptions and compels her to question the nature of reality and identity Carroll's narrative is a masterful blend of fantasy and satire employing literary nonsense to both amuse and provoke thought The novel's playful use of language and its subversion of Victorian norms have cemented its status as a cornerstone of classic literature Beyond its surface level whimsy the story delves into themes of self discovery and the complexities of growing up resonating with readers across generations Its enduring appeal lies in its ability to offer both a delightful children's tale and a profound commentary on the human experience

#### **Lewis Carroll's "Alice" and Cognitive Narratology**

Francesca Arnavas, 2021-01-18 We live in an age that is witnessing a growing interest in narrative studies cognitive neuroscientific tools mind studies and artificial intelligence hypotheses This book therefore aims to expand the exegesis of Carroll's *Alice* books aligning them with the current intellectual environment The theoretical force of this volume lies in the successful encounter between a great book and all its polysemous ramifications and a new interpretative point of view powerful enough to provide

a new original contribution but well grounded enough not to distort the text itself Moreover this book is one of the first to offer a complete thorough analysis of one single text through the theoretical lens of cognitive narratology and not just as a series of brief examples embedded within a more general discussion It emphasises in a more direct effective way the actual novelty and usefulness of the dialogue established between narrative theory and the cognitive sciences It links specific concepts elaborated in the theory of cognitive narratology with the analysis of the Alice books helping in this way to discuss question and extend the concepts themselves opening up new interpretations and practical methods **Remapping**

**Knowledge** Mihai I. Spariosu, 2006-03-01 The growing interdependence of the local and the global demand innovative approaches to human development Such approaches the author argues ought to be based on the emerging ethics of global intelligence defined as the ability to understand respond to and work toward what will benefit all human beings and will support and enrich all life on this planet As no national or supranational authority can predefine or predetermine it global intelligence involves long term collective learning processes and can emerge only from continuing intercultural research dialogue and cooperation In this book the author elaborates the basic principles of a new field of intercultural studies oriented toward global intelligence He proposes concrete research and educational programs that would help create intercultural learning environments designed to stimulate sustainable human development throughout the world The Many Voices of Contemporary Piedmontese Writers Andrea Raimondi, 2016-12-14 What do Cesare Pavese Beppe Fenoglio and Primo Levi have in common Apart from their obvious Piedmontese origins they and other writers coming from this Italian region share a certain tendency towards multilingualism which is a characteristic that has not been comprehensively investigated over the years This study presents a linguistic analysis of a group of modern and contemporary narratives written by Piedmontese authors The novels and short stories here examined are notable for the intriguing way in which they move between a variety of idioms Standard Italian regional vernaculars English and pastiches with rare excursions into French With the support of linguistic and philosophical theories on the relation between identity alterity and language the book demonstrates how the use of non standard parlangues is fundamental in both reinforcing the sense of belonging to specific social groups and highlighting the presence of dissimilar identities and other cultures A sociolinguistic study and an analysis of the political and historical context of the region are also provided in order to illustrate how the combination of different varieties in literature reflects the region's peripheral position as well as the political and social changes that have occurred in Piedmont since the nineteenth century This book fills a notable gap and casts new light on Piedmontese literature Critical Trauma Studies Monica Casper, Eric Wertheimer, 2016-03-15 Trauma is a universal human experience While each person responds differently to trauma its presence in our lives nonetheless marks a continual thread through human history and prehistory In Critical Trauma Studies a diverse group of writers activists and scholars of sociology anthropology literature and cultural studies reflects on the study of trauma and how multidisciplinary approaches lend

richness and a sense of deeper understanding to this burgeoning field of inquiry The original essays within this collection cover topics such as female suicide bombers from the Chechen Republic singing prisoners in Iranian prison camps sexual assault and survivor advocacy and families facing the devastation of Hurricane Katrina As it proceeds Critical Trauma Studies never loses sight of the way those who study trauma as an academic field and those who experience narrate and remediate trauma as a personal and embodied event inform one another Theoretically adventurous and deeply particular this book aims to advance trauma studies as a discipline that transcends intellectual boundaries to be mapped but also to be unmoored from conceptual and practical imperatives Remaining embedded in lived experiences and material realities Critical Trauma Studies frames the field as both richly unbounded and yet clearly defined historical and evidence based *Covering Immigration* Leo R. Chavez, 2023-11-15 On October 17 1994 The Nation ran the headline The Immigration Wars on its cover over an illustration showing the western border of the United States with a multitude of people marching toward it In the foreground the Statue of Liberty topped by an upside down American flag is joined by a growling guard dog lunging at a man carrying a pack The magazine's coverage of emerging anti immigrant sentiment shows how highly charged the images and texts on popular magazine covers can be This provocative book gives a cultural history of the immigration issue in the United States since 1965 using popular magazine covers as a fascinating entry into a discussion of our attitudes toward one of the most volatile debates in the nation Leo Chavez gathers and analyzes over seventy cover images from politically diverse magazines including Time Newsweek U S News and World Report Business Week The New Republic The Nation and American Heritage He traces the connections between the social legal and economic conditions surrounding immigration and the diverse images through which it is portrayed *Covering Immigration* suggests that media images not only reflect the national mood but also play a powerful role in shaping national discourse Drawing on insights from anthropology sociology and cultural studies this original and perceptive book raises new questions about the media's influence over the public's increasing fear of immigration On October 17 1994 The Nation ran the headline The Immigration Wars on its cover over an illustration showing the western border of the United States with a multitude of people marching toward it In the foreground the Statue of Liberty topped **Anecdotal Modernity** James Dorson, Florian Sedlmeier, MaryAnn Snyder-Körber, Birte Wege, 2020-12-16 Modernity is made and unmade by the anecdotal Conceived as a literary genre a narrative element of criticism and most crucially a mode of historiography the anecdote illuminates the convergences as well as the fault lines cutting across modern practices of knowledge production The volume explores uses of the anecdotal in exemplary case studies from the threshold of the early modern to the present **The Anthropological Turn in Literary Studies** Jürgen Schläeger, 1996 **Scanning the Hypnograph** Nathaniel Wallace, 2016-09-07 Nathaniel Wallace's *Scanning the Hypnograph* chronicles a contemporary genre that exploits sleep's evocative dimensions While dreams sleeping nudes and other facets of the dormant state were popular with artists of the early twentieth century and long before sleep experiences

have given rise to an even wider range of postmodern artwork Scanning the Hypnograph first assesses the modernist framework wherein the sleeping subject typically enjoys firm psychic grounding As postmodernism begins subjective space is fragmented the representation of sleep reflecting the trend Among other topics this book demonstrates how portrayals of dormant individuals can reveal imprints of the self Gender issues are taken up as well Mainstream heterosexual representations are considered along with depictions of gay lesbian and androgynous sleepers Belonging and Narrative Laura Bieger,2018-11-09 Why did the novel become so popular in the past three centuries and how did the American novel contribute to this trend As a key provider of the narrative frames and formulas needed by modern individuals to give meaning and mooring to their lives Drawing on phenomenological hermeneutics human geography and social psychology Laura Bieger contends that belonging is not a given it is continuously produced by narrative Against the current emphasis on metaphors of movement and destabilization she explores the salience and significance of home Challenging views of narrative as a mechanism of ideology she approaches narrative as a practical component of dwelling in the world and the novel a primary place making agent *Like Letters in Running Water* Mary Aswell Doll,2000-07-01 Like Letters in Running Water explores ways in which fiction prose drama poetry myth fairytale yields transformative insights for educational theory and practice Through a series of intensely original powerful essays drawing on curriculum theory literary analysis psychology and feminist theory and practice Doll seeks to confront a commonly held bias that reading literary fictions is mere entertainment not a learning experience She suggests that fiction has immense teaching power because it connects readers with their alliances within themselves and this connection attends to social outer issues addressed by traditional pedagogies with greater deeper awareness Her elaboration in this book of the concept of currere the lived experience of curriculum through literature drama and myth is a major contribution to the field of curriculum theory **Information Please** Mark Poster,2006-08-30 Mark Poster considers how new media from TiVO to digital file sharing affects society and he traces its implications for cultural theory and progressive political change The Humanist (Re)Turn: Reclaiming the Self in Literature Michael Bryson,2019-07-31 The exciting new book argues for a renewed emphasis on humanism contrary to the trend of post humanism or what Neema Parvini calls the anti humanism of the last several decades of literary and theoretical scholarship In this trail blazing study Michael Bryson argues for this renewal of perspective by covering literature written in different languages times and places calling for a return to a humanism which focuses on literary characters and their psychological and existential struggles not struggles of competition but of connection the struggles of fragmented incomplete individuals for integration wholeness and unity **Space in America** ,2005-01-01 America s sense of space has always been tied to what Hayden White called the narrativization of real events If the awe inspiring manifestations of nature in America Niagara Falls Virginia s Natural Bridge the Grand Canyon etc were often used as a foil for projecting utopian visions and idealizations of the nation s exceptional place among the nations of the world the rapid technological progress and its concomitant

appropriation of natural spaces served equally well as David Nye argues to promote the dominant cultural idiom of exploration and conquest. From the beginning, American attitudes towards space were thus utterly contradictory, if not paradoxical, a paradox that scholars tried to capture in such hybrid concepts as the middle landscape, Leo Marx's engineered New Earth, Cecelia Tichi's or the technological sublime. David Nye: Not only was America's concept of space paradoxical, it has always also been a contested terrain, a site of continuous social and cultural conflict. Many foundational issues in American history, the dislocation of Native and African Americans, the geo-political implications of nation building, immigration and transmigration, the increasing division and clustering of contemporary American society, etc., involve differing ideals and notions of space. Quite literally, space and its various ideological appropriations formed the arena where America's search for identity, national, political, cultural, has been staged. If American democracy, as Frederick Jackson Turner claimed, is born of free land, then its history may well be defined as the history of the fierce struggles to gain and maintain power over both the geographical, social, and political spaces of America and its concomitant narratives. The number and range of topics, interests, and critical approaches of the essays gathered here open up exciting new avenues of inquiry into the tangled, contentious relations of space in America. Topics include: Theories of Space, Landscape, Nature, Technoscape, Architecture, Urban Utopia, Literature, Performance, Film, Visual Arts.
