The Burning Mirror Sandy Yule, 2005 *The Tower of Myriad Mirrors* Yueh Tung, Yueh, 2020-06-01 China s most outrageous character the magical Monkey who battles a hundred monsters returns to the fray in this seventeenth century sequel to the Buddhist novel Journey to the West In The Tower of Myriad Mirrors he defends his claim to enlightenment against a villain who induces hallucinations that take Monkey into the past to heaven and hell and even through a sex change The villain turns out to be the personification of his own desires aroused by his

penetration of a female adversary's body in *Journey to the West* The *Tower of Myriad Mirrors* is the only novel of Tung Yeh 1620-1686, a monk and Confucian scholar. Tung picks up the slapstick of the original tale and overlays it with Buddhist theory and bitter satire of the Ming government's capitulation to the Manchus. After a nod to *Journey's* storyteller format, Tung carries Monkey's quest into an evocation of shifting psychological states rarely found in premodern fiction. An important though relatively unknown link in the development of the Chinese novel and a window into late Ming intellectual history, *The Tower of Myriad Mirrors* further rewards by being a wonderful read. *Mirrors Kill* Jack Curtis, 1994 *Medusa's Mirrors* Julia M. Walker, 1998 The question of selfhood in Renaissance texts constitutes a scholarly and critical debate of almost unmanageable proportions. The author of this work begins by questioning the strategies with which male writers depict powerful women. Although Spenser's Britomart, Shakespeare's Cleopatra, and Milton's Eve figure selfhood very differently and to very different ends, they do have two significant elements in common: mirrors and transformations that diminish the power of the female self. *City and Shadow* Roz MacLaren, 2025-08-11 At first they tried to co-exist. The Good and their Mirror. The firstborn and the twin that emerged immediately after. In a world where every person has a Mirror twin capable of doing only bad things, Quiver is the only one born mirrorless. Along with his best friend City, the two must navigate a society ruled by a tyrannical queen and threatened by a dangerous rebel. And when City's Mirror escapes from her island prison, a chain of events is set in motion that thrusts Quiver, City, and her Mirror into a dangerous struggle for power and survival. **Directed Energy Missile Defense in Space** Ashton B. Carter, 1984 **At the Edge of Existence** Brandon West, 2021-12-13 Few scary stories begin with a disclaimer that they are fictional. Instead, they claim to be true even when they are not. Such stories blur the line between fiction and reality, pushing audiences to consider where fiction ends and reality begins. These kinds of horror stories comprise the understudied subgenre of liminal horror. As the first book on this subject, this volume surveys a variety of liminal horror films. It discusses the different variations within liminal horror's subgenres and considers why horror films are obsessed with the natures of and borders between fiction and reality. After first laying out the basic traits of the horror genre in the context of liminality, this book then dives into film more specifically and how the medium is uniquely situated to explore the movement between the fictional and the real. Through lenses such as dreaming, memory, and perception, the following chapters explore the role liminal horror plays in the human psyche's subconscious, unconscious, and the various functions of the human mind in perceiving or misperceiving reality. **Besieged Ego** Caroline Ruddell, 2013-12-16 *The Besieged Ego* critically appraises the representation or mediation of identity in film and television through a thorough analysis of doppelgangers and split or fragmentary characters. The prevalence of non-autonomous characters in a wide variety of film and television examples calls into question the very concept of a unified knowable identity. The form of the double and cinematic modes and rhetorics used to denote fragmentary identity is addressed in the book through a detailed analysis of texts drawn from a range of industrial, historical, and cultural contexts. The doppelganger or

double carries significant cultural meanings about what it means to be human and the experience of identity as a gendered individual. The double also expresses in fictional form our problematic experience of the world as a social and supposedly whole and autonomous subject. The Besieged Ego therefore raises important questions about the representation of identity onscreen and concomitant issues regarding autonomy and what it means to be human yet it also charts a generic account of the double onscreen. Case studies include horror, fantasy and comedy.

Directed energy missile defense in space, 1984. This Background Paper describes and assesses current concepts for directed energy ballistic missile defense in space. Its purpose is to provide Members of Congress, their staffs and the public with a readable introduction to the so-called Star Wars technologies that some suggest might form the basis of a future nationwide defense against Soviet nuclear ballistic missiles. Since these technologies are a relatively new focus for U.S. missile defense efforts, little information about them has been readily available outside the expert community. Directed energy or beam weapons comprise chemical lasers, excimer and free electron lasers, nuclear bomb-powered x-ray lasers, neutral and charged particle beams, kinetic energy weapons and microwave weapons. In addition to describing these devices, this Background Paper assesses the prospects for fashioning from such weapons a robust and reliable wartime defense system resistant to Soviet countermeasures. The assessment distinguishes the prospects for perfect or near-perfect protection of U.S. cities and population from the prospects that technology will achieve a modest, less-than-perfect level of performance that will nonetheless be seen by some experts as having strategic value. Though the focus is technical, the Paper also discusses but does not assess in detail the strategic and arms control implications of a major U.S. move to develop and deploy ballistic missile defense (BMD).

On Mirrors! Philosophy—Art—Organization. Luc Peters, Anthony R. Yue, 2018-04-18. This is a book about mirrors, philosophy, art and organization. It arises from the recognition that we are caught in the mirror. We are under its spell and enchanted by its reflections. Mirrors direct us without our awareness, largely because we do not perceive them as mirrors. This is problematic because mirrors are everywhere. This book explores a philosophy of mirrors, one that investigates the art of painting, cartoons, architecture, music, photography and film, as well as belching and boozing, robots, geil, photographers, monkish cells, cesspools, hairy auditions and clauding. Throughout the book, it uses, mutilates and expands the thoughts of philosophers like Heidegger, Sloterdijk, Deleuze, Serres, Baudrillard and Rancière. The philosophic journey offered here results in new insights and unique viewpoints which open up the hidden, secretive world.
