a loving mirror for his culture at a point of transitional crisis between a shame and guilt culture The book shows how Shakespeare's plays offer better insights into the behavior of violent men than Freud's based on close empirical study of violent criminals develops a theory of violence rooted in the moral emotions of shame and guilt and a cultural psychology of the transition from shame to guilt cultures The work argues that violence is contra Freud not an ineliminable instinct in the nature of things requiring autocracy but arises from patriarchally inflicted cultural injuries to the love of equals that undermine democracy and that only a therapy based on love can address such injuries replacing retributive with restorative justice and populist fascist autocracy with constitutional democracy Love thus understood underlies a range of disparate phenomena the appeal of Shakespeare's theater as a communal art the role of love in psychoanalysis in Augustine's conception of love in religion disfigured by his patriarchal assumptions in Kant's anti-utilitarian ethics of dignity in a naturalistic ethics that roots ethics in facts of human psychology the role of law in democratic cultures as a mirror and critique of such cultures and the basis of an egalitarian theory of universal human rights inspired by Kant and developed more recently by John Rawls In all these domains uncritically accepted forms of culture the initiation of men and women into patriarchy traumatize the love of equals and thus disfigure and distort our personal and political lives

Goens,2019-10-31 Each individual is a unique person In reality education today should help students answer two fundamental life questions Who am I and Why am I here Understanding who they are as individuals and what motivates them leads to a life of purpose and happiness Without coming to grips with these questions life can be vacant and void of meaning A good life is predicated in part on understanding these questions These questions are fundamental and affect all aspects of life Everyone must come to terms with them throughout each phase of life They provide the foundation for introspection and understanding necessary to pursue a life of meaning What kind of education do students need to begin to think about who they are and how they can find significance in their lives Both are essential to enable a life of happiness freedom and success To deal with inevitable change each individual must have a sense of self and purpose     The Metaphysics of Love Frederick

D. Wilhelmsen,1962     Ubuntu and Buddhism in Higher Education David Robinson-Morris,2018-10-26 Ubuntu and Buddhism in Higher Education theorizes the equal privileging of ontology and epistemology towards a balanced focus on being becoming and knowledge acquisition within the field of higher education In response to the shift in higher education s aims and purposes beginning in the latter half of the 20th century this book reconsiders higher education and Western subjectivity through southern African Ubuntu and Eastern Buddhist onto epistemologies By mapping these other than West ontological viewpoints onto the discourse surrounding higher education this volume presents a vision of colleges and universities as transformational institutions promoting our shared connection to the human and non human world and

deepens our understanding of what it means to be a human being      **The Primacy of Love** Paul J. Wadell,2009-03-01 Thomas Aquinas was a man with a strategy not a strategy to assist us in good decision making or a strategy to help us resolve our problems of conscience but a strategy to work toward our personal transformation in light of God s love for us Aquinas has traditionally been represented as a man whose ethics are overly rational excessively formal and too scholarly to be of much use in contemporary society The Primacy of Love gives us a fresh look at his ethical thought and invites us to become part of his vision of the moral life as partners in God s perfect love Author Paul Wadell gives special attention to the role of the passions affections and emotions in our moral life and creates a richly humane and compelling study written in a clear and accessible style The Primacy of Love is a modern map for our own moral journey that is not so much something to study but a way of life in which to participate To follow this journey is to take up an adventure that will involve you from the center of your being and will change you forever      Spotting the Sacred Bruce D. Main,2006-10-01 Most people these days are overwhelmed by the busyness of life and so they often miss the little evidences of God s presence and activity around them In contrast Jesus led a full life but never hurried He took time to notice his surroundings and he often saw and then pointed out great spiritual truths in the everyday experiences of life Using Jesus as a model Bruce Main explores the act of noticing as a means for spiritual growth Filled with engaging often poignant stories that illustrate acts of godly virtue Spotting the Sacred will challenge and encourage readers to go through their day more attuned to God s work in their lives and the lives of others

A Mirror to Nature Rose A. Zimbardo,2021-10-21 In this provocative study Rose Zimbardo examines a crucial revolution in aesthetics that took place in the late seventeenth century and that to this day dominates our response to literature

Although artists of that time continued to follow the precept imitate nature that nature no longer corresponds to the earlier understanding of the term What had been in essence an allegorical mode came to be a literal one Focusing on the drama of the period as an exemplary form Zimbardo shows how it moved from depicting a metaphysical reality of idea to portraying an inner reality of individual experience But drama is constrained in expressing the inner experience since its medium is limited to human action The novel arose to replace drama as the popular literary form Zimbardo argues because it could better and more freely convey man s inner world and thereby imitate the new nature The study concluded that the changes which took place in drama during this period and which led to the invention of the novel resulted not from any change of heart or sensibility but from a fundamental change in the understanding of the nature which art was thought to imitate Neither the drama of the 1690s nor the early novel Zimbardo finds was in the least sentimental A Mirror to Nature brings a new critical perspective to bear on literary developments at the end of the seventeenth century one that must be considered by critics and historians of the period
