A man in a cowboy hat, shirt, and vest is holding a long rifle across his chest. He is standing in a desert landscape with mountains in the background under a sunset sky. The overall color palette is dominated by the warm tones of the sunset (yellows, oranges, reds) and the deep blues of the sky.

**Death and the Reality of Living: Talks on the Kathopanishad** Osho,2025-04-10 The Message beyond Words is an invitation to understand what death really is and thus transform the way you live These talks are based on the ancient Kathopanishad which tells the story of a small boy Nachiketa who is sent by his father to face the Lord of Death This Upanishad is traditionally read as someone is dying to inspire the people they love the people who are present to begin their search for a conscious life By exploring the methods described in this book a person frozen in their fear of death can melt flow and really begin to live for the first time Once you really face your fears about death says Osho your life will automatically transform and become conscious joyful and silent Osho defies all categorization As he says I am not much of a religious person I am not a saint I have nothing to do with spirituality All those categories are irrelevant about me You cannot categorize me you cannot pigeonhole me But one thing can be said that my whole effort is to help you release the energy called love intelligence If love intelligence is released you are healed Misery's Mathematics Peter Balaam,2009-01-19
