Afterthoughts: Literature as a Teacher's Curriculum Edward Podsiadlik III, 2014-09-23 This qualitative journey explores how literature informs and challenges my understanding of teaching and learning. Insights, questions, and conflicts are revealed through a series of essays in which my evolving teacher identity is illuminated through literature and imagination. Hopefully, reading this portrayal of literature, which has been a source of educational insight and imagination for me, will be of use to other educators as they reflect on their own teaching. The primary works of literature used to facilitate this journey are *The Red Badge of Courage* (1895), *Les Misérables* (1862), *American Idiot* (2004), *Light in August* (1932), *Seinfeld* scripts (1991-98), and *Frankenstein* (1818) and *The Odyssey* (Night 1960) and *The Souls of Black Folk* (1903). By delving beneath my exterior teacher mask, a collage of images, anecdotes, reflections, aspirations, and fears is exposed. As a resource for pre-service teachers or a reflective exercise for veteran teachers, this study aims to benefit educators by providing a new pathway through which to better understand their intrinsic identities as teachers. Each chapter concludes with Recommendations for Reflection that readers are encouraged to consider individually and/or collectively. The spirit of daydreams allows me to integrate literature, autobiography, and imagination through inventive and inspired discourses with literary figures using authentic quotations as content for original commentaries that further examine the intrinsic nature of teacher identity. My hope is that this journey will inspire other educators to further reflect on realities and possibilities of what it means to be a teacher.

A Generic Life Steven Rivera, 2020-06-11 A coming-of-age and picaresque story with a continuum of knee-jerk humor and descriptive details sees its way through the unpleasantness of abuse and not having any permanent roots or family. Readers follow the main character from childhood to adulthood as he is shifted from multiple homes and states. Throughout the character's journey, the persona he develops is born from innocence, natural given talents, and his desires to make happiness exist. Although the story begins with horrific abuse, the reader soon realizes that this is not the focus of the book but rather the beginning of a quest. The author's intent is for readers to question what happened. Some questions cannot be answered and remain a mystery. The coming-of-age and rite-of-passage events remind readers of their own stories to tell and compare. A collage of images and feelings will take readers back to their childhood memories as they shadow the main character. The happiness, bitterness, and humor are fueled by extreme turning points and multiple changes of ideologies, cultures, and idiosyncrasies that molded the main character into a psychedelic hodgepodge of personality. Readers will take on all the emotional elements, experiences, and constant changes as they were happening. They uncover the answers and realizations of feeling alone and unwanted until they are warmed and tickled by the character's way of viewing the world. The title of the book and each chapter reflects the constant changes during the main character's life. The theme, style, and language are comparable to Angela's *Ashes*, *A Child Called It*, and *I'm Nobody's Child*. It is not a *woe is me* book. The detailed descriptions allow readers to feel the despair of what it is like being an anomaly but more importantly to enjoy and have fun learning about typical boy fantasies, thoughts, rationales, and the angst and anxieties of growing up.
