Historical Dictionary of the Reformed Churches Robert Benedetto, Donald K. McKim, 2009-10-06 As its name implies the Reformed tradition grew out of the 16th century Protestant Reformation The Reformed churches consider themselves to be the Catholic Church

reformed The movement originated in the reform efforts of Huldrych Zwingli 1484 1531 of Zurich and John Calvin 1509 1564 of Geneva Although the Reformed movement was dependent upon many Protestant leaders it was Calvin s tireless work as a writer preacher teacher and social and ecclesiastical reformer that provided a substantial body of literature and an ethos from which the Reformed tradition grew Today the Reformed churches are a multicultural multiethnic and multinational phenomenon The second edition of the Historical Dictionary of the Reformed Churches contains information on the major personalities events facts movements and beliefs of the Reformed churches This is done through a list of acronyms and abbreviations a chronology an introductory essay appendixes a bibliography and over 800 cross referenced dictionary entries on leaders personalities events facts movements and beliefs of the Reformed churches Contextualizing Theology in the South Pacific Randall G. Prior, 2019-07-10 This book engages with a widespread contemporary dilemma how do we do theology in a context where the cultures of the people are oral and not literate The nations of the South Pacific from their missionary beginnings inherited an approach to theology that was dominated by Western cultural categories The global movement of contextualization began to impact upon Pacific churches in the 1960s and challenged this inherited approach Significant changes have resulted but the dilemma has remained The dominant approach is still one that is defined by and better suited to literate cultures The consequence is that theology remains an alien enterprise distant from the life of the local churches and distant from the hearts and minds of the indigenous people In facing the dilemma this book exposes the fundamental differences between primary oral cultures and primary literate cultures and identifies the key factors that lie at the heart of the theological problem By addressing each of these in turn the author then paves the way ahead He offers a methodology for theology that is rooted within the oral cultural context of the South Pacific and potentially in any context where oral cultures are the norm The consequences for theology and for theological education are profound *God's Gentlemen* David Hilliard, 2013-05-01 David Hilliard s *God s Gentlemen* originally published in 1978 remains the only detached and detailed historical analysis of the work of the Melanesian Mission Starting with its New Zealand beginnings and its Norfolk Island years 1867 1920 the work follows the Mission s shift of headquarters to the Solomon Islands and on until the beginning of the Second World War The Mission which grew out of the personal vision of the first Church of England Bishop of New Zealand George Selwyn formally defined its field of work as the Islands of Melanesia although its activities were confined almost entirely to the island groups that now make up Vanuatu and the Solomon Islands The Diocese of Melanesia was a fully constituent diocese of the Anglican Church of New Zealand from its formation in 1861 until the creation of the autonomous Church of the Province of Melanesia in 1975 Based on a wide range of sources *God s Gentleman* is the inner history of the slow growth of an important and genuinely Melanesian church Arts of Vanuatu Joël Bonnemaison, 1996-01-01 This prodigiously diverse and living culture has for its spiritual source a single traditional vision central to which is the fact that the world belongs not to the living but to the ancestors In Vanuatu art we have the

construction of canoes and of standing slit drums the inventiveness apparent in the masks and mats the aesthetics of dress the raising of tusker pigs the sharing out of sea turtle meat the symbol of the hawk representing the outward sign of the possession of the world through the eyes of the departed This art sacred in inspiration takes root in the magic of each place and shore Arts of Vanuatu is the first major contemporary anthropology work covering such a range of topics It is also the first work covering the traditional art of the former South Pacific island colony of the New Hebrides
