Foreign Correspondence John Maxwell Hamilton, Regina G. Lawrence, 2013-09-13 Despite the importance of foreign news its history transformation and indeed its future have not been much studied The scholarly community often calls attention to journalism's shortcomings covering the world yet the topic has not been systematically examined across countries or over time The need to redress this neglect and the desire to assess the impact of new media technologies on the future of journalism including foreign correspondence provide the motivation for this stimulating exciting and thought provoking book While the old economic models supporting news have crumbled in the wake of new media technologies these changes have the potential to bring new and improved ways to inform people of foreign news In an increasingly globalized era journalism is being transformed by the effortlessly quick sharing of information across national boundaries As such we need to reconsider foreign correspondence and explore where such reporting is headed This book discusses the current state and future prospects for foreign correspondence across the full range of media platforms and assesses developments in the reporting of overseas news for audiences governments and foreign policy in both contemporary and historical settings around the globe As Emmy Award and Pulitzer Prize winning correspondent Serge Schmemmann reminds us in this book quality journalism and unbiased reporting are as valid and necessary today as they ever were one of the primary tasks of journalists and scholars as they follow the changes taking place must be to ensure that the new international information order now imposed by the Internet remains true to the ideals and traditions that define our journalism This book was

Democratic Governance and European Integration

Ronald Holzhaacker, Erik Albæk, 2007-01-01 As the power and scope of the European Union moves further beyond traditional forms of international cooperation between sovereign states it is important to analyse how these developments are impacting upon national institutions and processes of democratic representation and legitimacy in the member countries The authors in this book identify four core processes of democratic governance present in any democratic political system that link societal and state processes of decision making opinion formation interest intermediation national executive decision making and national parliamentary scrutiny From a normative perspective they discuss what impacts this process of Europeanization has on democracy in the evolving system They conclude that more changes are seen within the state centric than in the societal centred processes of democracy thus the public seems to have been left behind in the process of constructing Europe The empirical research and normative discussion presented in this book are designed to further our knowledge concerning the Europeanization of social and state processes of democracy and to contribute to the continuing dialogue on democracy in the European Union This book will be of great interest to academics and researchers of political science public policy and international relations as well as those interested in European studies and comparative politics
