Pop Up Of North American Cities:

Experiencing Cinema Emma Pett, 2021-01-28 Film is often conceived as a medium that is watched rather than experienced. Existing studies of film audiences and of media reception more broadly have revealed the complexity of viewing practices and cultures surrounding cinema going and its exhibition spaces. *Experiencing Cinema* offers the first in-depth study of participant engagement with a range of experiential media forms derived from cinema culture. From single screenings to theatrical extravaganzas, a broad spectrum of alternative film-going practices and immersive spaces are explored and analysed in this original audience study. Moving from intimate community gatherings to blockbuster urban venues from isolated farmhouses to Olympic stadia, *Experiencing Cinema* considers the lure and value of these popular events. Often attracting a diverse intergenerational range of participants from early adopter urban hipsters to DIY rural communities, the growing demand for participatory cinema within the contemporary marketplace is analysed alongside broader debates circulating around the move away from traditional tiered seating and increased audience mobility and the de-centring of the film text.

Rock Concert Marc Myers, 2021-11-09 A fascinating intimate oral history of the golden age of the rock concert based on nearly 100 interviews with musicians, fans and others. Publishers Weekly: Decades after the rise of rock music in the 1950s, the rock concert retains its power as a unifying experience and as a multi-billion dollar industry. In *Rock Concert*, acclaimed music writer Marc Myers delves into the history of this cultural phenomenon, weaving together ground-breaking accounts from the people who were there. Myers combines the tales of icons like Joan Baez, Ian Anderson, Alice Cooper, Steve Miller, Roger Waters and Angus Young with the disc jockeys, audio engineers and music journalists and promoters who organized it all, like Michael Lang, co-founder of Woodstock, to create a rounded and vivid account of live rock's stratospheric rise. *Rock Concert* offers a backstage view of rock n' roll as it evolved through live performance from the rise of R & B in the 1950s to the hippie gatherings of the 60s and the growing arena tours of the 70s and 80s. Elvis Presley's gyrating hips, the British Invasion of the Beatles, the Grateful Dead's free-flowing jams and Pink Floyd's *The Wall* are just a few of the defining musical acts that drive this rich narrative.

Forthcoming Books Rose Arny, 2003 **Adaptable Cities and Temporary Urbanisms** Lauren Andres, 2025-02-04 Cities are typically thought of as permanent. Structures, streets, infrastructure and other features of the built environment, even if they are periodically replaced, are intended to endure. But temporary, flexible spaces and uses are essential to how cities function and the ways urban dwellers inhabit them. Such adaptability is moreover fundamental if cities are to meet the challenges of the future. This book examines temporary urbanisms across varied global contexts, considering their significance for cities and everyday life as well as for policy and practice. It brings together many distinct forms and facets of temporariness and adaptability, from sites of consumption by privileged residents to the survival strategies of marginalized groups, drawing on examples spanning five continents. The Transatlantic Zombie Sarah J. Lauro, 2015-07-15 Our most modern monster and perhaps our most American the zombie that is so prevalent in popular culture today has its roots in African soul capture mythologies The Transatlantic Zombie provides a more complete history of the zombie than has ever been told explaining how the myth's migration to the New World was facilitated by the transatlantic slave trade and reveals the real world import of storytelling reminding us of the power of myths and mythmaking and the high stakes of appropriation and homage Beginning with an account of a probable ancestor of the zombie found in the Kongolese and Angolan regions of seventeenth century Africa and ending with a description of the way in contemporary culture new media are used to facilitate zombie themed events Sarah Juliet Lauro plots the zombie's cultural significance through Caribbean literature Haitian folklore and American literature film and the visual arts The zombie entered US consciousness through the American occupation of Haiti the site of an eighteenth century slave rebellion that became a war for independence thus making the figuration of living death inseparable from its resonances with both slavery and rebellion Lauro bridges African mythology and US mainstream culture by articulating the ethical complications of the zombie as a cultural conquest that was rebranded for the American cinema As The Transatlantic Zombie shows the zombie is not merely a bogeyman representing the ills of modern society but a battleground over which a cultural war has been fought between the imperial urge to absorb exotic threatening elements and the originary Afro diasporic culture's preservation through a strategy of mythic combat
