Ana Patricia Rodríguez,2009-08-17 In 1899 the United Fruit Company UFCO was officially incorporated in Boston Massachusetts beginning an era of economic diplomatic and military interventions in Central America This event marked the inception of the struggle for economic political and cultural autonomy in Central America as well as an era of homegrown inequities injustices and impunities to which Central Americans have responded in creative and critical ways This juncture also set the conditions for the creation of the Transisthmus a material cultural and symbolic site of vast intersections of people products and narratives Taking 1899 as her point of departure Ana Patricia Rodríguez offers a comprehensive comparative and meticulously researched book covering more than one hundred years between 1899 and 2007 of modern cultural and literary production and modern empire building in Central America She examines the grand narratives of anti imperialism revolution subalternity globalization impunity transnational migration and diaspora as well as other discursive historical and material configurations of the region beyond its geophysical and political confines Focusing in particular on how the material productions and symbolic tropes of cacao coffee indigo bananas canals waste and transmigrant labor have shaped the transisthmian cultural and literary imaginaries Rodríguez develops new methodological approaches for studying cultural production in Central America and its diasporas Monumental in scope and relentlessly impassioned this work offers new critical readings of Central American narratives and contributes to the growing field of Central American studies

Everyday Revolutionaries Irina Carlota Silber,2011 Silber provides one of the first rubrics for understanding and contextualizing postwar disillusionment drawing on her ethnographic fieldwork and research on immigration to the United States by former insurgents With an eye for gendered experiences she unmasks how community members are asked contradictorily and in different contexts to relinquish their identities as revolutionaries and to develop a new sense of themselves as productive yet marginal postwar citizens via the same participation that fueled their revolutionary action Book Jacket *Parcels* Mike Anastario,2019-05-03 In light of new proposals to control undocumented migrants in the United States *Parcels* prioritizes rural Salvadoran remembering in an effort to combat the collective amnesia that supports the logic of these historically myopic strategies Mike Anastario investigates the social memories of individuals from a town he refers to as El Norte o a rural municipality in El Salvador that was heavily impacted by the Salvadoran Civil War which in turn fueled a mass exodus to the United States By working with two viajeros travelers who exchanged encomiendas parcels containing food medicine documents photographs and letters between those in the U S and El Salvador Anastario tells the story behind parcels and illuminates their larger cultural and structural significance This narrative approach elucidates key arguments concerning the ways in which social memory permits and is shaped by structural violence particularly the U S actions and policies that have resulted in the emotional and physical distress of so many Salvadorans The book uses analyses of

testimonies statistics memories of migration the war and of course the many parcels sent over the border to create an innovative and necessary account of post Civil War El Salvador **Obra histórica** Joaquín Ramírez Cabañas,2004 *Seeds of the Kingdom* Anna L. Peterson,2005-11-17 In these skeptical and disillusioned times there are still groups of people scattered throughout the world who are trying to live out utopian dreams These communities challenge the inevitability and morality of dominant political and economic models By putting utopian religious ethics into practice they attest to the real possibility of social alternatives In *Seeds of the Kingdom* Anna L Peterson reflects on the experiences of two very different communities one inhabited by impoverished former refugees in the mountains of El Salvador and the other by Amish farmers in the Midwestern U S What makes these groups stand out among advocates of environmental protection political justice and sustainable development is their religious orientation They aim without apology to embody the reign of God on earth The Salvadoran community is grounded in Roman Catholic social thought while the Amish adhere to Anabaptist tradition Peterson offers a detailed portrait of these communities history social organization religious life environmental values and agricultural practices She discovers both practical and ideological commonalities in these two comparatively successful and sustainable communities including a strong collective identity deep attachment to local landscapes a desire to preserve non human as well as human lives and perhaps unexpectedly a utopian horizon that provides both goals and the hope of reaching them By examining the process by which people struggle to live according to a transcendent value system she sheds light on both the actual and the potential place of religion in public life Peterson argues that the Amish and Salvadoran communities geographically and culturally removed from the industrialized West have relevance for the political and environmental problems of the developed world These communities have succeeded in the face of significant internal and external challenges offering important practical and theoretical lessons on how to achieve ecological sustainability and social justice in the wider world Current Catalog National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 *Posthegemony* Jon Beasley-Murray,2010 A challenging new work of cultural and political theory rethinks the concept of hegemony **Beyond Displacement** Molly Todd,2010-12-22 During the civil war that wracked El Salvador from the mid 1970s to the early 1990s the Salvadoran military tried to stamp out dissidence and insurgency through an aggressive campaign of crop burning kidnapping rape killing torture and gruesome bodily mutilations Even as human rights violations drew world attention repression and war displaced more than a quarter of El Salvador s population both inside the country and beyond its borders *Beyond Displacement* examines how the peasant campesinos of war torn northern El Salvador responded to violence by taking to the hills Molly Todd demonstrates that their flight was not hasty and chaotic but was a deliberate strategy that grew out of a longer history of collective organization mobilization and self defense *Latin America Since the Left Turn* Tulia G. Falleti,Emilio A. Parrado,2018-01-03 *Latin America Since the Left Turn* frames the tensions and contradictions that currently characterize Latin American societies and politics in the early decades of the

Priest Under Fire Peter M. Sánchez, 2015-12-09 Through interviews with David Rodríguez and a good helping of critical historical context Sanchez illustrates the extent to which some religious leaders played pivotal roles in the popular movement of El Salvador's political crisis of the 1970s and 1980s

The Memorialization of Genocide Simone Gigliotti, 2017-10-02 Divided societies tormented pasts and unrepentant perpetrators Why are some countries more intent on vanquishing uncomfortable pasts than others How do public and often unsightly attempts at memorialisation both fail the victims and valorize their oppressors This book offers fresh and original perspectives on dictatorship fascism and victimization from the bloodiest decades in Europe's Australia's and Central America's colonial and modern history Chapters include analyses of Francoist memorials in Spain assessments of the El Mozote massacre in El Salvador the forgetting of frontier colonial violence in Tasmania Romania's treatment of its Roma populations in the midst of Holocaust memorialisation in Bucharest's urban development and whether or not the Holocaust continues to serve as an instructional model or impossible aspiration for cross cultural genocide memorialisation strategies In an era of ongoing political ethnic and religious conflict and unrepentant insurgent activity around the world this collection reminds readers that genocidal actions wherever and whenever they occurred must be held to account by more than rhetoric and concrete memory This book was originally published as a special issue of the Journal of Genocide Research

After Insurgency Ralph Sprenkels, 2018-04-30 El Salvador's 2009 presidential elections marked a historical feat Frente Farabundo Martí para la Liberación Nacional FMLN became the first former Latin American guerrilla movement to win the ballot after failing to take power by means of armed struggle In 2014 former comandante Salvador Sánchez Cerón became the country's second FMLN president After Insurgency focuses on the

development of El Salvador's FMLN from armed insurgency to a competitive political party. At the end of the war in 1992 the historical ties between insurgent veterans enabled the FMLN to reconvert into a relatively effective electoral machine. However, these same ties also fueled factional dispute and clientelism. Drawing on in-depth ethnographic fieldwork, Ralph Sprenkels examines El Salvador's revolutionary movement as a social field developing an innovative theoretical and methodological approach to the study of insurgent movements in general and their aftermath in particular while weaving in the personal stories of former revolutionaries with a larger historical study of the civil war and of the transformation process of wartime forces into postwar political contenders. This allows Sprenkels to shed new light on insurgency's persistent legacies both for those involved as well as for Salvadoran politics at large. In documenting the shift from armed struggle to electoral politics, the book adds to ongoing debates about contemporary Latin America politics, the pink tide, and post-neoliberal electoralism. It also charts new avenues in the study of insurgency and its aftermath.

El Salvador, el soldado y la guerrillera Óscar Martínez Peñate, 2008 **La ternura de los pueblos** Jesús Valencia, 2011 *After Stories* Irina Carlota Silber, 2022-08-23

This book builds upon Irina Carlota Lotti Silber's nearly 25 years of ethnographic research centered in Chalatenango, El Salvador, to follow the trajectories, geographic, temporal, storied, of several extended Salvadoran families. Traveling back and forth in time and across borders, Silber narrates the everyday unfolding of diasporic lives rich with acts of labor, love, and renewed calls for memory, truth, and accountability in El Salvador's long postwar. Through a retrospective and intimate ethnographic method that examines archives of memories and troubles the categories that have come to stand for El Salvador, such as alarming violent numbers, Silber considers the lives of young Salvadorans who were brought up in an everyday radical politics and then migrated to the United States after more than a decade of peace and democracy. She reflects on this generation of migrants, the 1.5 insurgent generation, born to forgotten former rank and file militants as well as their intergenerational transnational families, to unpack the assumptions and typical ways of knowing in postwar ethnography. As the 1.5 generation sustains their radical political project across borders, circulates the products of their migrant labor through remittances, and engages in collective social care for the debilitated bodies of their loved ones, they transform and depart from expectations of the wounded postwar that offer us hope for the making of more just global futures.
