with a new preface and epilogue by the author emphasize the event's relevance today The Port Chicago Disaster Charles River Charles River Editors, 2018-02-21 Includes pictures Includes accounts about the incident written by witnesses and survivors Includes online references and a bibliography for further reading Includes a table of contents The fact that these men were wearing the uniform of the United States Navy made no difference Steve Sheinkin The Port Chicago 50 Disaster Mutiny and the Fight for Civil Rights In World War II hundreds of thousands of American soldiers were killed across the world whether in Japanese jungles North African deserts or European beaches Given that backdrop and the sheer magnitude of the war people understandably became desensitized to incidents and tragedies that cost hundreds of lives This was undoubtedly the case with the notorious Port Chicago disaster a munitions explosion in July 1944 that killed over 300 people and injured over 300 more many of them Navy sailors Since the explosion took place just a little over a month after D Day not to mention the fact that a majority of the casualties were African American little attention was paid to the tragedy Among those who did some believed the men had not been trained well enough while others said that they were being pushed by their officers to race each other in work that should have been done slowly and carefully The only thing everyone could agree on was that something went very wrong If anything the episode not only underscored the Navy's segregation policies but also demonstrated just how pervasive racism was at the time The disaster was so deadly that 15% of all African American Naval casualties in the war occurred on and around the dock in California that day and while many appreciated the work the soldiers did others denigrated their efforts In fact one shocking report contained the following slanderous remarks These enlisted personnel were unreliable emotional lacked capacity to understand or remember orders or instructions were particularly susceptible to mass psychology and moods lacked mechanical aptitude were suspicious of strange officers disliked receiving orders of any kind particularly from white officers or petty officers and were inclined to look for and make an issue of discrimination Because of the level of intelligence and education of the enlisted personnel it was impracticable to train them by any method other than by actual demonstration Many of the men were incapable of reading and understanding the most simple directions The officers at Port Chicago have realized for a long time the necessity for great effort on their part because of the poor quality of the personnel with which they had to work They worked loyally conscientiously intelligently and effectively to make themselves competent officers and to solve the problem of loading ships safely with the men provided In reality it was not the mental incapacity of the sailors but the unsafe conditions they were exposed to that ultimately caused the disaster In the wake of the accident black sailors and civilians alike demanded change to the extent that some around Port Chicago subsequently refused to load munitions on ships While the Port Chicago Mutiny led to some arrests the simmering tensions helped spur overall policy changes and eventually the U S Navy began to desegregate its forces in early 1946 The Port Chicago Disaster The History of America's Deadliest Homeland Incident during World War II chronicles the story of the disaster and its aftermath Along with pictures of important people places and events you will learn
