Douglas Kenyon,2008-02-11 Reveals the cutting edge of New Science and shows how established science disallows inquiry that challenges the status quo even when it produces verifiable results Contains 43 essays by 19 researchers denoting cutting edge heretical or suppressed scientific research including Immanuel Velikovsky Nikola Tesla Rupert Sheldrake and Masaru Emoto Edited by Atlantis Rising publisher J Douglas Kenyon Following the model of his bestselling Forbidden History and Forbidden Religion J Douglas Kenyon has assembled from his bimonthly journal Atlantis Rising material that explores science and technology that has been suppressed by the orthodox scientific community from the true function of the Great Pyramid and the megaliths at Nabta Playa to Immanuel Velikovsky s astronomical insights free energy from space cold fusion and Rupert Sheldrake s research into telepathy and ESP There is an organized war going on in science between materialistic theory and anything that could be termed spiritual or metaphysical For example Masaru Emoto s research into the energetics of water although supported by photographic evidence has been scoffed at by mainstream science because he has asserted that humans affect their surroundings with their thoughts The materialism or absolute skepticism of the scientific establishment is detrimental to any scientific inquiry that thinks outside the box This

mentality is interested in preserving funding for its own projects those that will not rock the establishment From Tesla s discovery of alternating current to Robert Schoch s re dating of the Sphinx this book serves as a compelling introduction to the true history of alternative and New Science research

Assassins Boris Volodarsky,2020-02-19 A look at the events surrounding the 2006 poisoning of a former Russian security officer in Great Britain In November 1998 Alexander Litvinenko a former lieutenant colonel of the Russian security service or FSB along with several former colleagues publicly stated that their superiors had instigated an assassination attempt on a Russian tycoon and oligarch Following his subsequent arrest and failed trials Litvinenko fled to London where having been granted asylum he worked as a journalist and writer as well as acting as a consultant for the British intelligence services Eight years later Litvinenko s past caught up with him when he was assassinated in London On November 1 2006 Litvinenko was suddenly taken ill and hospitalized He passed away twenty two days later Significant amounts of a rare highly toxic element were subsequently found in his body Before his death Litvinenko had said You may succeed in silencing one man but the howl of protest from around the world Mr Putin will reverberate in your ears for the rest of your life Author Boris Volodarsky who was consulted by the Metropolitan Police during the investigation and remains in close contact with Litvinenko s widow details the events surrounding Litvinenko s murder Volodarsky updates the story referring to the findings of the official British inquiry on the release of which Prime Minister David Cameron condemned Putin for presiding over state sponsored murder The author proves that the Litvinenko s poisoning is just one of many Some of these assassinations or attempted assassinations are already known others are revealed by him for the first time

Hitler's and Stalin's Misuse of Science S. D. Tucker,2023-12-30 S D Tucker delves into the Nazi and Soviet historical hijacking of science by extreme ideologies revealing the dangerous

consequences of pseudoscientific narratives in today's world. In today's world, science itself, which we are constantly being told is a neutral vehicle for wholly objective ideas and theories, is increasingly being hijacked and abused by the toxic modern cult of identity politics of both left and right. But should we be too surprised by any of this? No, because this exact same sorry process has happened time and again before under the rule of totalitarian political cults like the Nazis and the Soviets, both of which vigorously promoted various pseudoscientific theories of Aryan Science and Marxist Science on the sole grounds that they were ideologically correct as opposed to being factually so. Nazi racial pseudoscience and belief in nonsense like the World Ice Theory, which claimed that stars did not really exist and were actually just reflections of the sun off giant floating space icebergs, were widely encouraged in the Third Reich and used for long-term military weather forecasting purposes. Likewise, the ideas of the renegade biologist Trofim Lysenko, who developed a deluded anti-capitalist theory of genetics opposed to Darwin's, were responsible for widespread famine in the USSR when Stalin allowed him to apply them practically towards the nation's crop harvests. Those academics and functionaries who disputed these clearly false pseudoscientific notions often found themselves in deep trouble or ultimately dead. In this incisive and challenging study, author S. D. Tucker explores the often weird and fanciful theories that were proposed and took hold under these extreme regimes and, in doing so, sends a word of warning to the modern world of the internet and social media, where similar bizarre ideas are expounded and consumed with frightening gullibility. Everywhere from Western universities, schools, and hospitals to Vladimir Putin's Russia, absurd stories of sexist glaciers, racist gravity, socialist trees, and NATO-backed mutant extra-terrestrial potatoes are being promoted as items of politically mandated scientific fact by compliant collaborators and credulous social media followers. Pseudoscientific narratives are even now used to justify the 2022 invasion of Ukraine, much as they were once used to justify the Nazi conquest of Europe or the spread of Communist revolution across the globe.

Immortal Longings Trevor Hamilton, 2015-12-01. *Immortal Longings* by F. W. H. Myers and the Victorian search for life after death is the first full-length biography of Frederic W. H. Myers, leading figure in the Society for Psychical Research and friend and associate of Browning, Gladstone, Ruskin, Tennyson, Swinburne, Henry James, Prince Leopold, and other influential Victorians. The book offers a fascinating insight into a key period in the development of Victorian thought. Among many things, it covers:

1. Extraordinary Phenomena: Myers investigated extraordinary phenomena, much of which is still reported today, out of body experiences and astral projection, near-death experiences, poltergeists, gurus like Madame Blavatsky claiming strange powers, mediums (both private and public), and haunted houses. For example, the giant warrior haunting a chateau near Heidelberg, the Cheltenham Ghost that was seen by a considerable number of people, and the odd doings at Ballechin House in Scotland, which caused a scandal in the press.
2. Life After Death Investigations: Myers believed he had virtually proved life after death by the link he thought established between hundreds of apparitions and living or dead human beings by the messages that the outstanding mediums Mrs. Piper and Mrs. Thompson gave him from his first great love, Annie, and his intimate friend and co-worker.

Edmund Gurney which contained information the medium could not know and was delivered in a way highly characteristic of the personality concerned 3 Automatic Writing Some researchers have claimed that he has returned after death and proved his continued existence through the automatic writings of a number of mediums in England America India These writings continued for thirty years 4 Romance Suicide There is also love tragedy and jealousy in Myers life His first great love Annie a married woman committed suicide and Myers wife a rather possessive person tried to prevent any detail about this being made public after his death even though the relationship was platonic This inhibited the work of researchers who were trying to verify the post mortem communications from Myers since for many years they could not check the facts 5 Credibility Myers researches led him to forming a view about human personality and psychology which Aldous Huxley has said is much richer than Freud s

Ghost Hunting Michael Clarkson, 2015-07-15 Poltergeists mischievous spirits ghosts of the dead or other strange energies are said to be responsible for a good deal of unexplainable phenomena However often the only clues they leave to their existence are floating objects broken or missing household items strange noises and other minor disturbances always rendering the investigations of such claims inconclusive Leaving room for both believers and skeptics the author of this volume examines a smattering of reported poltergeist activity from spooky to thrilling to playful from around the world to better understand the nature of poltergeists and the likelihood of these seemingly paranormal occurrences

New Revolutions for a Small Planet Kingsley Dennis, 2012-01-01 According to sociologist Kingsley L Dennis our current economic woes are part of a larger shift in the way our global systems function In his recent book New Revolutions for a Small Planet Watkins November 2012 Dennis provides a strong dose of hope for young adults everywhere especially those hit hardest by the current economic crisis According to Dennis we are witnessing the last throes of the industrial revolution model and mindset The signs are all around us he says pointing to the rise of decentralized communications the growth of NGOs and volunteerism and rising social unrest against dysfunctional political systems These are all harbingers of the next phase of our socio cultural evolution New Revolutions looks at what young people can expect in the years ahead The birth of the empathic mind which is heralded by greater global interconnections networked communication and a participatory culture A burgeoning sense of a dynamic enchanting cosmos and the increased urge to find personal meaning and fulfillment in life Greater awareness of how new innovations will lead to creative new ways of thinking that will solve the world s current problems New systems and models that will emerge to eventually make the old models obsolete In his conclusion Dennis writes that Revolutions in communications and energy technology go together with our shifting forms of consciousness and that life upon this planet is about to undergo a period of transition that will test our capacity to re adapt and re emerge on an unprecedented scale
