correctly carried out the tea leaves whether many or few will be found distributed about the bottom and sides of the cup The fortune may be equally well told whether there are many leaves or few but of course there must be some and therefore the tea should not have been made in a pot provided with one of the patent arrangements that stop the leaves from issuing from the spout when the beverage is poured into the cups There is nothing to beat one of the plain old fashioned earthenware teapots whether for the purpose of preparing a palatable beverage or for that of providing the means of telling a fortune
