transcend the slow breakdown of our current global political order by returning to its generative cultural roots in enlightenment that is both secular and spiritual enlightenment It sees our emerging global culture as dialectical on interconnected levels the tension between scientific yang analysis and non rational yin hopes and dreams the source of this tension in the bicameral human brain in competing rural and urban ethical values and in the master servant relationship Behind the screen history of chaotic political violence it revives a vision of cultural progress in which the vertical imposition of political order from above is slowly supplanted by the emerging post secular tolerance of cultural diversity including both religion and science from below *Bookwise* Sharon Parsons,2001 Including both fiction and non fiction text types and genres this work is graded and organised into five cross curricular strands These full colour readers are accompanied by teacher s guides and resource sheets featuring appropriately linked ideas and suggestions for Guided Writing activities
