Milinovich, 2012-06-28 Is Second Corinthians one of Paul's most personal and passionate letters better understood as a text or a performance Using an audience oriented method Timothy Milinovich examines the letter as orally performed correspondence from the view of the authorial i.e. intended or ideal audience What results is an original structural analysis of 2 Corinthians 1:1-6:2 denoting twenty chiasmic units and three larger macrochiasmic arguments This arrangement is intended to show what the authorial audience heard offering a new way of understanding how Paul's letter would have been received not based on modern thematically determined paragraphs but on oral patterns consonant with the cultural context of the author and audience Milinovich offers insight on the audience response to the climactic exhortation to reconciliation with the apostle in 5:16-6:2 He determines that the structure of the unit is the key to its theological and rhetorical message which is just as much concerned with the community's relationship with Paul as with God That is if they are to fully receive the

salvation that God intends for them the community must be reconciled with their apostle now at the hearing of this letter

A Thematic Access-Oriented Bibliography of Jesus's Resurrection Michael J. Alter, 2019-12-31 The keystone of Christianity is Jesus's physical bodily resurrection. Present-day scholars can be significantly challenged as they forage through voluminous documents on the resurrection of Jesus. The literature measures well over seven thousand sources in English language books alone. This makes finding specific sources that are most relevant for specific scholarly purposes an arduous task. Even when a specific book is relevant, finding the parts of the book that are most relevant to the resurrection rather than other topics often requires additional effort. *A Thematic Access-Oriented Bibliography of Jesus's Resurrection* addresses these challenges in several ways. First, the bibliography organizes more than seven thousand English sources into twelve main categories and then thirty-four subcategories which are designed to help you find the most relevant literature quickly and efficiently. Embedded are pro and con arguments which support efficient access through brief annotations and then annotate the diversity and complexity of the field of religion by including sources that represent a diverse range of views: theistic e.g. Christian, Jewish, Muslim, etc., agnostic and nontheistic. The objective of this bibliography is to provide convenient access to relevant sources from a variety of perspectives, allowing you to browse or find the one source accurately and with ease. 2

Corinthians: An Introduction and Study Guide Jay Twomey, 2017-01-12 This guide considers the historical contexts, the literary forms, the social and rhetorical backgrounds, the politics, the theologies, and the reception of 2 Corinthians. Each chapter surveys recent scholarly approaches to the text, focussing especially on critical perspectives that mesh with our contemporary concerns about gender, identity, race, and class. 2 Corinthians becomes in the process less the work of a single 1st-century writer than a set of fraught, even fractured, negotiations between competing interests and impulses conducted in Paul's voice. The last chapter brings the letter into conversation with Nathaniel Hawthorne's short story *The Minister's Black Veil* in order to shift the terms of the critical discussion from what Paul meant to how Paul means in later cultural moments. Twomey introduces students to the way 2 Corinthians offers a fascinating but fragmentary glimpse into Paul's continuing ties with the Corinthian community. At the same time, Twomey shows how the letter is the site of many new critical challenges to traditional readings of Paul and early Christianity. In contrast to 1 Corinthians, this 2 Corinthians largely eschews the debates and discussions, the interests and concerns of Paul's correspondents. Instead, we find Paul engaged in a multi-pronged defence of his ministry in and beyond Corinth. Over the course of thirteen chapters, he runs the gamut of the emotions rhetorically, from tears to joy to biting anger, while struggling to keep his relationship with some, say, his control over the community intact.

Worship, Music, and Interpretation Wendy J. Porter, 2024-09-30 This unique volume brings together wide ranging research that could only be written by someone singularly expert in the full range of Christian worship and music from ancient to modern These essays by Wendy Porter span eras and areas of study from the New Testament to the present and encompass an expansive view of worship music and liturgy Some focus on what is known or not about early Christian worship including the early creeds and hymns in the New Testament and whether music originated in Jewish or Greco Roman contexts Some introduce firsthand work on ancient liturgical manuscripts such as a sixth century manuscript by hymnwriter and preacher Romanos Melodus or a tenth century ekphonic liturgical manuscript Extending her research on sixteenth century English composers as musical interpreters Porter includes several papers on how musicians have functioned as theological interpreters in worship and music One chapter engages theological comparisons between well known compositions by Bach Beethoven and Stravinsky another creatively explores what contemporary worship leaders can learn from sixteenth century songwriter and worship leader William Byrd while others invite thoughtful reflection on what we can all learn if we stop to consider how Christians have functioned and fared in their worship through the centuries

The Paul-Apollos Relationship and Paul's Stance toward Greco-Roman Rhetoric Corin Mihaila, 2009-06-25 Research into the social and rhetorical background of the Corinthian church shows that the Corinthians were evaluating their leaders based on their rhetorical prowess seeking to associate with those who would enhance their status and honour The coherence of Paul's argument in 1 Corinthians 14 is evaluated particularly by showing how Paul's discourse of the cross and Sophia relate to the issue of the dissensions in the Corinthian ekklesia Once demonstrated that there is a misunderstanding of wisdom amongst church leaders at the basis of the dissensions a redefinition of the wisdom offered in Corinthians is required In what could be considered the locus of Paul's theology of proclamation in 1 Corinthians 2:1-5 he rejects any employment of worldly wisdom in his proclamation of the cross for theological reasons and will not allow himself or other leaders to be drawn into this game of personality cult and honour enhancement Such conclusions then raise the question of the role played by Apollos' name in Paul's argument against dissensions After a review of several possible views it is concluded based primarily on exegetical grounds and refusing to engage in hermeneutical speculations that Paul had a congenial relationship with Apollos If any distinction is drawn between the two it was solely the Corinthians' fault who viewed their preachers in competitive rather than complementary terms
