Educational Tales of the Unexpected: Children and Creativity Doireann O'Connor, 2019-07-22 This volume was first published by Inter Disciplinary Press in 2014

Research practice and scholarship combine in this book to deliver stories of creative engagements with children. This is achieved through a showcasing of interdisciplinary examples of the variety of forms occupied by the multiplicitious and fascinating sphere of human creativity. The creativity of children and of the adults in their lives is recorded through the lens of engagement. Engagement with the self with the other and with learning development and humanity are all revealed as central to creativity. Five key themes emerge as contemporarily relevant. These are the creative learning environment, the importance of the early years, the role of the arts, the multiple applications of technology and exciting new directions within creative engagement from a global perspective. This is a book which will provide inspiration and refreshment for all who strive to achieve creative engagement with children and young people. Writing Strategies for the Common Core Hillary Wolfe, 2015. With a balanced literacy approach, Wolfe provides core instruction, teaching strategies and mini lessons on these text types, each of which can be delivered across content areas or as a complete unit of instruction. Mini lessons are provided for grades 3-5 and include materials, lists, overviews, planning tips, procedures including modeling, guided practice and independent practice opportunities, reading connections, formative assessments and reproducible graphic organizers for scaffolding. Prerequisite skill overviews and rubrics, both analytic for formative assessments and holistic for summative assessments, are also provided for each unit to simplify your teaching and ensure student success. **Teaching Children to Write** Daniel R.
