Our memories are our most reliable sources of information about ourselves our friends and lovers our jobs Or are they We know we may occasionally forget someone s birthday miss appointments or lose track of details But what about the times we re sure we remember something only to find out it didn t happen that way Memory is a look at man s oldest nemesis Psychologist Elizabeth Loftus tells us not only about the workings of the memory but also why memory is a faulty faculty an often unreliable source for the truth She offers insightful analysis into the many dimensions of memory and discusses the ramifications of these findings in a variety of contexts and offers specific hints on fighting forgetting *Catalog of Copyright Entries. Eyewitness Testimony Elizabeth F. Loftus, 1996 Every year hundreds of defendants are convicted on little more than the say so of a fellow citizen Although psychologists have suspected for decades that an eyewitness can be highly unreliable new evidence leaves no doubt that juries vastly overestimate the credibility of eyewitness accounts It is a problem that the courts have yet to solve or face squarely In *Eyewitness Testimony* Elizabeth Loftus makes the psychological case against the eyewitness Beginning with the basics of eyewitness fallibility such as poor viewing conditions brief exposure and stress Loftus moves to more subtle factors such as expectations biases and personal stereotypes all of which can intervene to create erroneous reports Loftus also shows that eyewitness memory is chronically inaccurate in surprising ways An ingenious series

of experiments reveals that memory can be radically altered by the way an eyewitness is questioned after the fact New memories can be implanted and old ones unconsciously altered under interrogation These results have important implications for court reform police interrogation methods defense strategy and many other aspects of criminal and civil procedure Eyewitness Testimony is a powerful book that should be required reading for trial lawyers social psychologists and anyone who considers the chilling prospect of confronting an eyewitness accusation in a court of law *UCSF General Catalog* University of California, San Francisco, 1976 We Survived Eric H. Boehm, 2009-04-29 Thousands of Jews and Aryan Germans opposed to Hitler led illegal lives under the Nazi terror and survived the relentless hunt of the Gestapo the concentration camps and the bombing They survived in various ways some as ordinary citizens taking part in the work day life others with fake passports hidden in cellars living precariously in all the dark corners of a vigilantly policed country In fourteen autobiographical accounts author Eric Boehm offers a cross section of these heroic personalities We Survived is itself an historical document giving a window back into this epoch period during World War II Now reappearing in print over fifty years after its original publication We Survived remains as relevant and necessary as ever before an honest testimony to the strength of the human spirit when it triumphs over adversity **The Psychological Foundations of Education** Olga K. Baatz, Charles Albert Baatz, 1981 **Annual Editions: Readings in Education, 78/79**, 1978
