Real Experiences 1:

Real Fourdimensionalism Ludwig Jaskolla, 2017-10-19 This book explores persistence taking human beings as an example case. It investigates how concrete particulars stay the same during their temporal carriers while changing significantly. Themes of relativity, structural realism, 4 dimensional ontologies and different strains of panpsychism are amongst those addressed in this work. Beginning with an exploration of the puzzle of persistence, early chapters look at philosophers' perspectives and models of persistence. Competitors in the debate are introduced from classical 3 dimensionalism to two flavors of 4 dimensionalism, namely worm theory and stage theory. The second part of the book explores the various challenges to 4 dimensionalism and develops a positive taxonomy of those questions that the reasonable proponent of 4 dimensionism needs to answer. In the third part of the book, readers may explore an ontology at the interface of analytic metaphysics and philosophy of mind called Real Fourdimensionalism or more specifically Physicalistic Stage Panexperientialism (PSP). This is a version of panexperiential stage theory and its alleged model of persistence as deciding answers the questions of the taxonomy. This book makes a substantial contribution to debates concerning the status, extent and viability of both stage theoretic models of persistence as well as non reductive naturalistic models of persistence. It will be of interest to graduates and scholars involved in analytic metaphysics as well as the philosophy of mind, especially those specializing in questions of persistence and the ontology of the mind.

Dreams, Illusion, and Other Realities Wendy Doniger O'Flaherty, 2015-05-14 Wendy Doniger O'Flaherty weaves a brilliant analysis of the complex role of dreams and dreaming in Indian religion philosophy literature and art In her creative hands enchanting Indian myths and stories illuminate and are illuminated by authors as different as Aeschylus Plato Freud Jung Kurl G del Thomas Kuhn Borges Picasso Sir Ernst Gombrich and many others This richly suggestive book challenges many of our fundamental assumptions about ourselves and our world Mark C Taylor New York Times Book Review Dazzling analysis The book is firm and convincing once you appreciate its central point which is that in traditional Hindu thought the dream isn't an accident or byway of experience but rather the locus of epistemology In its willful confusion of categories its teasing readiness to blur the line between the imagined and the real the dream actually embodies the whole problem of knowledge O'Flaherty wants to make your mental flesh creep and she succeeds Mark Caldwell Village Voice

Experience, Narrative, and Criticism in Ancient Greece Jonas Grethlein, Luuk Huitink, Aldo Tagliabue, 2019-12-09 Experience Narrative and Criticism in Ancient Greece pursues a new approach to ancient Greek narrative beyond the taxonomies of structuralist narratologies Focusing on the phenomenal and experiential dimension of our response to narrative it triangulates ancient narrative with ancient criticism and cognitive approaches opening up new vistas within the study of classical literature while ably deploying the ancient material to demonstrate the value of a historical perspective for cognitive studies Concepts such as immersion and embodiment help to establish a more comprehensive understanding of ancient narrative and ancient reading habits as manifested in Greek criticism and rhetorical theory The thirteen chapters presented here tackle a broad range of narrative genres broadly understood besides epic historiography and the novel tragedy and early Christian texts are also considered alongside non literary media such as dance and sculpture Authored by international specialists in the language literature and culture of

ancient Greece each chapter utilizes a rich set of theoretical and methodological tools drawn from cognitive studies phenomenology and linguistics that place them at the vanguard of a strong new current in classical scholarship and literary criticism more generally

Christopraxis Andrew Root,2014 Finding practical theology not always able to present frameworks for understanding concrete and lived experience with divine action Andrew Root s Christopraxis seeks to reset the edifice of practical theology on a new foundation While not minimizing its commitment to the lived and concrete Root argues that practical theology has neglected deeper theological underpinnings Root seeks to create a practical theology that is properly and fully theological post postmodern post Aristotelian and that attends to doctrines such as divine action and justification

Becoming Aware of Aliens by learning to recognize them - Vol. 1 Angel Jeanne,2016-07-19

The real question is not whether Aliens exist or not They exist Rather we should ask ourselves how they are manipulating us and what we can do in order to defend ourselves These are the thoughts of a writer who has shared her personal experiences in three profound and intense books Each volume is supplemented with illustrations and profiles of the most important alien races and in particular with pictures of real Alien Chips which the author has extracted from her own body It s a book that will blow you away and one that will make you recognize a truth mirrored in your own experience that which you never dared tell anyone In this trilogy the author shares her terrifying experience but also the experiences that filled her with joy It s the beginning of an evolution a howl of rebellion against alien abductions and manipulations a roar in the face of all those who allow this to happen
