Real Magic:

Real Magic Dean Radin, PhD, 2018-04-10 The chief scientist at the Institute of Noetic Sciences IONS turns a critical eye toward such practices as telepathy clairvoyance precognition and psychokinesis Are such powers really possible Science says yes According to noted scientist and bestselling author of *The Conscious Universe* Dean Radin magic is a natural aspect of reality and each of us can tap into this power with diligent practice But wait aren't things like ESP and telepathy just wishful thinking and flights of the imagination Not according to the author who worked on the US government's top secret psychic espionage program known as Stargate Radin has spent the last forty years conducting controlled experiments that demonstrate that thoughts are things that we can sense others emotions and intentions from a distance that intuition is more powerful than we thought and that we can tap into the power of intention think *The Secret* only on a more realistic and scientific level These dormant powers can help us to lead more interesting and fulfilling lives Beginning with a brief history of magic over the centuries what was called magic two thousand years ago is turning out to be scientific fact today a review of the scientific evidence for magic a series of simple but effective magical techniques the key is mental focus something elite athletes know a lot about Radin then offers a vision of a scientifically informed magic and explains why magic will play a key role in frontiers of science

Staniforth, 2018-01-16 An extraordinary memoir about finding wonder in everyday life from magician Nate Staniforth Nate Staniforth has spent most of his life and all of his professional career trying to understand wonder what it is where to find it and how to share it with others He became a magician because he learned at a young age that magic tricks don't have to be frivolous Magic doesn't have to be about sequins and smoke machines rather it can create a moment of genuine astonishment But after years on the road as a professional magician crisscrossing the country and performing four or five nights a week every week Nate was disillusioned burned out and ready to quit Instead he went to India in search of magic *Here Is Real Magic* follows Nate Staniforth's evolution from an obsessed young magician to a broken wanderer and back again It tells the story of his rediscovery of astonishment and the importance of wonder in everyday life during his trip to the slums of India where he infiltrated a three thousand year old clan of street magicians *Here Is Real Magic* is a call to all of us to welcome awe back into our lives to marvel in the everyday and to seek magic all around us

Magic's Translations Margaret J. Wiener, 2025-04-04 Do you believe in magic This familiar question suggests magic is easily recognized but unreal In Magic's Translations Margaret J Wiener argues that such views are shaped by historical power struggles especially in Europe's relations with the wider world Focusing on nineteenth and twentieth century Dutch interactions with Indonesians Wiener reveals how colonial agents framed unfamiliar practices practitioners and objects as magic rendering distinct phenomena fundamentally alike and advancing colonizing projects that deemed magic antithetical to reason and reality While colonial authorities including ethnologists mobilized the concept of magic to differentiate Europeans from Indonesians nature from culture reason from superstition and fact from fetish their efforts produced unexpected outcomes Some Indonesian artifacts and acts not only

retained their power but invaded European experiences As anthropologists were among the key translators of magic throughout the world Wiener intersperses accounts of magic s translations in the Indies with reflections on anthropology s ongoing engagement with the concept She demonstrates that magic became an object of expert knowledge political control and popular fascination rather than a self evident category or relic of na ve belief **Playthings** ,1928 **Magic and Showmanship** Henning Nelms,2000 Highly instructive book by a noted authority on the subject analyzes every phase of conjuring from sleights devices misdirection and controlling audience attention to incorporating patter and the effective use of assistants Provides recommendations on the use of body language posture positioning and movement 60 original routines from simple card tricks to major illusions
