Pink Herrings Damien W. Riggs,2018-04-24 Pink Herrings engages in a re examination of six of Freud s cases via Lacan s account of sexuation Specifically the book outlines a theoretical framework in which sexuation is understood as a choice made in response to the fact of the sexual non relationship In making this choice unconscious fantasy allows for the circulation of object a which bear traces of jouissance Drawing upon Lacan s distinction between phallic and other jouissance Pink Herrings examines the four positions outlined in Lacan s formula of sexuation and maps these onto the six case studies In so doing Pink Herrings not only brings new life and insights to the cases but also clears a path to what is referred to as a clinic of sexuation Such a clinic would not replace existing Lacanian psychoanalytic practice with its focus on the structures of neurosis perversion and psychosis but instead provide additional avenues through which to explore the operations of fantasy

Mummies, Cannibals and Vampires

Richard Sugg,2015-11-06 Mummies Cannibals and Vampires charts in vivid detail the largely forgotten history of European corpse medicine which saw kings ladies gentlemen priests and scientists prescribe swallow or wear human blood flesh bone fat brains and skin in an attempt to heal themselves of epilepsy bruising wounds sores plague cancer gout and depression In this comprehensive and accessible text Richard Sugg shows that far from being a medieval therapy corpse medicine was at its height during the social and scientific revolutions of early modern Britain surviving well into the eighteenth century and amongst the poor lingering stubbornly on into the time of Queen Victoria Ranging from the execution scaffolds of Germany and Scandinavia through the courts and laboratories of Italy France and Britain to the battlefields of Holland and Ireland and on to the tribal man eating of the Americas Mummies Cannibals and Vampires argues that the real cannibals were in fact the Europeans Picking our way through the bloodstained shadows of this remarkable secret history we encounter medicine cut from bodies living and dead sacks of human fat harvested after a gun battle gloves made of human skin and the first mummy to appear on the London stage Lit by the uncanny glow of a lamp filled with human blood this second edition includes new material on exo cannibalism skull medicine the blood drinking of Scandinavian executions Victorian corpse stroking and the

magical powers of candles made from human fat In our quest to understand the strange paradox of routine Christian cannibalism we move from the Catholic vampirism of the Eucharist through the routine filth and discomfort of early modern bodies and in to the potent numinous source of corpse medicine s ultimate power the human soul itself Now accompanied by a companion website with supplementary articles interviews with the author related images summaries of key topics and a glossary the second edition of Mummies Cannibals and Vampires is an essential read for anyone interested in the history of medicine early modern history and the darker hidden past of European Christendom [DNA Evidence](#) Cecilia Jennings,2017-12-15 One of the greatest scientific breakthroughs ever for law enforcement agencies was the discovery of DNA analysis This relatively new science allows police to catch a criminal from evidence as small as a human hair Informative text gives readers a basic understanding of DNA and how forensic analysts can examine criminal evidence and create a genetic chain that leads to the perpetrator This complex topic is made easy to understand through engaging fact boxes and informative sidebars and the science is brought into sharp focus through eye catching photographs
