Roman Art Paul Zanker, 2012-01-10 Traditional studies of Roman art have sought to identify an indigenous style distinct from Greek art and in the process have neglected the large body of Roman work that creatively recycled Greek artworks Now available in paperback this fresh reassessment offers instead a cultural history of the functions of the visual arts the messages that these images carried and the values that they affirmed in late Republican Rome and the Empire The analysis begins at the point at which the characteristic features of Roman art started to emerge when the Romans were exposed to Hellenistic culture through their conquest of Greek lands in the third century B C As a result the values and social and political structure of Roman society changed as did the functions and character of the images

it generated This volume presented in very clear and accessible language offers new and fascinating insights into the evolution of the forms and meanings of Roman art Zanker one of the foremost ancient Roman art historians has produced an excellent general study of Roman art and its reception This book would be ideal for students at all levels interested in Roman art history and culture Choice **A Companion to Roman Art** Barbara E. Roman Art in the Private Sphere Elaine K. Gazda, Anne E. Haeckl, 1991 This is a stimulating book and should be compulsory reading for all students of Roman art Classical Review For all the authors attention to the ensemble a sense of the relation between the formal and the iconographic and the desire to historicize their material contribute to making this anthology unusual in its rigorous and creative attention to the way that art and architecture participate in the construction of the image of the Roman elite

Art Bulletin Roman Art in the Private Sphere presents an impressive case for the social and art historical importance of the paintings mosaics and sculptures that filled the private houses of the Roman elite The six essays in this volume range from the first century B C E to the fourth century C E and from the Italian peninsula to the Eastern Empire and North African provinces The essays treat works of art that belonged to every major Roman housing type the single family atrium houses and the insula apartment blocks in Italian cities the dramatically sited villas of the Campanian coast and countryside and the palatial mansions of late antique provincial aristocrats In a complementary fashion the essays consider domestic art in relation to questions of decorum status wealth social privilege and obligation Patrons emerge as actively interested in the character of their surroundings artists appear as responsive to the desire of their patrons The evidence in private art of homosexual conduct in high society is also set forth Originality of subject matter sophisticated appreciation of stylistic and compositional nuance and philosophical perceptions of the relationship of humanity and nature are among the themes that the essays explore Together they demonstrate that Roman domestic art must be viewed on its own terms

Roman Art Nancy H. Ramage, 2000 **The Language of Images in Roman Art** Tonio Hölscher, 2004-11-04 Tonio H Ischer develops a new theoretical concept for understanding the Roman art of images by establishing a connection between artistic forms and content and expressions of ideology such as the glorification of state and ruler war and triumph A large role is played here by the reception of earlier images from Greek art Roman art therefore appears to operate as a semantic system which from an interdisciplinary perspective can be compared with the forms of Roman literature as well as the language of images of other cultures **Roman Art** Michael Siebler, Norbert Wolf, 2007 Each book in this series features a detailed introduction with approximately 35 photographs a timeline of the most important events and a selection of the most important works of the epoch This volume looks at Roman art **Roman Art in Context** Eve D'Ambra, 1993 This collection of scholarly yet accessible articles focuses on themes encountered in the study of Roman art and architecture It covers the forms and meanings of imperial propaganda the role of art and architecture in conferring or enhancing status the commemoration of ruler and citizen in portraiture and funerary art the interpretation of mythological subjects and the significance of sculptural displays in architectural settings For Roman art historians and artists *Art in the Lives of Ordinary Romans* John R. ordinary Romans encounters with works of art both public monuments and private art they themselves produced or commissioned The author discusses an impressively wide range of material as he uses issues of patronage and archaeological context to reconstruct how workers women and slaves would have experienced works as diverse as the Ara Pacis of Augustus funerary decoration and tavern paintings at Pompeii Clarke s new perspective yields countless valuable insights about even the most familiar material Anthony Corbeill author of *Nature Embodied Gesture in Ancient Rome* How did ordinary Romans view official paintings glorifying emperors What did they intend to convey about themselves when they commissioned art And how did they use imagery in their own tombstones and houses These are among the questions John R Clarke answers in his fascinating new book *Charting a new approach to people s art* Clarke investigates individual images for their functional connections and contexts broadening our understanding of the images themselves and of the life and culture of ordinary Romans This original and vital book will appeal to everyone who is interested in the visual arts moreover specialists will find in it a wealth of stimulating ideas for further study Paul Zanker author of *The Mask of Socrates The Image of the Intellectual in Antiquity* **Art and the Romans** Stephen Bertman,1975 Roman Art Eve D'Ambra,1998 In this refreshing reappraisal of the art and architecture of ancient Rome Eve D Ambra focuses on the personal social and cultural identity of its subjects The acquisition of art whether the purchase of copies of Greek statuary the construction of a sumptuous villa or the commissioning of a portrait head played a crucial role in Roman society in which displays of wealth and culture were necessary to gain and maintain power The question of identity is key to understanding the nature of the Roman empire which seemed infinitely expandable at its peak welcomed foreigners to become Romans freed slaves to citizen status and allowed social mobility within a strictly hierarchical social order D Ambra discusses patronage on different social levels from that of the emperor and his court to those of shopkeepers and of artisans in diverse regions of the empire and in distinct ethnic groups She compares the imagery of the state and of military victory with the humblest funerary reliefs Many provincial artworks were based on imperial models but others were created in resistance to prevailing imperial standards D Ambra draws on a range of sculpture wall paintings decorative arts coins and architecture from Italy to the edges of the empire evoking the traditionalism and the adaptability of Roman art She also looks ahead to the art and architecture of the fourth century AD which despite the emergence of Christianity as the dominant religion continued to be influenced by Roman styles and themes Eve D Ambra is Associate Professor in the Department of Art at Vassar College Poughkeepsie New York She has taught and published widely in the field of Roman art and society
