Martyrdom and Persecution in the Early Church W. H. C. Frend, 2014-04-15 Although the story of the triumphant rise of Christianity has often been told it was a triumph achieved through blood and tribulation The literal meaning of the term martyr meant witness but among early Christians it quickly acquired a harsher meaning one who died for the faith and that witness through death was responsible for many conversions including those of Justin Martyr who himself offered just such witness and perhaps even Tertullian Persecution was seen by early Christians as by later historians as one of the crucial influences on the development of the early church and Christian belief Why did the Roman Empire persecute Christians Why did thousands of Christians not merely accept but welcome martyrdom In his classic work Martyrdom and Persecution in the Early Church the late W H C Frend explores the mindset of Christians who suffered persecution as well as the motivations of those who persecuted them He shows the critical importance of Jewish ideas to early Christians heavily influenced as they were by the story of Daniel and the revolt of the Maccabean He argues that the Christian concept of martyrdom held in such high regard among early Christians can only be understood as springing from Jewish roots Frend explores a number of major persecutions to show both common themes and variations and examines also the relationship between the heavenly kingdom of Christ and the rule of the earthly emperor In doing so he shows how persecution formed an essential part in a providential philosophy of history that has profoundly influenced European political thought

The Catacombs of Rome and Their Testimony Relative to Primitive Christianity William Henry Withrow, 2020-09-28 The present work it is hoped will supply a want long felt in the literature of the Catacombs That literature it is true is very voluminous but it is for the most part locked up in rare and costly folios in foreign languages and inaccessible to the general reader Recent discoveries have refuted some of the theories and corrected many of the statements of previous books in English on this subject and the present volume is the only one in which the latest results of exploration are fully given and interpreted from a Protestant point of view The writer has endeavored to illustrate the subject by frequent pagan sepulchral inscriptions and by citations from the writings of the Fathers which often throw much light on the condition of early Christian society The value of the work is greatly enhanced it is thought by the addition of many hundreds of early Christian inscriptions carefully translated a very large proportion of which have never before appeared in English Those only who have given some attention to epigraphical studies can conceive the difficulty of this part of the work The defacements of time and frequently the original imperfection of the inscriptions and the ignorance of their writers demand the utmost carefulness to avoid errors of interpretation The writer has been fortunate in being assisted by the veteran scholarship of the Rev Dr McCaul well known in both Europe and America as one of the highest living authorities in epigraphical science under whose critical revision most of the translations have passed

Through the enterprise of the publishers this work is more copiously illustrated from original and other sources than any other work on the subject in the language thus giving more correct and vivid impressions of the unfamiliar scenes and objects delineated than is possible by any mere verbal description References are given in the foot notes to the principal authorities quoted but specific acknowledgment should here be made of the author s indebtedness to the Cavaliere De Rossi s Roma Sotterranea and Inscriptiones Christian by far the most important works on this fascinating but difficult subject Believing that the testimony of the Catacombs exhibits more strikingly than any other evidence the immense contrast between primitive Christianity and modern Romanism the author thinks no apology necessary for the somewhat polemical character of portions of this book which illustrate that fact He trusts that it will be found a contribution of some value to the historical defense of the truth against the corruptions and innovations of Popish error
