Roman Colosseum:

The Roman Colosseum Don Nardo, 1998 Describes the planning and construction of the Colosseum in ancient Rome and traces its history through subsequent centuries [The Colosseum: A History](#) Robert B. Abrams, 2017-05-11 More than 1 500 years have passed since the last blood human or animal was spilled in the Colosseum but the massive building erected by the Flavian emperors has continued to play a role in history This book tells the dramatic story of the Colosseum from its bloody gladiatorial games and the sacrifice of early Christians to the dismantling of the arena and its final restoration The book also recounts the story of Rome as viewed from the vantage point of the empire s most impressive ruins **A Monument to**

Dynasty and Death Nathan T. Elkins, 2019-09-03 Go behind the scenes to discover why the Colosseum was the king of amphitheaters in the Roman world a paragon of Roman engineering prowess Early one morning in 80 CE the Colosseum roared to life with the deafening cheers of tens of thousands of spectators as the emperor Titus inaugurated the new amphitheater with one hundred days of bloody spectacles These games were much anticipated for the new amphitheater had been under construction for a decade Home to spectacles involving exotic beasts elaborate executions of criminals gladiatorial combats and even when flooded small scale naval battles the building itself was also a marvel Rising to a height of approximately 15 stories and occupying an area of 6 acres more than four times the size of a modern football field the Colosseum was the largest of all amphitheaters in the Roman Empire In *A Monument to Dynasty and Death* Nathan T Elkins tells the story of the Colosseum s construction under Vespasian its dedication under Titus and further enhancements added under Domitian The Colosseum Elkins argues was far more than a lavish entertainment venue it was an ideologically charged monument to the new dynasty its aspirations and its achievements *A Monument to Dynasty and Death* takes readers on a behind the scenes tour of the Colosseum from the subterranean tunnels where elevators and cages transported gladiators and animals to the blood soaked arena floor to the imperial viewing box to the amphitheater s decoration and amenities such as fountains and an awning to shade spectators Trained as an archaeologist an art historian and a historian of ancient Rome Elkins deploys an interdisciplinary approach that draws on contemporary historical texts inscriptions archaeology and visual evidence to convey the layered ideological messages communicated by the Colosseum This engaging book is an excellent resource for classes on Roman art architecture history civilization and sport and spectacle **20 Fun Facts about the**

Colosseum Drew Nelson, 2013-12-30 Discusses twenty interesting facts about the history of the Colosseum **The Complete Idiot's Guide to the Roman Empire** Eric Nelson, 2002 You re no idiot of course The battle scenes in *Gladiator* had you on the edge of your seat and wondering where you could find more information on the rise and fall of ancient Rome But so far your search has left you feeling like a blundering barbarian Pick yourself up off the coliseum floor Consult *The Complete Idiot's Guide to the Roman Empire* a fun to read introduction to the fascinating history people and culture of ancient Rome In this *Complete Idiot's Guide* you get The history of the Roman Empire s rise and fall An idiot proof

Amphitheatre Fame shall tell of one work instead of all Martial When the Colosseum was built in the late 1st century A D the
Romans a people known for their architectural acumen managed to amaze themselves Martial a Roman poet writing during
the inauguration of the Colosseum clearly believed the Colosseum was so grand a monument that it was even greater than
the other Wonders of the Ancient World which had been written about and visited endlessly by the Romans and Greeks in
antiquity Indeed although the Wonders were wondrous to behold the Colosseum was a spectacular achievement in
architecture something new and innovative and therefore an amazing Wonder in its own way The Colosseum was designed to
be both a symbol and show of strength by the famous Flavian emperors most notably Vespasian and his sons Titus and
Domitian Vespasian had started the construction of the Colosseum shortly after becoming emperor in 69 A D but he died
before he could present any spectacles in his giant amphitheatre That honor went to his son Titus who celebrated the
inaugural opening in 80 A D with 100 days of games despite the fact that the Colosseum was not completely finished When
his brother Domitian came to power in 81 A D he finished the amphitheatre but not without making some changes to the
overall design By the time it was truly finished the Colosseum stood about 150 feet tall with the oval in the center stretching
nearly two football fields long and over 500 feet across The Colosseum is a large stadium even by today s standards and its
great size conveys the power of the empire as it dominates the landscape and towers over nearby buildings Nearly 2 000
years later the Colosseum still amazes millions of people who come to visit it and when asked to visualize a monument that
represents the Roman Empire many conjure up an image of the large amphitheater As Keith Hopkins and Mary Beard put it
the Colosseum is the most famous and instantly recognizable monument to have survived from the classical world At the
same time the Colosseum also represents the Roman games and spectacles particularly the gladiatorial combats that so many
people today find both abhorrent yet fascinating Given its massive size and the architectural ingenuity involved the
Colosseum played host to all sorts of games including massive hunts of exotic animals and even sea battles *The Roman Colosseum The History of the World s Most Famous Arena* comprehensively covers the history and construction of Rome s
largest amphitheater Along with a bibliography and pictures you will learn about the Colosseum like you never have before in

weaponry and fighting style For example the retiarius was a gladiator that used a net dagger and trident as his offensive weapons while only wearing a protective guard over his left arm for protection The retiarius would typically fight against the secutor a gladiator armed with a sword large shield helmet and protective covering on his right arm and left leg Therefore a retiarius sacrificed armor for quickness in battle while the secutor did the opposite Although people often think of gladiators fighting to the death the outcome of gladiatorial combats was not always fatal for one of the participants If a gladiator fought well the sponsor of the show could spare him particularly if the crowd desired it The fact that the outcome of matches was never the same and the crowd could help determine the result of the match certainly added to the Roman public's pleasure making it a lot less surprising that such an abhorrent spectacle still fascinated the modern world
