Roman House--Renaissance Palaces Georgia Clarke,2003 Georgia Clarke examines the fifteenth century patrons fascination with ancient texts

The Renaissance Palace in Florence JamesR. Lindow,2017-07-05 This book provides a reassessment of the theory of magnificence in light of the related social virtue of splendour Author James Lindow highlights how magnificence when applied to private palaces extended beyond the exterior to include the interior as a series of splendid spaces where virtuous expenditure could and should be displayed Examining the fifteenth century Florentine palazzo from a new perspective Lindow s groundbreaking study considers these buildings comprehensively as complete entities from the exterior through to the interior This book highlights the ways in which classical theory and Renaissance practice intersected in quattrocento Florence Using unpublished inventories private documents and surviving domestic objects The Renaissance Palace in Florence offers a more nuanced understanding of the early modern urban palace

Architectural Invention in Renaissance Rome Yvonne Elet,2018-01-11 Villa Madama Raphael s late masterwork of architecture landscape and decoration for the Medici popes is a paradigm of the Renaissance villa The creation of this important unfinished complex provides a remarkable case study for the nature of architectural invention Drawing on little known poetry describing the villa while it was on the drawing board as well as ground plans letters and antiquities once installed there Yvonne Elet reveals the design process to have been a dynamic collaborative effort involving humanists as well as architects She explores design as a self reflexive process and the dialectic of text and architectural form illuminating the relation of word and image in Renaissance architectural practice Her revisionist account of architectural design as a process engaging different systems of knowledge visual and verbal has important implications for the relation of architecture and language meaning in architecture and the translation of idea into form

Reclaiming Rome: Cardinals in the Fifteenth Century Carol Mary Richardson,2009-03-25 The fifteenth century was a critical juncture for the College of Cardinals They were accused of prolonging the exile in Avignon and causing the schism At the councils at the beginning of the period their very existence was questioned They rebuilt their relationship with the popes by playing a fundamental part in reclaiming Rome when the papacy returned to its city in 1420 Because their careers were usually much longer than that of an individual pope the cardinals combined to form a much more effective force for restoring Rome In this book shifting focus from the popes to the cardinals sheds new light on a relatively unknown period for Renaissance art history and the history of Rome Dr Carol M Richardson has been awarded the Philip Leverhulme Prize 2008 in the field of History of Arts

A Renaissance Architecture of Power ,2016-04-08 The growth of princely states in early Renaissance Italy brought a thorough renewal to the old seats of power One of the most conspicuous outcomes of this process was the building or rebuilding of new court palaces erected as prestigious residences in accord with the new classical principles of Renaissance architecture The novelties however went far beyond architectural forms they involved the reorganisation of courtly interiors and their

functions new uses for the buildings and the relationship between the palaces and their surroundings The whole urban setting was affected by these processes and therefore the social residential and political customs of its inhabitants This is the focus of *A Renaissance Architecture of Power* which aims to analyse from a comparative perspective the evolution of Italian court palaces in the Renaissance in their entirety Contributors are Silvia Beltramo Flavia Cantatore Bianca de Divitiis Emanuela Ferretti Marco Folini Giulio Girondi Andrea Longhi Marco Rosario Nobile Aurora Scotti Elena Svalduz and Stefano Zaggia

Renaissance Architecture Christy Anderson, 2013-02-28 A completely new approach to the history of Renaissance architecture encompassing the entire continent and dealing with the work of well known architects such as Michelangelo and Andrea Palladio alongside lesser known though no less innovative designers such as Juan Guas in Portugal and Benedikt Ried in Prague and Eastern Europe

Images and Identity in Fifteenth-century Florence Patricia Lee Rubin, 2007-01-01 An exploration of ways of looking in Renaissance Florence where works of art were part of a complex process of social exchange Renaissance Florence of endless fascination for the beauty of its art and architecture is no less intriguing for its dynamic political economic and social life In this book Patricia Lee Rubin crosses the boundaries of all these areas to arrive at an original and comprehensive view of the place of images in Florentine society The author asks an array of questions Why were works of art made Who were the artists who made them and who commissioned them How did they look and how were they looked at She demonstrates that the answers to such questions illuminate the contexts in which works of art were created and how they were valued and viewed Rubin seeks out the meeting places of meaning in churches in palaces in piazzas places of exchange where identities were taken on and transformed often with the mediation of images She concentrates on questions of vision and visuality on seeing and being seen With a blend of exceptional illustrations close analyses of sacred and secular paintings by artists including Fra Angelico Fra Filippo Lippi Filippino Lippi and Botticelli and wide ranging bibliographic essays the book shines new light on fifteenth century Florence a special place that made beauty one of its defining features

Author and Audience in Vitruvius' De architectura Marden Fitzpatrick Nichols, 2017-10-26 Vitruvius' *De architectura* is the only extant classical text on architecture and its impact on Renaissance masters including Leonardo da Vinci is well known But what was the text's purpose in its own time ca 20s BCE In this book Marden Fitzpatrick Nichols reveals how Vitruvius pitched the Greek discipline of architecture to his Roman readers most of whom were undoubtedly laymen The inaccuracy of Vitruvius' architectural rules when compared with surviving ancient buildings has knocked Vitruvius off his pedestal Nichols argues that the author never intended to provide an accurate view of contemporary buildings Instead Vitruvius crafted his authorial persona and remarks on architecture to appeal to elites and would be elites eager to secure their positions within an expanding empire In this major new analysis of *De architectura* from archaeological and literary perspectives Vitruvius emerges as a knowing critic of a social landscape in which the house made the man

Delbeke,M. Schraven,2011-12-09 Bringing together contributions from art history architectural history historiography and history of law this volume is the first comprehensive exploration of the manifold meanings of foundation dedication and consecration rituals and narratives in early modern culture *Allusions and Reflections* Elisabeth Wågghäll Nivre,2015-06-18 In June 2012 scholars from a number of disciplines and countries gathered in Stockholm to discuss the representation of ancient mythology in Renaissance Europe This symposium was an opportunity for the participants to cross disciplinary borders and to problematize a well researched field The aim was to move beyond a view of mythology as mere propaganda in order to promote an understanding of ancient tales and fables as contemporary means to explain and comprehend the Early

Modern world W **Women, Art, and Architecture in Northern Italy, 1520-1580** Katherine A. McIver, 2017-09-29

Expanding interdisciplinary investigations into gender and material culture Katherine A McIver here adds a new dimension to Renaissance patronage studies by considering domestic art the decoration of the domestic interior as opposed to patronage of the fine arts painting sculpture and architecture Taking a multidimensional approach McIver looks at women as collectors of precious material goods as organizers of the early modern home and as decorators of its interior By analyzing the inventories of women s possessions McIver considers the wide range of domestic objects that women owned such as painted and inlaid chests painted wall panels tapestries fine fabrics for wall and bed hangings and elaborate jewelry pendant earrings brooches garlands for the hair necklaces and rings as well as personal devotional objects Considering all forms of patronage opportunities open to women she evaluates their role in commissioning and utilizing works of art and architecture as a means of negotiating power in the court setting in the process offering fresh insights into their lives limitations and the possibilities open to them as patrons Using her subjects financial records to track their sources of income and the circumstances under which it was spent McIver thereby also provides insights into issues of Renaissance women s economic rights and responsibilities The primary focus on the lives and patronage patterns of three relatively unknown women Laura Pallavicina Sanvitale Giacomina Pallavicina and Camilla Pallavicina provides a new model for understanding what women bought displayed collected and commissioned By moving beyond the traditional artistic centers of Florence Venice and Rome analyzing instead women s artistic patronage in the feudal courts around Parma and Piacenza during the sixteenth century McIver nuances our understanding of women s position and power both in and out of the home Carefully integrating extensive archival Plaster Casts Rune Frederiksen, Eckart Marchand, 2010-09-27 This volume originates from an

international conference Oxford University 2007 Texts address plaster casts and related themes from antiquity to the present day and from Egypt to America Mexico and New Zealand They are of interest to classical archaeologists art historians the history of collecting curators conservators collectors and artists Articles explore the functions status and reception of plaster casts in artists workshops and in private and public collections as well as hands on issues such as the making trading display and conservation of plaster casts Case studies on artists use of material and technique include ancient Roman copyists Renaissance sculptors and painters Dutch 17th century workshops Canova Boccioni and others A second theme is the role of plaster casts in the history of collecting from the Renaissance to the present day Several papers address the dissemination of visual ideas models and ideals through the medium Papers on modern and contemporary art illuminate the changing uses and semantic values of plaster casts in this period Amongst the types of casts discussed are artists models and final works as well as casts after antiquities including sculpture architecture and gems dactyliothecae The volume demonstrates the richness of the field both in terms of the material itself and modern scholarship concerned with it Conceived as a handbook for students academics curators and collectors the text will form a standard work on the role of plaster casts in the history of

Western sculpture **Rome** Robert Hughes,2012-10-30 From Robert Hughes one of the greatest art and cultural critics of our time comes a sprawling comprehensive and deeply personal history of Rome as a city as an empire and as an origin of Western art and civilization Starting on a personal note Hughes takes us to the Rome he first encountered as a hungry twenty one year old fresh from Australia in 1959 From there he goes back more than two thousand years to the city's foundation one mired in mythologies and superstitions that would inform Rome's development for centuries He explores in rich detail the formation of empire the rise of early Christianity the Crusades the Renaissance and takes us up to the present through the rise and fall of Mussolini's fascism Equal parts idolizing blasphemous outraged and awestruck Rome is a portrait of the Eternal City as only Robert Hughes could paint it **Rethinking the High Renaissance** Jill Burke,2017-07-05 The perception that the early sixteenth century saw a culmination of the Renaissance classical revival only to degrade into mannerism shortly after Raphael's death in 1520 has been extremely tenacious but many scholars agree that this tidy narrative is deeply problematic Exploring how we can reconceptualize the High Renaissance in a way that reflects how we research and teach today this volume complicates and deepens our understanding of artistic change Focusing on Rome the paradigmatic centre of the High Renaissance narrative each essay presents a case study of a particular aspect of the culture of the city in the early sixteenth century including new analyses of Raphael's stanze Michelangelo's Sistine Ceiling and the architectural designs of Bramante The contributors question notions of periodization reconsider the Renaissance relationship with classical antiquity and ultimately reconfigure our understanding of high Renaissance style Collecting Art in the Italian Renaissance Court Leah R. Clark,2018-06-28 In this book Leah R Clark examines collecting practices across the Italian Renaissance court exploring the circulation exchange collection and display of objects Rather than focusing on patronage strategies or the political power of individual collectors she uses the objects themselves to elucidate the dynamic relationships formed through their exchange Her study brings forward the mechanisms that structured relations within the court and most importantly also with individuals representations and spaces outside the court The volume examines the courts of Italy through the wide variety of objects statues paintings jewellery furniture and heraldry that were valued for their subject matter material forms histories and social functions As Clark shows the late fifteenth century Italian court can be located not only in the body of the prince but also in the objects that constituted symbolic practices initiated political dialogues caused rifts created memories and formed associations Rome in Triumph, Volume 1 Biondo Flavio,2016-06-13 Biondo Flavio was a pioneering figure in the Renaissance discovery of antiquity and popularized the term Middle Age to describe the period between the fall of the Roman Empire and the revival of antiquity in his own time Rome in Triumph is the capstone of his research program addressing the question What made Rome great **Social Mobility in Medieval Italy (1100-1500)** Sandro Carocci,Isabella Lazzarini,Autori Vari,2021-07-27T12:14:00+02:00 This volume aims to investigate the complex theme of social mobility in medieval Italy both by comparing Italian research to contemporary international studies

in various European contexts and by analysing a broad range of themes and specific case studies Medieval social mobility as a European phenomenon in fact still awaits a systematic analysis and has seldom been investigated *iuxta propria principia* in social political and economic history The essays in the book deal with a number of crucial problems how is social mobility investigated in European and Mediterranean contexts How did classic mobility channels such as the Church officialdom trade the law the lordship or diplomacy contribute to shaping the many variables at play in late medieval societies and to changing and challenging inequality How did movements and changes in social spaces become visible and what were their markers What were the dynamics at the heart of the processes of social mobility in the many territorial contexts of the Italian peninsula

Rome: Continuing Encounters between Past and Present Dorigen Caldwell, 2016-12-05 Few other cities can compare with Rome's history of continuous habitation nor with the survival of so many different epochs in its present This volume explores how the city's past has shaped the way in which Rome has been built rebuilt represented and imagined throughout its history Bringing together scholars from the disciplines of architectural history urban studies art history archaeology and film studies this book comprises a series of studies on the evolution of the city of Rome and the ways in which it has represented and reconfigured itself from the medieval period to the present day Moving from material appropriations such as spolia in the medieval period through the cartographic representations of the city in the early modern period to filmic representation in the twentieth century we encounter very different ways of making sense of the past across Rome's historical spectrum The broad chronological arrangement of the chapters and the choice of themes and urban locations examined in each allows the reader to draw comparisons between historical periods An imaginative approach to the study of the urban and architectural make up of Rome this volume will be valuable not only for historians of art and architecture but also for students of cultural history and film studies

computer based investigations on the reliability robustness - May 10 2023

web todays state of the art of predictive high fidelity computer simulation of failure and virtual destruction is illustrated with reference to selected real life computer based investigations on the reliability robustness and failure mechanisms of high power devices ieee conference publication ieee xplore

reliability and robustness of sic power devices ieee xplore - Dec 05 2022

web this contribution describes measures to counter key failure mechanisms in order to ensure safe and reliable operation in a wide variety of applications this approach prevents many risks that potential users would otherwise encounter and provides a safe path to the reliable use of sic technology

reliability robustness and failure mechanisms of led devices - Oct 15 2023

web deals exclusively with reliability based on the physics of failure for infrared leds identifies failure mechanisms lifetime distribution and selection of the best component for dedicated applications uses a complete methodology to reduce the number of samples needed to estimate lifetime distribution

reliability robustness and failure mechanisms of led devices - Jul 12 2023

web sep 23 2016 failure mechanisms are identified based on measured performance before and after aging tests knowledge of failure mechanisms allows formulation of degradation laws which in turn allow an accurate lifetime distribution for specific devices to be proposed

reliability robustness and failure mechanisms of led devices - May 30 2022

web however the control of manufacturing techniques for optoelectronic systems is more delicate than that of microelectronic technologies this practical resource divided into four chapters examines several methods for determining the reliability of infrared led devices

understanding failure mechanisms and components reliability - Sep 14 2023

web nov 8 2023 reliability engineering plays a crucial role in enhancing system robustness reducing failures and ensuring efficient operations here are the three key aspects of reliability engineering can help with failure mechanisms and components system design and risk prioritisation

an approach of robust reliability design for structure system - Feb 24 2022

web jun 1 2010 the computational assessment of system reliability of structures has remained a challenge in the field of reliability engineering calculation of the failure probability for a system is generally

reliability robustness and failure mechanisms of led devices - Jun 30 2022

web failure mechanisms are identified based on measured performance before and after aging tests knowledge of failure mechanisms allows formulation of degradation laws which in turn allow an accurate lifetime distribution for specific devices to be proposed deals exclusively with reliability based on the physics of failure for infrared leds

mechanical robustness of patterned structures and failure mechanisms - Mar 08 2023

web feb 18 2023 reliability limiting effects in microelectronic products can be categorized in electrical effects which are enforced by mechanical stress and in thermo mechanical effects in this chapter we will focus on mechanical degradation and failure mechanisms in backend of line beol structures of integrated circuits 1 1 electrical effects

evaluation of the effects of a machine failure on the robustness - Aug 01 2022

web dec 22 2018 researchers are searching for opportunities to organize production systems that save energy and natural resources preventive maintenance pm is essential for the efficient use of machines and energy saving any rework due to a machine failure consumes additional energy human resources equipment spare parts and raw

reliability robustness and failure mechanisms of led devices - Feb 07 2023

web reliability robustness and failure mechanisms of led devices iste the rapid growth of the use of optoelectronic technology in information and communications technology ict has seen a complementary increase in

reliability evaluation of non repairable systems with failure mechanism - Nov 04 2022

web jun 1 2021 the reliability curves of f m 2 f m 4 are overlapped because of their identical sets of brushes and rotating rings in addition the reliability of the conductive slip ring is more conservative if the trigger mechanism dotted line is considered the failure time of the conductive slip ring is 14 83 years when considering the trigger mechanism

reliability evaluation of non repairable systems with failure - Jan 06 2023

web jun 1 2021 structural reliability analysis often considers failure mechanisms as correlated but non interacting processes interacting failure mechanisms affect each others performance and thereby the system reliability

failure mechanism dependence and reliability evaluation of non - Sep 02 2022

web jun 1 2015 system failure initiates from independent failure mechanisms have effect on or affect by other failure mechanisms and finally result in system failure failure mechanisms in a non repairable system have many kinds of correlation
